## BETTER MATERIAL VERY HARD TO BUY

### Expanded Market Coverage Begins With This Week's Issue

## The Market in Depth

ALLEN HARRIMAN

Trading has been rather active throughout this first week of 1972. Apparently the buyers are back from their holidays and are getting to work in earnest. Gold, better date silver dollars, commems and type material top most "want lists"---with BU rolls and proof sets capturing a lesser share of the action. Bidders are having only moderate success in finding the material they need---and most of those "pre-Christmas bargains" have disappeared from selling lists. As always, the more elusive and unusual items are picked from selling lists almost immediately---again leaving the dealer with a stock of only the more common material. Price cutting is rarely necessary when a dealer has the right coins for sale.

With this first issue of 1972, the CDN offers even more extensive market coverage to subscribers. Page three has been expanded to include BU rolls from 1934, the 1970-S small date cent roll has been added---and, of course, the new 1972 rolls will be included as soon as prices are established. Type coin coverage has been greatly increased on page five---with fifty-eight issues in BU condition and twenty-four in proof now included. This further breakdown of type material is due to even greater buying interest having been shown in 1971---and should be of particular use to the many CDN subscribers who collect and invest in this area of the market.

The "S-mint" proof roll chart has been moved from page five to page six to make room for the additional type material. Also on page six readers will now find that an Eisenhower dollar section has been added and that the Peace dollar set is now a part of the "Single and Roll Set" chart. In the proof set line-up, the 1955 set is now listed separately for boxes and flat packs and the newly discovered 1971-S set with the "Philly" nickel has been added (with the official mintage figure of 1,655 sets).

Also beginning later this month coverage of selected foreign gold issues will be added to page one. This addition will include those foreign gold coins which are most actively traded in quantity---and should be of particular interest to the dealers and investors who have recently expanded their portfolios to include this material.

All in all, it looks as if the coin market is in for an active year in 1972---and the CDN staff hopes that our latest additions will be of benefit to subscribers for a profitable and enjoyable year of trading!

## This Week's Market

**CENTS:** Bargain hunting, as usual, dominates trading in the Lincoln series; one exception is the 1942-D roll---which is bid for in quantity this week at \$6.75 (up about 60% in the past couple of months).

**NICKELS:** A few dealers are still in the market for choice BU Buffalo rolls---but they are sticking to current bid levels in their attempts to buy; the Jeffersons are of only mild interest to buyers at the moment.

1934P - Seldom offered; bid unsuccessfully at \$240

1938S - Now in the \$117.50-\$122.50 range

1950D - Choice BU rolls are available at \$295

1951P - Bucking the trend---with bids at a higher \$23

**DIMES:** The minimum bid for "common date" Mercury rolls edges up to \$30---sales have been very light; a few dates in the Roosevelt series are appearing on "want lists"---but mostly within present price ranges.

1949S - Numerous sales of BU singles at "pro-rated bid"

1950D - A substantial drop---with transactions at a much lower \$73

1953S, 1954S and 1955S - All are around in quantity

**QUARTERS:** Virtually all of the scarce early Washingtons were offered for sale this week---a few at slightly lowered price levels (and they are described as "gems"); a few scattered rolls are in demand.

1941D & S - Both are rather elusive---and both are bid now at \$167.50

1942S - Regular bids at \$500 produce no results

1944S - Up again---with buyers willing to pay \$70

1954S - Offered in quantity around \$22

1955P - Still gaining; bid reaches \$28

**HALVES:** Although buyers haven't raised many bids, all of the Philly rolls (1934-40) and scattered mintmarked rolls from 1941 thru 1947 are on buying lists. In the Franklin series, bidding is less enthusiastic (and usually more successful).

1943S - Up \$5---with bids at \$165

1944D - The one minus sign; available this week at \$120

1947P - Still quite elusive; bid now \$175

1951P & 1953P - Perhaps the two most sought after Franklin rolls at the moment

1970D - This toughie is bid now at \$200

**DOLLARS:** Changes have been extensive this week. The "common dates"

are being listed for sale at slightly lower prices---with only scattered sales noted. Many of the better date rolls, on the other hand, show further gains. Choice material is often priced well ahead of the market.

1878S - Transactions noted at a lower \$76

1879O - Offered at \$110; 1880O - Offered at \$105

1884S - Gem singles are truly scarce; bid now \$90

1890CC thru 92CC - These three advance another notch

1893P - Bid at \$1100---none are available

1894O & 1896O - Higher bids fail to produce sales

1925S - Not even one "original roll" can be located

1928S & 1934D - Further gains registered by both

**PROOF SETS:** Several minor fluctuations are recorded; sales have remained light and scattered.

1937 - Gem sets are wanted at a higher \$250

1954 - Also up; bid now at \$12.75

1960 - Quite elusive at the current bid of \$4.00; watch this one!

1970 Mint Sets - Bid in the \$10.50-\$10.75 area

1970S (P-dime) - Now in the \$425-\$450 range

1971S (P-nickel) - This newcomer is already bid at \$460-\$475!

**COMMEMORATIVES:** Again commems are on the active list. Several buyers want quantities up to a roll of all issues under \$50 per coin---and others will pay "bid" across the board.

**GOLD:** The following prices are for circulated (XF or better) and BU common date gold pieces. Better dates and gem uncirculated specimens bring proportionately more.

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## EMPLOYMENT OPPORTUNITY

First Coinvestors, Inc. is a unique, rare coin  
INVESTMENT (publicly owned) company.

We seek a combination writer/salesman/nu-  
mismatist.

The writing will consist of letters to our  
investors describing the material we sell.

The sales talent must be present in order to  
properly present the rare coins and to speak to our  
investors on the telephone and in person.

The knowledge of rare coins - to some degree -  
is important because the person we seek will have  
an opportunity to head a million dollar subsidiary -  
both on the selling and buying side.

If you are well-spoken, have sales experience,  
can write well, and know of rare coins - write to our  
President, Mr. S. Apfelbaum at 16 McKinley Ave.,  
Albertson, New York 11507. He'll call you if he  
desires further details.

No age, sex or color restriction.

## COMMEMS ARE ON THE MOVE AGAIN

### New Listing Of Foreign Gold Begins With This Issue

### The Market in Depth

ALLEN HARRIMAN

Commemoratives--both silver and gold--are again tying for top trading honors with the better date silver dollars. Numerous dealers are in the market for choice singles--ten pieces to a roll--or even complete 144 piece sets. The number of commems being listed for sale, however, continues to fall far short of the quantities needed. Many of the commemorative coins being purchased are destined for shipment overseas--where they are very popular with foreign collectors of United States coins. Date collecting as we know and practice it--complete sets of Mercury dimes or Walking Liberty halves--is seldom attempted by European or Far Eastern collectors. The U.S. commemorative, then, offers a far more interesting and beautiful challenge--with so many coins in the series being a work of art in the individual sense. Perhaps, too, another reason for the popularity of commems with foreign collectors is that grading is far less of a problem than with other U.S. coins. True, there is always the "slider" or AU piece that is offered as BU. But in the broader sense very few commemoratives were actually circulated--so whether a coin is fine, very fine or extremely fine doesn't become a matter of concern.

With a percentage of our commems being shipped to buyers abroad, it is no wonder that prices have held up so well after the major upsurge of about a year ago. The current bids of \$5200 and \$1900 respectively for complete sets of silver and gold commems both set new records for the last few years of teletype trading--and sellers are not often encountered.

As dramatized by the large number of price changes recorded, the BU roll market--cents thru halves--has been rather active this week. Changes are about two to one in favor of the minus signs--and many dealers have, as usual, seized the opportunity to counteroffer on the rolls they need. Moderate trading has been registered across all series and fairly extensive buying lists are prominently displayed throughout each day (with most of the attempts to buy recorded at "bid" or just below). The 1934 Philly issues (nickels thru halves) are of particular interest--and all are quite scarce. The dime roll especially, as has been pointed out before, is offered even more infrequently than the higher priced 1934-D. A \$500 price tag for this one is a distinct possibility!

In the late date area, 1970-S and 1971-S proof sets, 1970 mint sets (and 70-D half dollar rolls), and Eisenhower dollars are all strong. Buyer interest, too, remains high for proof rolls of 1971-S nickels. Check the charts for the latest changes.

### This Week's Market

**CENTS:** Lightly mixed prices reflect mild buying interest in BU rolls. In the area of "type", Flying Eagle and the copper-nickel cents appear regularly on "want lists"--and a few optimistic bidders still ask for "choice, original BU rolls" of Indians (offering to pay \$300 or so).

**NICKELS:** Gains and losses are about evenly divided; few Buffalo rolls are available--but most Jeffersons can be located with a little patience.

1935D - The current bid of \$260 hardly reflects the true scarcity of this roll  
1938D (B) - Again recorded in the \$100-\$105 range  
1943D - Slightly lower this week; ask is \$61  
1951P - Up another dollar; 1951D & S - Both slip back a notch

**DIMES:** Both varieties of Bust Dimes as well as the "no stars" type register advances--choice pieces are rarely offered. Although the Mercury rolls are virtually unchanged, numerous dates in the Roosevelt series have again edged lower.

1934P - Bid \$285--and no sales have been recorded  
1948P - Transactions noted at \$40  
1949S - Available now at a lowered \$410  
1950S - Also on the minus side; offered at \$210  
1953S & 1954S - Both are on the market at \$15

**QUARTERS:** The "large size" Bust Quarters (1815-28) moves up to \$350 bid for strictly BU specimens; the "reduced size" (1831-38) is very difficult to locate at \$260 bid. In the Washington series, the earlier BU rolls--1934 thru 1941--are receiving most of the buyer attention.

1934P - Another real "toughie"; none offered to bidders at \$275  
1942D, 43D and 44D - All are slightly lower  
1949P - Now pegged in the \$200-\$210 range  
1955D - Scattered sales registered around \$80

**HALVES:** Most of the Walking Liberty rolls from 1934 thru 1947 are in demand--with the 1947-P roll moving up to \$180 bid. Several dates in the Franklin series have been listed for sale this week at lower levels.

1948P - Off \$5; now in the \$100-\$105 area  
1950D - This one is up--with sales at \$150  
1955P - Mild interest; traded during the week at \$98

**DOLLARS:** The scarce date rolls in both series have resumed their advance--

with relatively little material being offered to anxious bidders. Common date bags are bid as follows: Morgans - \$3100; Peace - \$2800 and circulated bags at \$2600.

1878CC - Bid moves up to \$265  
1886O - Sharp jump; bid now at \$375  
1890S - Transactions at a higher \$135  
1903O - Bid reaches the \$500 level; ask is \$525 or more  
1925S - Another major advance; bid recorded at \$350!  
1935P - None available to bidders at \$270

**PROOF SETS:** The early dates--plus the 1970 and 1971 sets--are strong; the dates in between have registered numerous lower prices (see page six for details).

1970 Mint Set - Bid remains around \$10.75

**COMMEMORATIVES:** Gains again pepper both the gold and silver commem charts. Complete 144 piece sets are bid now at a record \$5200--and the 11 piece gold set has reached a bid level of \$1900.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## IT'S COMMEMS ALL THE WAY! Tough Date Morgans Are Elusive In Truly BU Condition

### The Market in Depth

ALLEN HARRIMAN

Fifty-five plus signs have been registered this week by the two commem series! These advances apparently herald a sincere effort on the part of several major dealers to purchase quantities of nearly every issue in the entire commem line-up. Last week's active bidding could have been termed "cautious" in contrast with this week's attempts to buy! The bid for complete 144 piece sets is now \$5300---with the eleven piece gold sets on "want lists" at \$1950. No complete silver commem sets have been offered; a few gold sets are available---priced around \$2050-\$2100. As the recent price rise for the 1904 Lewis & Clark issue would indicate, this issue has apparently turned out to be the most elusive in the set. For several weeks now dealers have been practically begging for even one gem BU '04---willing to "trade or consider any relatively reasonable offer".

In the silver dollar area, several of the moderately priced but really tough dates have shown further substantial gains. On the top of this list are the 1884-S and 1901-P issues---both are bid now at \$100. It is very interesting to note how many dealers continue to advertise both of these coins in the \$65-\$80 range---while their fellow dealers offer to pay considerably higher prices day after day. Of course, this situation is not unique when it comes to better date BU dollars---or, for that matter, type material and other early singles. It appears, however, that the many dealers who sell at "bargain prices"---at anywhere from 20% to 50% under actual dealer bids---must be conducting rather successful operations---considering the high costs of extensive retail advertising. When the collector finally decides to sell his collection of "BU" Morgans---or whatever---he is, of course, in for a rather sad shock---and the coin collecting fraternity has most likely lost another member.

Some other Morgans which are still reasonably priced and which are actually quite few and far between in choice, well-struck BU condition include 1886-O, 1894-O & S and 1896-O (to list only a few). These are among the dates which are now appearing on buying lists---and dates that it might be wise to watch.

The 1970 mint set is on the move, by the way---with sales noted around \$12. All of this interest, of course, is because of the low mintage 1970-D half dollar---which is bid this week at \$225 per roll!

### This Week's Market

**CENTS:** Price changes continue to be scattered and of a minor nature. The 1970-S "small date" roll registered sales during the week at \$42. Circ Indian rolls (G/VG) trade regularly around \$12.50.

**NICKELS:** A few of the Wartime Jeffersons are available at slightly lower levels---but the BU roll set is still bid at \$640. Gem proof Buffalo nickels---1936-37---are difficult to locate at \$100 bid (although inferior pieces are occasionally offered at "bargain prices").

1938D (B) - Again on the market at \$100

1943D - BU rolls are offered at \$60; circ rolls are in strong demand at \$18.50

1971-S - These proof rolls are elusive at \$105 bid

**DIMES:** Prices are still slipping for the Roosevelt rolls. Most of the mild interest noted for this series is centered around single BU sets---which are now recorded in the \$34-\$36 range. Early gem BU Mercuries appear more and more frequently on "want lists"---few really choice pieces are for sale.

1946D - Quantities are available at a lower \$15

1950D - Now trading in the \$70-\$73 area

1955P - Transactions noted during the week as low as \$26

1955D - Also lower---with scattered sales around \$15.50

**QUARTERS:** Several advances have been recorded by the various "type" quarters; increasing the bid levels, however, seldom produces the desired results. BU rolls are lightly mixed and lightly traded.

1941D & S - Both are fairly scarce; bid now \$170 for either roll

1955P - Transactions noted at the new bid of \$29

1955D - Lower again; now in the \$78-\$81 range

**HALVES:** The 1970-D roll leads activity in the halves---with bids (and few offerings) at a record \$225. Single BU Walking Liberty and Franklin sets regularly trade within currently established ranges; BU rolls---with a few exceptions---remain sluggish.

1943D - Offered at a lower \$175

1951D - Offered at a lower \$185

1953P - Scattered sales during the week around \$140

1956P - Offered at a lower \$38.50

**DOLLARS:** Again many of the common dates have edged a little lower---and numerous tough dates have registered gains.

1878CC - Up sharply; bid reaches a record \$285

1884S & 1901P - Single pieces in choice BU condition are bid at \$100 ea.

1886O - Up another \$25; bid now \$400

1887S - Also on the move; bid now \$295

1894O - Choice BU singles are in demand at \$75

**PROOF SETS:** The 1964 set has been on the market by the hundred at \$3.95 plus postage---with a few sales noted at that level. Most of the pre-1964 issues are relatively firm at last week's lowered price ranges.

1970 Mint Sets - Now in the \$11.50-\$12.50 range; sales as high as \$12

1970S (sm) - Sales at a higher \$28-\$29

1970S ("P" dime) - This scarce set slips back to \$415 ask

1971S ("P" nickel) - Moving in the opposite direction; bid at \$475!

**COMMEMORATIVES:** Gains are far too numerous to list here---see page two for what is surely a record number of advances for a single trading week.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## PROOF SETS

	BID		ASK			BID		ASK		
--	-----	--	-----	--	--	-----	--	-----	--	--

I have just purchased several really GEM BU Washingtons. These are not just UNC---or so-called BU pieces - they are flawless, extremely CHOICE COINS---sorry I can't sell these at "BID"--- but I paid more than that:

1932-P-\$23; 1934-D-\$56; 1935-D-\$56; 1935-S-\$23;  
1936-S-\$23; 1937-S-\$42.50; 1938-P-\$26; 1938-S-\$21.50  
1939-S-\$23; 1940-D-\$26.50

1882 AU/UNC INDIAN HEAD CENT-----\$9.50

1854 slider/BU QUARTER WITH ARROWS---very scarce type coin. This is probably nicer than most retail ad "BU GEMS"-----\$57.50

Choice PROOF LINCOLNS: 1956, 1960 SMALL DATE, 1961, 1962 & 1963---the five for-----\$12.50

Five 1929-P Mercury Dimes - UNC - not gems but nice - as a lot-----\$15.00

CYPRUS 45 Piastres 1928 CROWN - XF/AU choice-----\$22.50

Small lot of low-grade BUFFALOS---good dates for space fillers: type ones: (2) 13-P, (3) 13-D, (1) 13-S; type two: 13-D, 14-D, 16-D, 17-S, 18-D & S, 26-S---13 pieces---\$10.00---these range Fair/AG--- all are identifiable---none are damaged.

PROOF SINGLES: '64 & '68-S Halves; '51 & gem frosted '56 Quarters; '58 & '60 Dimes; '56 & '68-S Nickels---plus (2) '65 and (1) '66 Kennedy Halves from the S.M.S.---lot of 11 pieces---\$20.00

COLUMBIAN HALVES: 1893 superbly toned violet and green-blue ---a choice coin for the collector who wants "original" pieces---\$15; another 1893---just as nice with lighter but choice original toning-----\$13.50

A GEM 1926-D Peace Dollar---perfectly struck and completely free of bag marks, rubbing or abrasions-----\$12.50

Small lot of LINCOLNS: 1929-P original BU; 1931-P GEM BU; 1933-P strictly AU (Looks BU) and (2) 1960-P small dates--- 5 pieces-----\$14.00

1893-P Morgan Dollar - at least XF/AU with partial PL surface-----\$29.50

1877-S TRADE DOLLAR---a choice AU/UNC with only slight "cabinet friction"; the usual retail ad "GEM BU"---\$70.00

Miscellaneous lot: 1852 three-cents silver FINE; 1829 Bust Half Dime VF or better; 1860 Half Dime sharp VF/XF; 1869 Shield Nickel F/VF plus 1835 Half Dime in fair condition--- the five coins-----\$29.50

## COMMEMS AND DOLLARS STILL TOP ACTIVE MARKET Two New Numismatic Books Of Prime Interest Have Been Released

### The Market in Depth

ALLEN HARRIMAN

Two important new books have recently arrived upon the numismatic scene--both of which should bring about definite improvements in the tone of an already improved market. It is suprising, actually, how many collectors and investors still fail to take advantage of the very books which would increase not only the pleasure of collecting--but also the potential profit to be realized. We recommend that the reader consider both of the following new works.

Mr. Harry J. Forman--one of the leading numismatists and dealers in the country--has just released his "How you Can Make Big Profits Investing in Coins". Here is a realistic approach to coin investing. In contrast with the many books which have painted such overwhelmingly rosy pictures, Mr. Forman is specific in his recommendations. Areas in which he expects little or no action in the next few years are pinpointed as well as those in which he expects the greatest appreciation. In addition, his book covers all areas of numismatics--rolls, proofs, commemoratives, gold, early singles and more. Investors would do well to familiarize themselves with the specific recommendations made in this book--chances are there are "big profits" to be made--as well as numerous errors to be avoided.

The second important new publication is far more specialized than the first. It deals solely with half cents. The book is titled "American Half Cents--The Little Half Sisters" and is authored by Mr. Roger S. Cohen, Jr. This book will certainly be extremely welcome to those who are at all interested in half cents--either seriously or merely in passing. This handsome volume is the most thorough work ever published on half cents--a subject in which Mr. Cohen has been interested in since childhood. Illustrations abound--all varieties--rarities--and such areas as design description, die preparation and types of planchets used are all covered with the utmost care. This book is certainly a "must" for any collector of half cents--and would also most certainly be a wise investment for anyone who handles half cents in his numismatic dealings.

The coin market this week has continued pretty much along last week's lines. Commems still top "want lists"--scarce date Morgans and Peace dollars are very difficult to locate in choice condition. The buyers of tough date silver dollars is warned again to double check the quality of coins before purchase--"sliders" are plentiful and often are described rather optimistically! The 1970 mint set is certainly on the move--and the 1971-S proof set with the "P" nickel is up to \$600 bid.

### This Week's Market

**CENTS:** Those dealers who offer to pay "bid plus shipping" for Lincoln rolls will most likely find that they have purchased the rolls they need (there are probably a few exceptions in the pre-1941 dates).

**NICKELS:** Trading has been moderate throughout the week. Choice BU Buffalo rolls remain on "want lists" at current bid levels; price changes for the Jeffersons are lightly mixed.

1935D - A very scarce date; one roll changed hands at \$285  
1938D (J) - Now in a lower \$100-\$105 range  
1942P (t2) - Also off \$5; offered around \$205  
1950D - Transactions recorded at \$285

**DIMES:** Virtually no changes have been registered by either the Mercury or Roosevelt rolls; trading has been extremely light. The "large size" Bust dime (1809-28) and the Seated Liberty "no stars" variety (1837-38) are particularly rare in really gem BU condition; both have recorded higher bids this week.

**QUARTERS:** Early date Washington rolls--especially the Philly issues--are still in demand; very few are offered at reasonable price levels. Single BU "short sets" (1941 to date) are once again in the \$88-\$92 area.

1944S - Apparently quite scarce; bid as high as \$75  
1950P - Available in quantity around \$29  
1955P - Higher again this week--with sales at \$31

**HALVES:** Practically every Walking Liberty roll is appearing on buying lists; dealers offer to pay "bid"--but sellers usually stick to "ask" on their offerings. Scattered dates in the Franklin series are elusive--but most are rather easy to locate.

1934P - Considerably more scarce than the current bid of \$145 would indicate  
1947D - In demand this week at \$120  
1952D - Several transactions noted around \$26  
1953S & 1954S - Mild interest at current price levels  
1970D - Up again; bidders are unsuccessful at \$235

**DOLLARS:** Numerous gains are scattered across the charts; the better dates,

as usual, are very seldom offered. "Bid plus postage" will usually obtain the common dates.

1878 (7tf) - Up this week--with bids at \$87  
1878CC - A substantial jump; bid reaches \$315  
1879O - Lower--rolls are available at \$105  
1896O - Still advancing; bid now \$410

**PROOF SETS:** The early issues (1936 thru 1939) have all registered gains; changes are minimal for the later date sets.

1970 Mint Sets - Up again; bid reaches the \$13.00-\$13.25 range  
1970S - Sales noted as high as \$7.75  
1970S (P-dime) - Lower; now in the \$380-\$410 range  
1971S (P-nickel) - Really on the move; bids (and sales) at \$600

**COMMEMORATIVES:** This week's advances are as impressive as those registered last week. Ask prices manage to stay somewhat ahead of the bids--thus sales have remained light to moderate.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

I have just purchased several really GEM BU Washingtons. These are not just UNC---or so-called BU pieces - they are flawless, extremely CHOICE COINS---sorry I can't sell these at "BID"--- but I paid more than that:

1932-P-\$23; 1934-D-\$56; 1935-D-\$56; 1935-S-\$23;  
1936-S-\$23; 1937-S-\$42.50; 1938-P-\$26; 1938-S-\$21.50  
1939-S-\$23; 1940-D-\$26.50

1854 slider/BU QUARTER WITH ARROWS---very scarce type coin. This is probably nicer than most retail ad "BU GEMS"---\$57.50

Brown UNC 1837 Large Cent TOKEN (Bust of Liberty and "E. Pluribus Unum" Obv; wreath and "Millions for Defense"---Rev.-----\$7.50

Small lot of circ Jeffersons: (6) 38-P, (20) 38-D, (5) 38-S, (1) 39-S, (6) 39-D, (14) 42-D, (16) 43-D, (1) 50-P, (9) 51-S  
78 pieces-----\$50.00

Two RARE S.L. HALVES: 1888 and 1889---both are choice AU coins with PL surfaces---\$70.00 each

Type set of U.S. five cent pieces in custom plastic holder:  
1857-O half dime PL surface AU; 1873 Shield and 1905 Liberty UNC; 1916-P Buffalo and 1938-P Jefferson BU-----\$60.00

SILVER DOLLARS: 1880-CC VF-\$30; 1892-CC strictly BU-\$27 (2 available); 1891-S AU-\$5; 1892-P XF+-\$6; 1893-P XF/AU with partial PL surface-\$29.50; 1927-P UNC---\$20.00 (2 available)

SEND FOR MY NEW SELLING LIST #2---quite a nice lot of coins from half cents thru dollars. The response to my first list was excellent.

## 1970 MINT SETS IN GREAT DEMAND Trading in Circulated Rolls Picks Up Within Current Price Levels

### The Market in Depth

ALLEN HARRIMAN

The 1970 mint set has been one of the main subjects of teletype messages throughout the week. Eager buyers have crowded the tapes—with bids and sales were recorded as high as \$14 by mid-week. Bidders want these sets by the hundred—but most of the sellers have only ten or twenty sets on hand. The 1970-D half dollar roll is virtually non-existent—although optimistic dealers continue to raise their bids (\$240 this week) in attempts to corner a roll or two. During the later part of the week, profit taking entered the picture and prices softened slightly—with bids noted mostly around \$13.50—and sellers willing to part with a few sets at \$14 or so.

Mint sets—unlike proof sets—are seldom ordered in quantity and it is difficult for dealers to accumulate hundreds of sets. Although there is a limit on the number of proof sets as well as mint sets that an individual can order, dealers and investors make an effort to obtain quantities of proof sets each year. Mint sets are seldom ordered in this way. Of course, if it wasn't for the 1970-D Kennedy half, the 1970 mint set would be as lightly traded as all the rest of the late date mint sets. The 1970 set simply sneaked by most people! Fewer mint sets were ordered than proof sets—and by far more individuals. In other words, the mint sets were basically scattered to the winds—with hundreds of thousands of people ordering a few sets. The proof sets, on the other hand, were available by the hundred—or thousand—within a couple of months after release.

Bidding for circulated rolls was on the upswing this week. In the Jefferson series, the 1938-D & S rolls have registered gains and the common date early rolls (which were hardly ever saved) are in considerable demand. As an example, the 1947-S circ roll is easy to locate in quantity and is priced lower than the 1947-D roll—which practically no one bothered to put away. This will prove to be the case, no doubt, with most of the early Philly and Denver rolls. The circ San Francisco issues are beginning to be the most plentiful.

In the area of dimes and quarters, it will be interesting to see what percentage of circ rolls were dumped into the melting pot when common silver topped the 30% mark a while back. One bidder this week was having a tough time coming up with only twenty-five roll of circ 1946-S dimes!

### This Week's Market

**CENTS:** Choice BU rolls of 1934-D Lincolns are few and far between—continued bidding at \$175 rarely results in transactions. The 1942-D roll has virtually doubled in recent weeks—with bids for spot-free rolls recorded this week at \$8.25. Changes for the remainder of the series are insignificant.

**NICKELS:** The Wartime issues have been moderately active throughout the week; prices are lightly mixed. The Wartime roll set is now in a lower \$630-\$660 range—mostly the result of the profit taking involving the 1942-P (2) roll.

1937D & 1938D (B) - Both were bid this week at \$97.50  
1950D - Numerous sales within the current range of \$280-\$295  
1951P - Still advancing—with bids at \$28

**DIMES:** Single BU "short sets" of Mercury dimes (1934-45) are very seldom available—hopeful bidders regularly offer \$100 per set (or ask for "quotes, please"). The Roosevelt sets are basically quiet; single BU sets continue to trade around \$35.

1937D - Up \$5; bid this week at \$175  
1938P - Another scarce date—now receiving bids at \$112.50  
1949S - Lower; now registered in the \$380-\$405 area  
1951S - Also off a little; available at \$115

**QUARTERS:** Several gains have been noted for proof and BU type quarters—Seated Liberty and Barber varieties. As usual, "sliders" and hairlined coins are a problem and many coins are returned to the seller. For the Washington rolls, a few scattered increases have been recorded.

1941P - This one has joined the "D" and "S" rolls on buying lists  
1944S - Still in demand; bid this week at \$76.50  
1949D - Also on the plus side; bid now \$85  
1955P - Sales noted at the higher bid of \$31

**HALVES:** The Seated Liberty half dollar with arrows at the date—minted in 1854 and 1855—is a very under-rated type coin. The current higher bid of only \$87.50 hardly represents the true scarcity of gem BU specimens. This one has a long way to go! Walking Liberty and Franklin rolls remain basically steady in moderate trading.

1946D - Perhaps the most sought after W.L. roll this week; bid move up to \$412.50

1970D - Still moving; bid now at \$240—with no rolls offered

**DOLLARS:** Several of the Carson City rolls were available this week—some at lower levels (82CC, 83CC & 84CC). Prices, as usual, have been strong for the better dates—with "bargain offerings" occasionally registered by the common dates.

1878(81f) - Now in the \$190-\$200 range  
1884CC - Up slightly—with bids recorded at \$460  
1921 Peace - Bid reaches \$620; none available  
1927S - Rarely offered; bid now \$660

**PROOF SETS:** Numerous price fluctuations are reported—about evenly divided between gains and losses and all of a minor nature. Trading volume remains light.

1970S - At week's end recorded at \$7.80 bid—\$8.10 ask  
1970 Mint Set - Extremely active—now in the \$13.50-\$14.25 range  
1971S - Sales early in the week at \$5.20; ask later moves back up to \$5.55

**COMMEMORATIVES:** "Want lists" remain quite extensive—with a few more issues moving ahead. Sellers, in general, are holding out for an extra dollar or two—so sales have been only moderate.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it  
closed Friday afternoon. Under the pre-  
sent system, it is impossible to monitor  
all transactions or offers to buy and sell,  
but the broad information sources of the  
Newsletter make it a very accurate reflec-  
tion of the market.

**INVESTORS NOTE:** the price in the  
Newsletter are from dealer-to-dealer trans-  
actions. As an investor, you may place  
your buy and sell orders through a dealer  
for a fee, as you would buy stock through  
a broker.

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## COMMEMORATIVES ADVANCE ANOTHER NOTCH

### Scarce Dollars are Strong, Early Franklins Begin To Move

## The Market in Depth

ALLEN HARRIMAN

Commems are still on the move! This week of active bidding has witnessed another wave of plus signs--affecting approximately half of the issues--and still dealer needs have not been satisfied. Buying lists continue to request quantities; selling lists, however, remain rather limited--with prices always a couple of dollars ahead of the bids. Dealers regularly "cherry pick" selling lists--taking the more elusive issues and the "gems". No complete sets of 144 pieces--or 50 piece type sets--have been offered for sale in the past few weeks.

Silver dollar bidding is also very active. As usual, the tough dates are the ones in demand--choice BU singles or "original rolls". Trading has been very light--simply because practically none of the really scarce dates are available. An occasional roll of Carson City issues (1878, 1883, 1884, 1890 or 1891) is offered--with substantial price tags--but the New Orleans and San Francisco issues in the higher price ranges almost never appear on the tapes. Bidding for silver dollar bags is also monitored on a regular basis--but not at levels which have encouraged quantity sales. Dealers will now pay \$3100 for Morgan bags--\$2700 for Peace dollars--and in the \$2500-\$2525 range for circulated bags. Sellers are to pay freight.

An interesting "first" was seen on the tapes this week--the sale of a 1968-S proof set with a "Philly" dime. No price was quoted--as part of the transaction was completed by phone. Reports of 1968 sets with this mint error have been noted from time to time since mid-1969--but this is the first set to be traded on the teletype circuits. The "Redbook" acknowledges the existence of the proof dime without a mintmark (see page 112)--however, the proof set listing (page 60) includes only the 1970-"S less" set. It will be interesting to see if the buyer of this one set will be able to locate any more. Now, of course, it only remains for some lucky person to discover a 1969 set with a missing mintmark!

## This Week's Market

**CENTS:** Selling lists are, as usual, rather extensive; buyers, on the other hand, remain selective in their light trading.

1939D - Again recorded in the \$50-\$53 range

1942D - Another sharp jump--with sales as high as \$10

1942S - Choice rolls are reasonably priced at \$78.50

**NICKELS:** More buyers are becoming interested in Buffalo rolls--and all but a couple of issues are quite elusive. The prices being offered--so far--are still within current ranges. Prices changes in the Jefferson series are slight; BU single sets are now in a lower \$74-\$77 area.

1937P - Several transactions around \$122.50

1939S - Up \$5--with bids noted at \$240

1946S - Quantity sales this week at \$20

1950D - Lower--with sales at the \$280 level

**DIMES:** Circulated Mercury dimes--1916-31--are wanted by the roll; many dates (especially the Denver issues) are very difficult to locate in quantity in full rim Good and better condition. Mercury and Roosevelt rolls are lightly traded as buying interest remains centered elsewhere.

1946S - Lower--with choice rolls offered at \$20

1950D - Also on the minus side; ask is now \$71

1953S & 1954S - Rolls listed in the \$14-\$15 range fail to interest buyers

1955P - Bidders offer \$26.50 for large quantities

**QUARTERS:** Very little activity has been registered by the Washington rolls; prices are firm. Choice early singles--1932-40--continue to record moderate trading.

**HALVES:** Several of the "common date" P-mint Walking Liberty rolls show small gains--with \$84 now the bid for most dates. Bidding is on the increase for the Franklin rolls--with buying attempts now being concentrated on the earlier issues.

1948P & D - Both register small gains

1949S - Up \$5; bid this week at \$220

1951P - Regular bidding at \$70 has failed to produce even one sale

1951D - Up \$10--with bids noted at \$185

**DOLLARS:** Many of the better date rolls in both series have advanced another notch this week--with actual transactions still few and far between. The "common dates", in contrast, are offered regularly and in quantity.

1878 (7tf) - Up again; bids recorded at \$89

1883S & 1886S - Bid \$700 and \$590 respectively

1890CC - The bid moves up to \$460

1894S - A very scarce roll; bid now \$910

1897S & 1898S - Both move up; none offered

1934P - Bid now \$380; 1935P - Bid now \$280

**PROOF SETS:** Trading has picked up slightly; prices reflect only minor changes.

1950 & 1951 - up a little--with several sales noted

1970S - Now in the \$7.65-\$7.95 range

1970 Mint Sets - Still strong; most bids are now around \$13.50

1971S ("P" nickel) - Somewhat more settled--in the \$525-\$550 area

**COMMEMORATIVES:** Again the chart is peppered with plus signs; bidders are still in the market for "up to two rolls" of most issues. Sellers, as always, manage to keep their "ask" levels somewhat ahead of the new higher bids.

**U.S. GOLD:** (Better dates and gcm specimens bring proportionately more than the prices listed below.)

## 1970 MINT SETS TOP MARKET ACTIVITY Commems Remain On "Want Lists"; Type Coins Strong

### The Market in Depth

ALLEN HARRIMAN

For a while it seemed that every other teletype message this week was concerning the 1970 Mint Set. Beginning at last week's price level of \$13.50, buyers raised their bids almost on an hourly basis throughout the week. As soon as a dealer would locate a few sets—perhaps at \$14.50—the bid would advance to \$14.75. The bid level, of course, for the 1970-D half dollar roll kept pace with all this activity—advancing from \$250 to this week's \$285-\$310 level (with a few scattered sales recorded along the way—some as high as \$300). The Mint Set ended the week with most bids slightly topping \$16—and ask ranging from \$17 to \$20!

There are a few interesting rolls of Walking Liberty halves in the pre-1941 issues that are seldom offered—and that are quite good investments at today's prices. Most of the mintmarked dates in the 1934-40 range are very scarce—some, of course are extremely rare. On the other hand, the 1939-D and 1940-S rolls are priced at lower levels than several of the later and more plentiful dates. Demand for dates in the "short set" (1941-47) has kept these prices in line with scarcity—but, at this point, the 39-D and 40-S have been left behind. Both of these rolls—when located in strictly choice condition—will make excellent medium to long term investments. A word of caution: the 1940-S roll is probably the worst struck issue of the entire Walking Liberty series—far worse than the 1941-S roll (which usually gets this dubious honor of this title). Dealers continually ask for "even one or two pieces" of 1940-S halves in fully struck condition—and price tags for choice specimens often are double the pro-rated roll price.

Of the pre-1941 Philly issues, the two most plentiful dates are 1935 and 1936. During the past year both of these dates have been available in ten roll quantities—or more. Why the 1934-P roll is bid at virtually the same price level as these two is a mystery. No rolls have crossed the tapes within the past year—still the bid is only \$145! The 1937-P roll, too, is far more elusive than the issues from the two previous years—and yet the bid remains static at \$140. The scarcity of the 1939-P roll has been recognized to some extent (bid \$157.50) and the 1904-P is reasonably priced at \$130. Neither of these, however, are as easily located as the 35-P and 36-P rolls. Investing in choice, fully struck BU rolls of 1934-P, 1937-P, 1939-P or D and 1940-P or S falls into the "blue chip" category!

### This Week's Market

**CENTS:** The 1960-P small date roll traded during the week at \$90—and the Denver version registered a bag sale at \$125. Prices, in general, are very lightly mixed and interest remains highly selective.

**NICKELS:** Regular bidding at current levels fails to produce many sales of Buffalo rolls (the 34-P & D and 35-D are, as usual, particularly difficult to locate). The Jeffersons are mostly quiet—with BU single sets now in the \$72-\$75 range.

1937D - Bid moves up to the \$100 mark

1942S - Lower; choice rolls are offered at \$75

1946S - Another advance; transactions at a high \$20

1950D - Several sales noted around \$280

1951P - Profit taking enters the picture; back to the \$26-\$28 range

**DIMES:** As with the Buffalos, the 1934 and 1935 Mercury issues are proving elusive. The single BU Roosevelt set is now available in quantity around \$35; only slight fluctuations are registered by the BU rolls.

1938P - Sales noted at \$115

1955D - A bag was traded this week at \$1500

1955S - Increased bidding—and sales—within the current price range

**QUARTERS:** The 1944-S roll has made a great leap forward—with bids recorded as high as \$86 (none have been offered for sale). Prices for the remainder of the series are basically steady—with BU single sets now in the \$87-\$91 area.

**HALVES:** Liberty Seated and Barber halves again move forward—with strictly choice BU specimens seldom listed for sale. Proofs of these early halves are actually easier to locate—but most of these have been improperly cleaned and are hairlined. Several dates in both the Walking Liberty and Franklin series remain in mild demand.

1946P - Somewhat more scarce than the other late Philly issues (1941-45); bid now \$95

1947P - Up another \$5; bid reaches \$185

1951P - The toughest of the medium-priced Franklin rolls; bid \$72.50

1970D - Transactions noted as high as \$300!

**DOLLARS:** The common date Morgans are still very easy to locate—and many sellers will negotiate just a bit. On the other hand, those few scarce date rolls which are offered usually are priced ahead of the market.

1882CC - Bid moves up to \$595

1883CC - Also up—with bids noted at \$585

1885S - Bidders offer \$255—to no avail

1891CC - Bid moves up to \$485—a \$25 gain!

1892CC - Still underpriced at \$1075 bid

**PROOF SETS:** The 1970 mint set leads all activity in this segment of the market with bids—and sales—as high as \$16. The 1970-S is also on the up-swing at \$7.90 bid.

**COMMEMORATIVES:** Very active bidding continues—with "up to two rolls" of most issues still the object of some bidders. Price increases this week, however, are slight and scattered—as most dealers stick to last week's bid lists.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

I am not a coin dealer. I am a  
 wholesale sporting goods dealer  
 and I sell to gun dealers who re-sell  
 these coins at their gun shows.  
 They say they cannot sell at RED-

## BU ROLLS STEADY; TRADING MODERATE Dealers Have A Tough Time Re-stocking Choice Type Material

### The Market in Depth

ALLEN HARRIMAN

The 1970 mint set has settled back into a more regulated trading pattern--at least, for the moment. Although still quite active throughout the week, bidding was registered mostly around the \$15 level--or just slightly higher. Sets were available in small to moderate quantities--priced mostly in the \$15.75-\$16.25 range. Of course the 1970-D half dollar roll was directly affected by this leveling off trend--with the bid-ask recorded at \$275-\$300 at week's end. It should be noted that these sets are not available in great numbers--and that any which are offered at even a few cents less than the "going price" of the moment are snapped up almost immediately.

Commemoratives remain very strong. "Bargain offerings" are non-existent--and buying lists are lengthy. Gains this week--while not of a record-setting number--are numerous and cover singles, sets and several gold issues. None of the gold commems, by the way, are available in any quantity--and any choice piece which carries a reasonable price tag sells quickly. Buyers are less interested in bargaining than in quality--and "superb" specimens will often fetch well over the usual "ask" prices.

Dealers are finding it more and more difficult to re-stock choice type material. At several major conventions in recent months the dealer-to-dealer trading has been fast and furious. Many dealers attend these shows more in the hopes of buying than selling and they often come armed with the "want lists" of their customers "back home"--or long lists of their own needs. Perhaps the most common complaint is that they "can't buy choice material anymore"--or that "dealer-to-dealer prices" are now strictly at retail levels. A really superb coin may change hands three or four times at a single coin show--each time being sold to get another dealer for a still higher price. Overgrading is, as always, a problem--and the tendency to describe a coin as a "gem" that is merely a nice BU piece is becoming increasingly evident.

It is still an education to examine a number of current retail ads. More often than not, type coins which are described as anywhere from UNC to choice or gem BU are still offered at prices which are considerably below what dealers are willing to pay each other for the same coins. One of the numerous advantages that CDN subscribers have over non-readers is that they can check these retail offerings and almost invariably determine the condition of a particular coin before ordering. Why should dealers pay for advertising space to sell their coins to the public for less than they could get from the nearest dealer?

### This Week's Market

**CENTS:** Both the 1960-D small date and the 1955-S rolls are currently bid for in bag quantities; the 1960-P small date roll is slightly higher--with transactions noted at \$92.50.

**NICKELS:** Bids at the \$100 mark fail to produce sales of choice proof Buffalo nickels--with a total mintage of only 10,189 pieces (1936-37) these should be considered a blue chip investment when obtainable in gem condition. The BU rolls in both series have remained unchanged and lightly traded throughout the week.

1946S - Continued interest at the present bid of \$20

1955D - Several sales again this week around \$280

**DIMES:** Common date "P" mint Mercury dime rolls trade occasionally within the \$30-\$32 range; the better date rolls in the 30's are seldom offered. Prices in the Roosevelt series register a few insignificant gains.

1934P - A very scarce roll; none available to bidders at \$285

1946S & 1947S - Both record transactions at \$19

1955D - Now back in the \$15-\$16 area--wanted in quantity

**QUARTERS:** Gem proof Barber quarters reach \$90 bid--choice uncleaned pieces without hairlines are seldom offered below \$100. Washington rolls are very lightly traded; prices nearly unchanged.

1944S - Buyers are still interested--at \$86

1955D - Edging even lower; offered now at \$78--with an occasional sale at that level

**HALVES:** Increased bidding is noted for circulated Franklin rolls--so far, buyers have been able to locate the dates they need without disturbing the bid-ask levels. Seated Liberty half dollars in choice proof condition are elusive--prices advance again.

1948D - Price advances slightly; mild interest continues

1951P - One or two rolls were offered--and sold--at \$75

1953P - Bid regularly at \$140; very few available

1955P - Trading now in the \$93-\$97 range

1970D - This week's bid is \$275--a few are offered at around \$300

**DOLLARS:** Several of the really tough San Francisco rolls--1883 thru 1889--have recorded further gains. (None of these extremely elusive dates have

been available in months.) Carson City issues are wanted--singles and rolls--and the scarce singles in the 1892-97 group are, as always, in strong demand.

1878P (7tf) - Up again--now in the \$92-\$96 range

1884S - Bid now at \$1900--a few singles trade around \$105

1886S - Bid moves up to \$595

1888S - Bid moves up to \$610

1891CC - Up again--with bids at \$500 this week

1901P - Also bid at \$1900--a rare roll!

**PROOF SETS:** A few minor gains are scattered across the chart; dealers seem to be buying in ten or fifteen set lots at present prices for store stock. The 1970 mint set settled down to a more normal trading pace--in the \$15-\$16 area.

**COMMEMORATIVES:** The Texas sets were in particular demand throughout the week--increases were numerous; several issues in the gold commem line-up advance again.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## MARKET EXTREMELY ACTIVE, PRICES UP

### Commems, Walking Liberty Rolls and Proof Sets Top Buying Lists

### The Market in Depth

ALLEN HARRIMAN

A few weeks ago this column pointed out that those pre-1941 Walking Liberty half dollar rolls were underpriced. Bidding this week has thoroughly reflected the scarcity of these rolls--and prices have advanced for every issue that is traded by the roll. It should be pointed out, also, that these higher bids have resulted in very few actual transactions. Prices seem certain to continue their advance--especially for the 1934-P, 1937-P, 1939-P & D and 1940-S rolls. Increased buying interest has included a number of the rolls in the 1941-47 "short set"--with 1942-S, 1943-S, 1945-D and 1947-D leading the way on "want lists".

Numerous and substantial price hikes have again been generously scattered across the commems charts with these higher bid levels dealers are still in the mood to buy roll quantities--yet they are having to settle for an occasional single or two of most of issues they need. Those bidders who offer to "pay bid" are topped by others who offer to pay "a dollar over bid"--and, in turn, these buyers are surpassed by another dealer who runs long "want lists" with entirely new and higher buying prices. The Alabama 2x2 issue has moved up, as an example, a full ten dollars in this past week--and dealer needs are far from satisfied. Although demand certainly could lessen at these prices, no let-up in buying pressure is yet in sight. In fact, it is obviously going to take even more substantial buying prices to fill only the buying lists which are currently being monitored.

Proof sets constitute another active area of the market. Buying interest--while not at the pace of the commems--has gradually increased during the past two weeks. "Bargain offerings" have all but disappeared and dealers have begun to edge their bids higher in attempts to re-stock as well as fill the needs of their investors. Special interest is being paid to the lower mintage sets which seem most underpriced in relation to the later "S" mint sets--1956 thru 1959.

Silver dollar bags are regularly bid as follows: circ bags (VG/better) up to \$2600; BU Morgan bags (no 1921) - \$3150 and BU Peace dollar bags at \$2725. In the BU rolls, demand is strong for the San Francisco issues after 1882, the Carson City rolls and scarce gem singles in the 1892-97 range. In other words, the buying pattern remains about the same.

### This Week's Market

**CENTS:** Selective bidding is noted--especially for such issues as 34-D, 35-S, 39-D, 42-S etc. Although inferior rolls are often listed for sale, truly gem BU rolls are still not easily located at today's prices. The 1859 copper-nickel Indian Head Cent has taken a substantial jump--with choice pieces now wanted at \$75.

**NICKELS:** Although an occasional gain was registered by various rolls, the single BU Jefferson set is lower this week at \$70-\$74--and the BU roll set of Wartime issues has settled a bit--to \$620-\$650.

1934D - A single BU roll traded at \$350  
1937D - Transactions at a higher \$105  
1939S - Also up--with bids noted at \$250  
1950D - Bid again at \$285--with sales as high as \$295

**DIMES:** Interest in common date "P" mint Mercury rolls continues--with quantity sales at \$30 noted during the week. BU single sets of Roosevelt trade frequently around \$35; the rolls are lightly mixed. Barber dimes in gem proof condition move up to \$67.50 bid.

1950D - Lower; now in the \$65-\$68 range  
1955P - Increased bidding; sales at \$28  
1955S - Now in demand in quantity--with bidders offering \$1250 for bags

**QUARTERS:** Considerable buying interest is noted for the early "P" mint rolls--and the few which are offered at reasonable prices sell rather quickly. Of the dates after 1940, the 1944-S continues to be of the greatest interest--with bids this week at \$93!

**HALVES:** Ten different issues in the Walking Liberty series have recorded advances this week. Very few rolls are being listed for sale--and those which are available often carry "next months" price tag. The Franklins, too, have enjoyed a few scattered gains.

1934P - Bid now at \$150--none offered  
1935P & 1937P - These two reach the \$145 bid level  
1939P - Transactions registered as high as \$172  
1939D - Bid moves up to \$180  
1940S - Bid moves up to \$162.50  
1947D - Regular bids of \$122.50 fail to produce results  
1952S - Rather elusive--at the new bid of \$121.50

**DOLLARS:** Again the tough San Francisco rolls have led the week's activity

--with virtually no "S" mint rolls after 1882 on the market. The common date issues are still plentiful within recent price ranges.

1886O - A very large advance--to \$610 bid  
1890S & 1891S - Both move ahead; none available  
1894S - Bid moves up to \$920  
1897S - Bid moves up to \$205  
1903S - Choice singles are bid now at \$345

**PROOF SETS:** All issues after 1953 are now wanted--in quantities of from ten or twenty sets to lots of one hundred or more; prices edge higher for a number of issues.

1954 - Transactions at a higher \$13  
1955 - Both versions advance; few are offered at today's prices  
1956 - Bid moves up to \$7.30  
1957 & 1959 - Both are bid this week at a higher \$4.20  
1970 mint set - Still active--but in a lower \$14.50-\$15.50 range

**COMMEMORATIVES:** Check page two for another round of substantial gains. Sales have been moderate--but they haven't kept up with demand!

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

LATE DATE "S" MINT PROOF ROLLS

[illegible]

Nice lot of BARBER DIMES: 71 "P" mints and 37 mintmarked pieces--GOOD, VG and a few FINE (the MM coins book in the .75 to 1.50 range)--108 coins-----\$40.00

The very scarce 1819/8 BUST HALF--an original BU coin with only the slightest cabinet frictions (flawless GEMS are worth \$250 or so)--a choice coin--original and uncleaned---\$80.00

An AU 1917-D Mercury Dime that was previously bought as "BU"--looks UNC-----\$29.50

A superb 1913-D (I) Buffalo - a beautifully struck original--\$18.50  
1910 & 1912 LIBERTY NICKELS--both BU with original light toning--pair-----\$37.50

THREE CENT NICKEL PIECES--Choice BU--1868--\$22; 1871--\$25 (these are extremely nice coins)

1934-P & D and 1936-D--strictly choice BU MERCURY DIMES--the three for-----\$34.00

the RARE 1853 arrows & rays S.L. HALF DOLLAR--this piece came out of an old collection--the owner considered it "UNC"--it is actually XF/AU with luster and original toning; there are a few small marks which have probably save it from being "whizzed". For the collector who doesn't want to spend \$850 for a gem, this is the perfect type coin at--\$225.00

1921-D W.L. half--AG from wear only--no dents or scratches--\$25

1916-S W.L. halves: full strong GOOD--\$15; and a nice G/VG--\$17.50

Four 1916-P W.L. halves--all nice VG--lot-----\$39.00

A lot of choice AU to "slider UNC" Jeffersons--(the kind many sell as UNC) (5) 38-D, (7) 38-S, (7) 39-S & (1) 42-D--lot---\$47.50

Three 1932-D Washingtons in AG condition--well-worn--but no scratches or dents--the lot-----\$45.00

Two 1938-D W.L. halves--one F/VF--the other FINE with a couple of small edge dings and two rim cuts--the pair-----\$35.00

Two 1793 WREATH LARGE CENTS--the first has a very strong date (FINE as to wear) the head is fully outlined and sharp--the reverse is banged up a bit--most of the wreath shows--sell at--\$95; the second is a better overall coin--the date is weaker, the head clear and the reverse is AG--also sell at -----\$95.00

GEM BU 1917-S Mercury Dime - fully raised crossbands--\$22.00 a real "cherry"

Postage under \$50.00; California residents 5% Sales Tax.

I am not a coin dealer. I am a wholesale sporting goods dealer and I sell to gun dealers who re-sell these coins at their gun shows. They say they cannot sell at RED-BOOK PRICES--so I have to wholesale these coins at close to BLUEBOOK PRICES. I need any U.S. coins in quantity in AG/G condition if priced for resale as outlined above.

## HOW YOU CAN MAKE BIG PROFITS INVESTING IN COINS by Harry Forman

FOR THE FIRST TIME - A numismatic guide written by a professional who practices what he preaches!

An honest, knowledgeable look  
at the way it was, the way it is,  
and how to make money on the  
way it's going to be . . . a timely  
work.

John Kamin,  
Publisher  
The Forecaster

A must for every coin investor or  
would-be coin investor. It is liter-  
ally worth its weight in gold, a  
metal which, incidentally, is dis-  
cussed in quite some detail.

Q. David Bowers numismatic  
contributor Encyclopedia  
Americana; Coin World  
Editor, Rare Coin Review

One of the few books which will  
find a deserving place at the head  
of both investors and collectors.  
The author carefully details the  
lines of reasoning.

Clifford Mishler, Numismatic  
Editor, Numismatic News;  
Coins Magazines; Coin Prices

Harry Forman's Investing in Coins  
is proof of the pudding that  
investment in knowledge pays  
dividends!

## SELLING HITS BU ROLLS, PRICES DROP Commems, Type, Silver Dollars and Proof Sets Remain Strong

### The Market in Depth

ALLEN HARRIMAN

An astounding number of lowered prices have been registered this week for BU rolls. Minus signs blanket seventy-five or eighty percent of the issues--cents thru halves--which are covered on page three. Several dealers had joined the bandwagon by the end of the week--creating something of a "price war"--and indications are that next week's chart will reflect still lower price levels. Buyers are picking off their favorite dates--on a very selective basis--with the result that an occasional "sold out" tag has been encountered. However, quantities of many, many dates are currently available and a "wait and see" attitude is definitely evident.

The rolls not affected to any degree by this extensive selling campaign are the Buffalo nickels, early more elusive Mercury and Washington rolls and the Walking Liberty halves. In other words, just the rolls one would expect to show considerable strength in the face of such a situation. Buyers still want these tough dates--along with scattered later issues. Those dates which have almost always failed to excite dealer or investor interest are still being ignored at these new low "bargain" prices.

There is a bright side! Commemoratives are up again--silver dollars are strong and difficult to locate--and the proof set market reflects a buying mood. Type coins--in choice proof as well as strict BU condition--are active and the supply remains, as always, drastically limited. Those investors--and dealers as well--who don't have all of their eggs in the "BU roll basket" will find that their diversification has paid off this week. The number of dealers who trade almost exclusively in BU rolls has dwindled to a great extent since the mid-60's--which is at least a partial reason why large quantities of rolls now take so long to be absorbed. Most coin dealers still maintain a stock late issues for single coin sales--collectors do assemble complete sets (or buy them already completed)--but for this type of retail activity shops do not need five, ten or twenty-five rolls of any issue.

During this current slump in roll prices it might be wise to watch proof sets very closely. While nothing is ever certain, the chances for price hikes in this area seem strong. Dealer stocks are low--and requests for fifty or a hundred sets of many issues are frequently monitored. Prices are certainly at an attractive level--now all that remains is locating the sets!

### This Week's Market

**CENTS:** Virtually every roll from 1934 has been offered in quantity at low prices. Dealers have seized the opportunity in many instances to fill in their inventory. Choice BU Flying Eagle cents are strong in the \$95-\$100 range--and choice proof Indian cents are now regularly bid at \$34.

**NICKELS:** Buffalos are, as usual, in considerable demand--and very few have been included on this week's long selling lists. The Jeffersons, however, are in the same boat as the Lincolns--with only an occasional exception. Shield and Liberty nickel proofs move higher.

1937S - Bid moves up to \$120

1938S - Bid now \$117.50--with a few transactions noted

1942P (2) - Off \$20; available at \$180

1948S - Bucking the trend; bid up to \$23

**DIMES:** Some of the more common late date Mercury rolls have joined the Roosevelts--where prices are almost all lower.

1949S - Offered at \$395; 1950S - Offered at \$192.50

1955P & D - Both record sales at current levels

1955S - The only advance; bid now \$13

**QUARTERS:** Only the 1944-S and 1958-P rolls have managed to avoid the rash of minus signs. As in the other series, opportunities abound for the selective buyer. Seated Liberty halves in choice BU condition are in demand--prices advance.

1944S - Bid \$95; a roll or two is available around the \$100 level

1949P - Now offered at \$200

1955D - A few sales recorded at \$75

**HALVES:** The Walking Liberty rolls have not been hit by lowered prices--in fact, strong bidding still produces very few results. Numerous Franklin rolls edge slightly lower--but scattered gains indicate demand for several issues.

"P" Mint W.L. rolls--Any date is bid at \$84

1949P - Lower; now in the \$240-\$260 range

1951P & 1953P - Interest continues; both are quite elusive

1952S - This one is tough; bid moves to \$129

1955P - Scattered sales in the \$95-\$99 area

**DOLLARS:** Although gains are few relative to recent weeks, demand is strong and the supply of better issues is far from adequate.

1878CC - This one is lower; in the \$280-\$300 range

1891CC - Strong demand continues; up \$30 this week

1892CC - Where are these rolls?--bid now \$1100

**PROOF SETS:** Dealer stock is low--and proof sets seem to be poised from an advance. Buying lists at current levels are seldom filled. Selling lists are few--and "bargains" are not being offered.

**COMMEMORATIVES:** It would be easier to count the issues which have not advanced again this week. Several dealers offer higher prices each week--yet the number of pieces actually traded is quite small. Check page two for the new prices.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

### The Market in Depth

ALLEN HARRIMAN

Things were looking up for BU rolls this week! The anticipated further price lowering failed to materialize as dealers began to step in and pick off the most enticing bargains. Numerous transactions began to occur at the beginning of the week--and by mid-week scattered issues were disappearing from the still extensive selling lists. Bids for these missing dates started to edge slightly higher.

Selling lists, however, remain rather extensive at the time of this writing--indicating that there is still time for dealers and investors to get in on the buying act. Most Lincolns and Jeffersons--and many Roosevelts--are still available. The Washington list has dwindled considerably--and the Franklin list to an even greater extent. As usual, buying was the heaviest for the largest denominations--which is just the area with the smallest quantity of rolls for sale.

Walking Liberty rolls continue to show their strength. Bidding has been particularly strong for the late dates (1945-47) this week--with several substantial gains noted. However, any W.L. roll will sell quickly if priced reasonably; single BU "short sets" (1941-47) are now bid at \$145 and are quite difficult to find in truly choice condition. Most of the Philly and Denver rolls were relatively well-struck--but buyers should be very careful when accepting the "S-Mint" rolls. From 1940 thru 1946-S the San Francisco mint put out mostly rather poor specimens--and single BU sets with well-struck "S-Mint" issues command a premium.

As expected, proof sets began to move ahead this week. Dealers are in a buying mood and the available supply, at this point, is quite limited. Those buyers who want up to a hundred of most later issues are having to be content with only partially filled "want lists"--higher bid prices have done little to entice more sets on to the market. The 1970-S and 1971-S sets are especially strong due probably to the strong demand for proof rolls of 70-S halves (bid \$125) and 71-S nickels (bid \$130). The 1970 mint set, by the way, has leveled off around \$15--with most transactions registered at or near that figure.

### This Week's Market

**CENTS:** Prices are almost completely unchanged after last week's general lowering. Transactions have been liberally scattered across the entire series--as dealers continue to fill-in their inventory and pick up bargains for their investors.

1935S - Seems to be of particular interest around \$50

1955S - Sales noted at a higher \$8.50

**NICKELS:** Selling lists continue to include most Jeffersons--but prices remain firm at last week's lower levels. As with the Lincolns, favorite dates are being picked from these lists at a leisurely pace--and a few plus signs have been registered as a result of "sold out" tags. Buffalo rolls, by the way, remain strong.

1937P - Transactions at a higher \$127.50

1938S - Also up (bid \$122.50)--not included on selling lists

1952S - Quantity sales recorded at \$11

**DIMES:** The Roosevelts record several gains for issues which have now been deleted from dealer offerings; prices remain firm for those other dates which are still available.

1946S - Wanted in quantity at \$20

1949D - Bid now \$74--none offered this week

1955PDS - All edge higher--and all register sales at higher prices

**QUARTERS:** Small gains are scattered across the Washington chart also--buyers, of course, want the dates which cannot be found on selling lists.

1944S - Bid moves up to \$97.50; still none are available

1953S & 1954S - Sales registered at \$33 and \$21 respectively

1958P - Now in a higher \$34-\$36.50 range

**HALVES:** The strongest roll bidding has been for halves--with the accent still on Walking Liberties (the Franklins, however, are running a strong second).

1945D - Up \$7.50; dealers now offer \$105

1946D - This one is up \$5--with none available

1947PD - Both record substantial gains; also not offered for sale

1948P - Bid moves back to \$105; sales at \$107.50

1948D - Unaffected last week; up again--to \$64.50 bid

1952S - Obviously it will take higher bids to locate this one (bid now \$130)

1954S - Also up--with several sales at \$34

**DOLLARS:** Bidding--mostly within current ranges--continues for the scarce dates. The minimum bid for common date Morgans moves back up to \$64.

1878CC - Lower; offered at \$295

1899P - Up--with bids noted at \$415

1903O - Also on the plus side; dealers offer to pay \$490

**PROOF SETS:** All dates from 1936 thru 1971 are appearing on "want lists"; prices move ahead as many buyers ask for twenty-five to a hundred of many issues. Sales have been light--since locating the desired sets is not an easy task.

1955 - Flat packs in demand at \$18

1956 thru 1960 - All register gains; scattered sales

1960 (sm) - Potential buyers offer \$17

Special Mint Sets (1965-67) - These three also record advances

1970 Mint Sets - Steady in the \$14.75-\$15.25 range

1970S - Transactions as high as \$8.20

1971S - A substantial increase; now in the \$5.90-\$6.20 range

**COMMEMORATIVES:** Buying strength continues the various PDS sets have been in particular demand this week--especially the Texas and BTW sets.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

# HOW YOU CAN MAKE BIG PROFITS INVESTING IN COINS by Harry Forman

**FOR THE FIRST TIME — A numismatic guide written by a professional who practices what he preaches!**

An honest, knowledgeable look  
 at the way it was, the way it is,  
 and how to make money on the  
 way it's going to be . . . a timely  
 work.

John Kamin,  
 Publisher  
 The Forecaster

A must for every coin investor or  
 would-be coin investor. It is liter-  
 ally worth its weight in gold, a  
 metal which, incidentally, is dis-  
 cussed in quite some detail.

Q. David Bowers numismatic  
 contributor Encyclopedie

## BUYING SURGE CONTINUES; PRICES ADVANCE Many Buyers are Now In The Market For Bag Quantities

### The Market in Depth

ALLEN HARRIMAN

The market has been extremely active this week. It appears that a reversal of the downward trend in prices is now a fact rather than just a possibility! Practically every segment of the market--from Lincoln cent rolls thru BU and Proof type material--has been included in this week of extremely active bidding. Many of the price advances have been quite substantial--and, in the area of BU rolls, much of the demand is for large quantities (from one to three bags of some of the dates in the Lincoln, Jefferson and especially the Roosevelt series). Actual trading--in spite of the number and length of "want lists"--has been only moderate. This is due, of course, to the limited amount of material which is available once that serious quantity bidding begins.

There are a few to several "hot" BU rolls in each series--ranging from two or three in the Lincolns and Jeffersons to practically any date in the Walking Liberty series that is traded by the roll. While the bid levels for these particular dates have been advancing, selling lists have continued to include numerous other "bargains" (this is especially true, as usual, for the smaller denominations). In fact, most cent and many nickel rolls are currently available within the price ranges established during the past couple of weeks. The number of issues offered in dimes and quarters has dwindled considerably--and most halves have disappeared from selling lists. Silver dollars, as always, are available only on a very limited basis although several better date rolls in both series appeared this week--all carried "next month's" price tags.

Price changes for the proof sets have been light--yet demand remains strong and bidders continue to ask for twenty-five to several hundred sets of most of the later issues. Commems, too, are on top of the market--enjoying still another round of plus signs this week. The "ask" price for complete 144 piece commem sets is fast approaching the \$6000 level (bids of \$5650 in recent days have failed to produce results). Type material--choice BU as well as proof--is offered so seldom that there is usually quite a buying scramble when an interesting selling list does appear. Low grade type material is also in demand--with dealers continually asking for "up to one hundred pieces" of large cents thru Seated Liberty halves and dollars in GOOD or better condition. Again, very little of this type of merchandise is offered for sale--most dealers have customers ready and waiting.

### This Week's Market

**CENTS:** Buying lists begin to appear--with the 1960 small date rolls included near the top. The Philly version is now bid at a higher \$95 (a sale or two at \$97.50) and the Denver issue is wanted by the bag at \$1.60 per roll. The 1946-S roll is also in demand in quantity--with \$575 offered for a bag.

**NICKELS:** Several plus signs are also scattered across the nickel charts; most dates in the Jefferson series, however, are still relatively easy to locate. Among the exceptions are:

- 1938S - Up again this week; bid now \$125
- 1943D - Bid moves up to \$57--a few are available around \$60
- 1954S - Wanted in quantity--with bidders willing to pay \$425 for a bag

**DIMES:** Fierce bidding competition has pushed prices well ahead of last week's levels for several issues--most of these "wanted" dates are being asked for in quantities of from 20 to 200 rolls. BU roll sets are up sharply; bid now \$1700--with sales at that level.

- 1946S - Bid moves up to \$21.50
- 1947D - Wanted by the bag at \$30 per roll
- 1953S & 1954S - Bid for both moves up to \$14.50
- 1955P - Quantity sales registered as high as \$33
- 1955D - Extremely active--with full bag quantities bid as high as \$2100!
- 1955S - Also on the "very active" list; sales noted at \$17
- 1958P - Bid moves up to \$11.50--also in demand in quantity

**QUARTERS:** Somewhat less active than the Roosevelts although a few dates are on buying lists at higher prices; these include:

- 1946S - Several sales early in the week at \$75; bid at \$77.50 by mid-week
- 1953S - Bid moves up to \$36
- 1954S - Quantity transactions recorded around \$20
- 1958P - Bid moves up to \$35

**HALVES:** Those dates in the 1947-50 range are in particular demand; prices advance in both series.

- Common date "P" mint W.L. rolls - Now bid \$86
- 1947D - A very substantial jump; bids reach the \$150 level
- 1948P - Bid now \$110; 1948D - Bid now \$67
- 1949P - Up \$10--bidders offer \$250 for choice rolls
- 1949D - Bid now \$225; 1949S - Bid now \$227.50
- 1950P & D - Both rolls move up to the \$145-\$152.50 range
- 1955P - Several transactions recorded around the \$100 mark.

**DOLLARS:** Both series register numerous gains--with Peace dollars of

particular interest to buyers during the week.

- 1888S thru 1891S - All are regularly on "want lists"; prices advance
- 1898O & 1904O - Both show sales at \$67.50
- 1922D & S and 1923S - These rolls are not as plentiful as prices indicate
- 1927S - Bid moves up to \$675
- 1928S - Bid moves up to \$500

**PROOF SETS:** Although moderately active bidding continues, most buyers simply ask for "quotes" on the sets they need (quantities of all dates after 1953 are still wanted). Scattered price hikes have been noted.

- 1955 - Bid moves up to \$18.50 for "flat packs"
- 1970 Mint Sets - Steady around \$14.50; light to moderate trading
- 1971S - Bid this week (and sales) at \$6

**COMMEMORATIVES:** Plus signs again blanket the single issues--with dealers still in the market for "up to a roll" of many issues. Sales have been moderate--but certainly not enough to satisfy current demand. Complete 144 piece sets are bid now at \$5650 and the eleven piece gold sets are bid at \$2050.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it  
closed Friday afternoon. Under the pre-  
sent system, it is impossible to monitor  
all transactions or offers to buy and sell,  
but the broad information sources of the  
Newsletter make it a very accurate reflec-  
tion of the market.

**INVESTORS NOTE:** the price in the  
Newsletter are from dealer-to-dealer trans-  
actions. As an investor, you may place  
your buy and sell orders through a dealer  
for a fee, as you would buy stock through  
a broker.

## ROOSEVELTS TOP BUYING LISTS

Commems, Type & Proof Sets Are All Strong; Prices Move Ahead

### The Market in Depth

ALLEN HARRIMAN

"Active" remains the key word for the BU roll market--especially dimes and half dollars. Last week's "hot" rolls have been joined by several more issues and bidders have been busy raising bid levels throughout the week. In the Roosevelt series, it seems that any San Francisco roll is now in demand in quantity (all ten rolls have registered gains this week); bidders want up to five rolls of the high-powered dates and are talking in bag quantities on the lower priced issues. So far, buyers have been only moderately successful in obtaining the quantities they need--bids have edged higher day after day. In addition to the "S-mint" issues, such dates as 47-D, 49-D, 55-PD & 58-P are in particularly strong demand. Also, it might be noted that some of the not-so-late-dates which are priced around \$7 are beginning to look attractive to investors--1954-PD, 1956-PD, etc.

Dealers have also been seeking quotes on BU Walking Liberty rolls--with very little success. The earlier Philly issues and all of the dates in the "short set" (1941-47) are continually on "want lists"--sales, however, have remained extremely light due to the fact that these rolls are now seldom offered. The occasional roll or two which is available is almost invariably priced well ahead of the market. Franklins--while certainly more plentiful--are beginning once again to prove elusive. In this series, buyer interest is currently centered around such issues as 1948-PD, 1949-PDS, 1951-P, 1952-S, 1953-P, 1954-S and the Philly rolls 1955 thru 1958. Price advances have begun to accumulate for these dates--most of which are also wanted in five or ten roll lots.

As usual, commemors are up! The complete 144 piece silver set is now bid at \$5700 and gains are again thoroughly scattered across the chart. The eleven piece gold set is bid this week at \$2100 and 1904 Lewis & Clark has led several issues in another upward swing. No complete sets--either silver or gold--have been listed for sale on the tapes in several weeks.

Type coins--in both choice BU and Proof--have been registering increases on a regular basis for many weeks--and this week is no exception. Very, very few sales actually result from these higher bids--and a large percentage of the trades which are noted are for the same few relatively plentiful denominations. Practically none of the tougher types are offered for sale--it may, be weeks between offerings of such coins as Bust Quarters, Seated Liberty coins with arrows or arrows and rays, etc. And, as usual, when a really scarce type coin is available, grading is a critical problem. It seems that for the rarer the coin more liberal grading standards are used!

### This Week's Market

**CENTS:** Prices are lightly mixed. Most dates are still easily located within recently established "bid-ask" ranges; exceptions are:

- 1939D - Up \$5; sales as high as \$48
- 1946S - Demand for quantities continues; bid now \$6
- 1955D - Bags are wanted at \$150
- 1960D (sm) - Bids of \$170 fail to produce bag sales

**NICKELS:** Further gains are scattered among the Buffalo and Jefferson rolls; the Wartime series is beginning to show strength--with the BU roll set bid this week at \$600.

- 1937P - A sharp jump; bid (and sales) recorded at \$135
- 1942S - Bid now \$72.50; 1943D - Bid now \$58
- 1950D - Several transactions noted at \$285
- 1954S - Another substantial gain; bid in bag quantities as high as \$6

**DIMES:** Every "S-mint" roll in the Roosevelt series has registered advances in very active bidding. BU roll sets have traded at \$1700 again this week.

- 1946S - Scattered sales--some as high as \$25
- 1949S - Bid now \$00; 1950S - Bid now \$197.50
- 1953S - Transactions in the \$16.50 area
- 1954S - Even higher--with sales recorded at \$17.50
- 1955PDS - All move higher; numerous sales have taken place along the way
- 1958P - Bid moves up again; now \$13

**QUARTERS:** The Washingtons are virtually unchanged. Selling lists, however, are considerably shorter than those of recent weeks.

**HALVES:** Interest remains high for choice BU singles and rolls in the W.L. series (very few are available); "want lists" continue to lengthen for the Franklins--with the BU roll set now bid at \$2350.

- 1946D - Strong--with transactions at \$157.50
- 1949PDS - All receive regular bids at current prices
- 1953P - Bid reaches \$145
- 1955P - Considerable interest; numerous sales around \$112.50
- 1958P - Bid now \$29; 1959D - Bid now \$24

**DOLLARS:** Bidding has maintained a moderate level throughout the week; the "scarce to rare" BU Morgan singles remain of particular interest. Bags are bid as follows: BU Morgans (no 1921) \$3150; BU Peace \$2800 and circ (VG/better) \$2600.

1890CC - Moving up now; bid \$475  
1892P - Slightly lower; a few rolls are available at \$480  
1892CC - Up \$50--none offered to bidders at \$1150  
1935P - Bid now \$300; 1935S - Bid now \$825

**PROOF SETS:** Prices have edged forward for many issues this week; quantity bidding remains the rule for most dates after 1953.

1938 thru 1941 - All advance; gem sets, of course, are wanted  
1951 - Bid (and sales) at \$60 this week  
1956 - Wanted by the hundred at \$7.60 per  
1957 - Bid now \$4.60; 1959 - Bid now \$4.70  
1970 Mint Set - Steady; most trading is around \$14.50  
1970S - Most transactions noted around \$8.25  
1971S - Also up--with sales at \$6.20

**COMMEMORATIVES:** Another busy week of bidding--and still higher bidding; gains again are numerous and substantial. See Page Two for details.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## VERY STRONG MARKET CONTINUES

### Bid Advances Are Numerous For Commems, BU Rolls & Proof Sets

## The Market in Depth

ALLEN HARRIMAN

Commemoratives continue to show amazing strength---with approximately two-thirds of the issues recording additional gains again this week! Many of this week's advances are, as usual, quite substantial. The Lafayette dollar is up another ten dollars at \$210 bid; the Alabama 2x2 remains almost completely elusive even though bidders now regularly offer \$105 (up another \$5 this week); the Grant "with star" issue moved from \$110 to \$120 this week with fewer than five pieces being traded. The Connecticut issue of 1935 was bid last week at \$57---dealers have offered \$62 this week and still "want lists" on this one continue to lengthen. Both of the Missouri issues are practically non-existent on the tapes---now bidders are anxious to purchase them at \$150 for the 2x4 and \$145 for the plain version.

We could go on and on with examples of strength in the common market---check page two for the extensive list of plus signs. Gold commems, by the way, are right up there with the silver issues!

Perhaps the second strongest segment of the market is still the Roosevelt dime series. More issues have joined last week's "most wanted dates"---and prices for twelve different rolls have pushed forward during yet another very active week. The 1946-D roll has moved from \$14 to \$16 bid---few rolls are available; bag quantities of 1947-D's are in demand this week at \$32 per roll. Both the 1950-S and 1951-S rolls are bid for in five roll lots (again at higher levels) and those "hot" 1953-S, 54-S, 55-PDS & 58-P are all on the "plus" side again. Several buyers have gotten in on the act---and bids for the lower priced dates usually fall into the ten to twenty-five roll lot area if not for full bags. Buyer enthusiasm seems to indicate a belief that prices have "only begun to move" for these and other Roosevelts---as well as other series!

Proof sets should not be overlooked. Bidders have not, in most instances, been able to purchase the quantities of sets they currently need. Buyers continually ask for "quotes" on one-hundred set lots of "all or any" issues from 1954 thru 1970---however, most of these requests go unanswered. Bid levels are cautiously being edged forward. It is obvious that dealers are "checking out the market"---wondering where the point is that sets will appear in quantity. From all indications, it is going to take still higher bids to accomplish the current objectives of obtaining several hundred sets of virtually all dates.

## This Week's Market

**CENTS:** Prices for virtually all dates remain steady---with the '60 small date issues on the move:

1960P (sm) - Bid now at \$100; suddenly missing from selling lists  
1960D (sm) - Bag quantity bids reach \$225

**NICKELS:** The lower priced Buffalo rolls are in demand---with \$100 now the minimum bid for any date! Very few changes have been registered by the Jeffersons---but the BU roll set of Wartime issues is up again at \$610 bid. Frequent bids are monitored for choice proof Shield and Liberty nickels---few gems are available.

**DIMES:** Bidding is still fast and furious for several dates in the Roosevelt series; numerous quantity sales have been recorded.

1946D - Bid moves up to \$16  
1947D - Bid moves up to \$32  
1950S & 1951S - Both advance---and both are now elusive  
1953S - Transactions during the week at \$17.50  
1954S - Several sales---some as high as \$19  
1955PDS - Check page three for further substantial gains  
1958P - Bid moves up to \$14.50

**QUARTERS:** Activity continues along for the Washingtons at a very leisurely pace; Sales are light and scattered---most dates are still rather easy to locate within current price ranges.

1935P & 1937P - As with any early date, higher bids do not necessarily mean sales will occur  
1939D - Transactions recorded at \$200  
1942S - Choice rolls are now bid at \$510  
1946S - Offered this week around \$78  
1953S & 1958P - Both register sales at \$36

**HALVES:** Bidders still want Walking Liberty rolls---but bids are basically at last week's levels gains, too, have been limited for the Franklins---although numerous dates are on buying lists. Choice BU Barber halves are very strong at \$130 bid.

1946S - Up \$5---with bids at \$115  
1949S - Choice rolls are now receiving \$235 bids  
1955P - Further sales noted at \$110  
1956P - Bid this week at \$38.50; a few are available around \$41

**DOLLARS:** The very scarce San Francisco issues are again on "want lists"---with prices again moving ahead. Most of the "common dates" are still on the market at presently recorded prices.

1883S - A \$90 jump---none offered to bidders at \$800!  
1886S - Bid now at \$600; 1888S - Bid now at \$625  
1892CC - Choice singles trade at \$62.50---the BU rolls is now bid at \$1175  
1898S & 1900S - Both are bid this week at \$520  
1899S - Bid moves up---potential buyers offer \$625

**PROOF SETS:** Quantity bids remain frequent---with buyers regularly in the market for 100 to 500 of all issues from 1954 thru 1971. The earlier dates are in demand also---in five or ten set lots.

1950 & 1951 - Both record small gains this week

1954 - Bid moves up to \$13.75

1958 - Bid moves up to \$8.65

1970S - Bids ---and sales---at \$8.25

1970 Mint Sets - Steady in the \$14-\$15 range

1971S - Transactions at a higher \$6.25

**COMMEMORATIVES:** Up---up---up! Prices advance again on a broad front. Sales have been frequent this week---but bidders still outnumber sellers by a large margin.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it  
closed Friday afternoon. Under the pre-  
sent system, it is impossible to monitor  
all transactions or offers to buy and sell,  
but the broad information sources of the  
Newsletter make it a very accurate reflec-  
tion of the market.

**INVESTORS NOTE:** the price in the  
Newsletter are from dealer to-dealer trans-  
actions. As an investor, you may place  
your buy and sell orders through a dealer  
for a fee, as you would buy stock through  
a broker.

## EVERYONE WANTS GEM TYPE COINS

### Bidding Remains Very Strong For Commems, Dimes and Halves

### The Market in Depth

ALLEN HARRIMAN

Gem coins are in the limelight. Dealers, investors and collectors all want the finest specimens available--in whatever series they are buying. When a "BU" type coin is offered on the teletype, the usual question follows: "is it a gem?" This week one dealer wanted to locate a couple of "gem, prooflike rolls of 78-8tf and 88-O Morgans with absolutely no bag marks"--and he was willing to pay \$20 to \$50 over "ask" for such rolls. None were offered for sale that fulfilled this description. Flawless gem coins--pristine examples--in any series are being priced at well above "Redbook" evaluations--often double--or even higher. A truly superb 1839 Seated Liberty half dollar--the "no drapery" type--was priced at \$1500 at a recent major coin show. The current listing in Yeoman's is \$375--yet the coin was sold at the full asking price to a very pleased collector. Such sales are not at all unusual.

Consider the very low mintage dimes, quarters and halves in the Seated Liberty series. We could list date after date that are virtually impossible to find in actual gem uncirculated condition--yet which still list in the "Redbook" at \$60, \$70 or \$80! A few examples in our limited space: the dimes produced at the Philadelphia mint from 1863 thru 1867 and from 1879 thru 1881; the quarters from the same mint for the years 1864-69 and 1879-89--and the halves produced during the twelve years beginning in 1879 and ending in 1890. Now, of course, this is not a complete list of the underpriced Seated Liberty coins--but it is a listing of the Philly issues which have been drastically overlooked (perhaps simply because they are P-mints). Serious collectors are willing to pay two, three or four times Yeoman's listing for "gem" specimens of these dates. How much, for instance, would a truly superb BU 1867 dime bring at auction today? The coins "books" at a comparatively high \$115--and at a major auction might easily realize \$500. There were 6,000 non-proofs issued and Scott's catalog lists BU pieces as "Rarity 6"--that is, 13 to 30 specimens known! Other examples abound--and most wise investors already know the figures.

The coin market in general has continued along at a rapid pace throughout the week. Commems are still especially strong--Roosevelts are on the move--Walking Liberty and Franklin rolls are on many "want lists"--and type coins can boast of the usual demand. The various series are discussed in the following paragraphs of This Week's Market.

### This Week's Market

**CENTS:** Actually, there is very little to report for Lincoln rolls--trading remains light and dealers seldom have any trouble locating the issues they need. The 1955-S has, however, suddenly moved ahead--with sales registered as high as \$9.75.

**NICKELS:** Buffalo rolls are still regularly found on "want lists" at current bid levels (the 1937-S roll is of particular interest at \$120 bid). Scattered dates in the Jefferson series are in mild demand--with a few gains noted. The BU roll set of Jeffersons is now bid at a higher \$2800.

1941D & 1946S - Both edge slightly higher

1951S - Bid moves up to \$57; this was once at \$300 roll!

1953P - Bag quantity bids produce no results

**DIMES:** Still the brightest spot in the BU roll market--with nineteen plus signs recorded this week by the Roosevelts. The BU roll set bid moves up to \$1750 and some of the individual changes are:

1946D - A few sales around \$17

1946S & 1947S - Both enjoy gains again this week

1951S - Another advance; bid at \$127.50

1953S - Bid now \$18; 1954S - Bid now \$19

1955P - Dealers are offering \$33.50; few sales noted

1955D & S - Both rolls move even further ahead

1958P - Transactions as high as \$16

**QUARTERS:** The Washington rolls remain rather quiet--with only an occasional issue appearing on buying lists. Proof Seated Liberty quarters are now at \$82.50 bid--with choice pieces seldom offered.

1937P - This roll is quite elusive; bid reaches \$200

1939P - Slightly lower--now in the \$105-\$110 range

1946S - Again available--around \$78

**HALVES:** Bidding has been strong throughout the week for both Walking Liberty and Franklin rolls; numerous prices advance.

1935P & 1939P & D - These early rolls all register gains

1947P - Up again--with bids at \$195

1947D - Transactions at an even higher \$160

1948D - Bid \$69; Sales noted at \$70

1949S, 51S & 52S - All up--with the 52-S in particular demand

1957P & 1958P - "want lists" now often include these two

**DOLLARS:** Buyers are, as usual, in the market for choice singles and the scarce BU rolls. However, more interest is beginning to be shown for "common dates" at current prices.

1878P - Bid reaches \$97.50; few available

1878CC - Transactions recorded at \$280

1883S - Really on the move!--with rolls bid at \$825

1884S - BU singles are bid this week at \$110

1921 Peace - BU singles are now bid at \$36

**PROOF SETS:** Bidding has been somewhat more selective this week; scattered price hikes have been registered--with a moderate number of sales noted. The 1970 mint set is unchanged around \$14.50 ask.

**COMMEMORATIVES:** "Want lists" are as long as ever--prices continue their strong upward swing! Bidders who want complete sets (silver or gold) are having no luck at all.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## LINCOLNS JOIN BU ROLL UPSWING Commems Make Even Greater Strides During Another Active Week

### The Market in Depth

ALLEN HARRIMAN

Plus signs have invaded the Lincoln series. Buying lists asking for "one to ten rolls" of nearly every date from 1934 thru 1955 are suddenly being presented by several dealers at once. Actually, this is the most serious attempt to buy Lincoln rolls that has been recorded in many months--if not a year or two. Whether interest will be sustained at this week's level is now the question. It appears that at least some dealers and investors feel that the "bottom" has finally been reached--and that buying at or near current levels can result in medium if not even short term profits. Another week of trading should give a more distinct picture of the seemingly revived Lincoln series!

Roosevelts and Franklins are still on the move. The BU roll sets are now bid respectively at \$1800 and \$2500--both up another \$50 this week. Roll bidding this week has concentrated more on the "tough" dates--1948 thru 1952 or so--and very few of the really scarce high-powered rolls are being offered for sale. One prominent dealer spent several days of active bidding before he was able to pick up even one BU roll of 1949-S Roosevelts--and in the process he had to pay \$35 over the previous week's bid level! For several other issues--1949-P, 50-S and 51-S dimes; 1949-PS, 50-PD, 51-S and 52-S halves--the bid level had to advance substantially to encourage just one or two transactions (in some instances, not even one roll was traded!)

Not only have the commemoratives continued their phenomenal advance, but they have picked up even more steam! Rather than increasing the bid level by a dollar or two each week, anxious buyers have now started to raise their bids in five or ten dollar increments. Still "want lists" lengthen as the apparently inexhaustible demand continues. For several issues, obtaining "up to fifty gem BU pieces" is now the objective of some buyers. Needless to say, they are having to be content with finding one or two pieces at a time in nearly all cases. The Alabama 2x2 gained \$15 this week (bid now \$120); the Albany issue is up \$9; the Columbia PDS set is up \$10; the Grant is bid now at \$40--up \$5--and we could go on and on. Check page two!

By the way, even though the 1970 and 1971 "S-less" proof sets have settled down to relatively quiet trading--the 1968 proof set with the "Philly" dime has registered bids at \$1100 this week! Only a handful of sets are known--and dealers are having no luck at all in finding even one for sale!

### This Week's Market

**CENTS:** A sudden rash of plus signs!--several dealers are now running fairly extensive buying lists. This might be a series to watch closely for the next several weeks.

1934D - Bid up \$5 (now \$180)--none available

1941D & S - Both register substantial gains; few sales

1942S - Bid now at \$76; this one is quite scarce when the buying starts

1943PDS - All record sales at higher levels

1944S thru 1955S - These twelve "S" mint rolls are all on "want lists"--at higher prices

1960P (sm) - Several sales noted at \$107.50

**NICKELS:** Although the bid for BU roll sets of Jeffersons has moved up to \$2850, most of the moderate number of single roll sales have been within current bid-ask ranges.

**DIMES:** The Roosevelt rolls continue to enjoy dealer attention--with the numerous price changes again all on the "up" side of the ledger. Gem BU Barber dimes are strongly bid at \$22.

1949P - Transactions noted as high as \$195

1949S - At least one roll has traded at \$235 this week

1950S - Bid now \$205; 1951S - Bid now \$135

1955P - \$34 is now offered; sales at that level

1955D & S - Sellers are more plentiful at today's prices

**QUARTERS:** Prices are firm--sales are rather light. Most bidders still seem to be looking for "bargains" when it comes to Washingtons.

1942S - A very tough roll; bid this week at \$520

1944S - A sale or two at \$102.50; these rolls are snapped up quickly

1946S - Slightly lower; offered in quantity around \$77

**HALVES:** Many dealers and investors want choice rolls of Walking Liberty halves--as well as gem "short sets"; very few, however, are being offered. Anxious bidders in the Franklin series are "taking the bull by the horns" with their higher bid prices!

1948P - Bid moves up to \$112.50

1949P - Bid moves up to \$255

1949S - Very much in demand--with sales recorded at \$250

1950P & D - Both register substantial increases

1952S - Bids of \$145 fail to produce results

1955P - This one is available now at \$110

1956P - Bid moves up to \$40; sales around \$41

**DOLLARS:** Bidding has been of a mildly active nature this week; a few prices have edged forward. BU Morgan bags (no 1921's) are now bid at \$3190.

1878 (7/8 tf) - Transactions this week at \$210

1892P - Bid up \$10--at \$460

1903O - Increased interest--with a sale or two at \$510

1921 Peace - Seldom seen by the roll; bid now at \$700

**PROOF SETS:** The 9151 set is up--with ten set "lots" bid at \$675; most of the 1936-53 issues are wanted in choice condition. Transactions in the later issues have all been within present price ranges. 1970 Mint Sets are still being traded around \$14.

**COMMEMORATIVES:** Many of this week's numerous price hikes have been larger than ever; \$5 or \$10 jumps now seem commonplace! Complete 144 piece sets are bid at \$6000--with none offered.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## PRICES ADVANCE FOR FRANKLIN HALVES Lincoln Rolls, Dollars & Type Still Top Buying Lists

### The Market in Depth

ALLEN HARRIMAN

Lincoln rolls are still in the minds--and buying lists--of several dealers. This interest in cent rolls has taken some of the steam out of the recent Roosevelt upswing--at least for the moment. Additional plus signs are numerous this week--and, as one would expect, the toughest dates to locate in really choice BU condition (at today's prices) are such dates as 38-D & S, 39-S, 41-S and 42-S. Inferior rolls often begin to appear when frequent bidding starts--so it might be wise to double check before buying.

Dealer stock is also obviously quite low on Franklin half dollar rolls. Substantial increases in bid levels--from five dollars to as much as twenty-five dollars--have been recorded during the past couple of weeks of very active bidding. The 1949-S and 1952-S rolls are exceptionally difficult to locate at the moment--both have gained \$25 in the last few days. Dates to keep an eye on include 1949-D and 1951-D. Experience has taught that neither of these is at all plentiful--and that price increases can be quite impressive when even moderate bidding starts. There are some dealers who are firmly convinced that these are the scarcest two BU rolls in the entire series. While everyone may not agree, it is certain that both are really very scarce. And, of course, the 1949-P roll shouldn't be overlooked. For comparison sake, the following is a short run-down of the prices reached by the early Franklin rolls during the peak market period of 1964:

1948-P	\$185	1950-D	\$205	1952-D	\$ 30
1948-D	\$ 93	1951-P	\$ 75	1952-S	\$155
1949-P	\$675	1951-D	\$180	1953-P	\$225
1949-D	\$200	1951-S	\$170	1953-D	\$ 25
1949-S	\$430	1952-P	\$ 85	1953-S	\$ 90
1950-P	\$335				

It will be noted that relative prices are quite interesting when comparing with today's levels. Both the 49-D and 51-D were overlooked until about 1966 (when both sold for well over \$300); The 52-P was considered more scarce than the very elusive 51-P; and the 49-P was, by far, "king" of the Franklins! Some rolls (49-D, 51-P, 51-D, 52-S) are worth more today than during those frantic trading days; others sell for considerably less--the 49-P for only just over one-third the price!

### This Week's Market

**CENTS:** Dealers still want Lincolns--and prices have edged forward again this week. Buying lists usually ask for "one to ten choice rolls"; sales have been only moderate.

1938S - Up \$3--with bids now at \$35

1939D - Still quite reasonable in the higher \$47-\$50 range (sold for \$220 in 1964)

1941D - Bid now \$25; 1941S - Bid now \$37

1943S - Transactions registered around \$25

1948S thru 54S - These are the "most wanted" S-mint rolls this week

**NICKELS:** Shield nickels in strictly BU condition are now bid at \$25--and choice proofs at \$49. The Buffalo rolls are strong at current price levels; minor scattered changes have been recorded by the Jeffersons.

1949S, 1950P & 1951S - All afford excellent investment opportunities at today's prices

**DIMES:** Buyers are interested in Mercury rolls--virtually all dates from 1934 thru 1945; bid levels have increased for several of the "common date" rolls. Some mild profit taking is in evidence for the recently "hot" date Roosevelts (1953-55).

1939S - Bid now \$340; seldom offered

1946D - Wanted in quantity--bid reaches \$18

1949D - Also in demand (and not plentiful); bid now \$77

1953S - Offered at \$19; 1954S - Offered at \$20

1955PDS - All are slightly lower--with scattered sales noted

**QUARTERS:** Although bid prices are unchanged, many dealers are in the market for Washington rolls in the 30's and early 40's--particularly the seldom available P-mint rolls from 1934 thru 1940. Seated Liberty and Barber quarters in both BU and proof condition regularly appear on "want lists"--with very few offered for sale.

**HALVES:** Walking Liberty rolls are, as usual, in much demand--and several dealers are beginning to ask for "a few singles" since practically no rolls are available. The Franklins have registered numerous substantial gains in active bidding.

1948P - Sales noted around \$117.50

1949S - Up another \$25!--bid now \$275

1950P - Also quite strong at \$160 bid

1951D - At least one roll traded this week at \$187.50

1952S - There's no stopping this one!--bid now \$160

**DOLLARS:** Higher bids for the tough rolls produce virtually no results--and choice BU singles are usually priced somewhat ahead of the market. Several "common date" rolls have inched forward a dollar or two.

1883S - Up \$25 more; none offered to bidders at \$850

1885S - Bid now \$260; 1889S - Bid now \$580

1894S - Fast approaching the \$1000 mark; bid this week at \$950

1898S thru 1901S - All register further gains

1924S - Bid now \$675; 1925S - Bid now \$325

1935P - Dealers offer \$325; none available

**PROOF SETS:** Changes are minor; transactions are light. The 1972-S set has settled into the \$6.25-\$6.75 range--and the 1970 mint set still enjoys bids around \$13.50.

**COMMEMORATIVES:** Although selling lists have begun to appear, several more gains have been recorded. Some dealers are now beginning to take profits from the newly reached "highs".

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## GOLD ISSUES RISE AS BULLION BREAKS \$50.00 BARRIER Lincolns and Franklins Head Buying Lists

### The Market in Depth

ALLEN HARRIMAN

Buying lists for BU rolls especially Lincoln---crowd the teletype for space; but they are a distant second as far as dealer activity. The most heavily traded area is in Gold. Our gold, their gold, BU gold or beat up gold; all is in demand. Last Friday in after hour trading, the world price of gold passed through the \$50.00 barrier. Throughout the week this price advanced and held in the \$50.50 range. The once inexhaustible vaults in Zurich are scraping bottom to fill the orders of U.S. gold dealers. Several issues, especially the \$10.00 Indian are in very short supply.

Leading the advance in gold coin prices is the "choice" material. Gem condition coins, whether a common twenty or a High Relief, are in great demand; and each sale results in a new higher price. At the recent convention of the Central States Numismatic Society, dealer-to-dealer activity in gold was the talk of the show. At least a dozen 1907 High Reliefs changed hands, with the gem specimens bringing over \$1200.00! BU One Dollar gold pieces which only a few months ago traded around \$70.00 were sold at between \$90-\$100. A small group of BU \$3.00 gold pieces (about 40 pieces) was sold almost immediately in the \$425.00 per range. Even common fives, tens and twenties in superb condition bring well over current bid prices.

The relative scarcity of gem gold pieces is as great as that of gem copper and silver type coins. And collectors are now beginning to realize it is less expensive to collect U.S. gold by date and type than most copper and silver U.S. type coins. This is a complete turn-around from the collecting habits in the 1950's and 1960's. Watch the gold market carefully; price advances have just begun!

In the BU roll market active bidding at higher levels has resulted in few transactions. Those dealers with quantities of rolls are reluctant to sell at present levels. Continued increases appear inevitable. Silver commemoratives are now appearing on selling lists as dealers take profits. This market could have "peaked-out" temporarily. A watchful eye on this area is recommended. Gold commemoratives remain active. For the near-term anyway, there seems to be no end to price increases. At \$2100.00 bid the set is still reasonably priced when compared to the record price of \$3500.00 attained in the early 1960's.

### This Week's Market

**CENTS:** Virtually all Lincoln rolls remain on want lists. Even at higher levels there have been few rolls traded. It would seem that choice rolls are much scarcer than we have been led to believe.

1935S - Up \$5---none available

1938S - Still rising bid moves to \$37.50

1939D - Once over \$200. This roll now scarce at \$50.00

1942S - Sales noted at \$82.00. Up \$5.00 for the week

1949S - Bid at \$21.00---none offered

**NICKELS:** Nickels too have joined the "wanted" lists. Scattered issues are bid for in 1-10 roll quantity with few sellers in the market. Buffalos are active but within current price levels. Perhaps Jefferson nickels will be the next active area in the roll market.

1940S - Up a dollar. Bid at \$35

1941D - Few traded at \$16 bid

1948D - Bid jumps \$3. Quantities wanted

1952S - Bid at \$11; 1953S - Also up to \$10

**DIMES:** Mercury rolls remain on want lists, however buyers have failed to substantially raise their bids. A modest jump in this area would not come as a surprise. Liberty Seated and Barber dimes in gem proof are wanted---but few are offered.

1952S - Bid moves to \$45

1956P - Wanted in bag quantities bid of \$9.00 produces none

**QUARTERS:** As with the dimes, Barber quarters and Liberty Seated quarters are in demand in both gem BU and Proof. Active bidding at raised levels have resulted in but a few sales. Washingtons appear on most want lists with scattered gains.

1936P - Bid at \$195

1937P - A roll to watch. Bid now \$210.00

1955D - This popular roll now again actively traded; bid \$75

**HALVES:** Virtually all the Walking Liberty halves remain on want lists. Few transactions have been recorded due to the scarcity of any quantity of these rolls. Franklin's for the second week in a row continue to be the most actively traded commodity. Numerous gains have been recorded, especially for the 1948-1951 issues.

1941D - Up \$5 bid at \$180

1949P, 1949D, 1949S - All up substantially. Singles wanted due to the unavailability of rolls

1950D - Up \$7

1951P - Also up \$7 Bid \$80

1951D - Sellers asking \$200 for this one. Bid moves to \$188.00

**DOLLARS:** Key rolls continue to receive active bidding. Most common rolls are available within current levels. Gem Proof-like singles are often traded at 20%-50% over bid!

**PROOF SETS:** Moderately lower on inactive trading. The early sets 1936-1955 are in demand. 1970 mint set remains unchanged in the \$13.50-\$13.75 area.

**COMMEMORATIVES:** Scattered gains as market takes a rest after many weeks of frenzied activity. Gold commems are still actively bid with numerous price increases.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## BU ROLLS JUMP AGAIN: COMMEMS SLIP

### Gold Coins Continue To Rise As Bullion Hits \$54.00

### The Market in Depth

ALLEN HARRIMAN

Gold issues remained the most active commodities throughout the week. London bullion reached a record high of \$54.00 on Tuesday thus spurring on the entire market. An expected technical correction on Wednesday and Thursday still left bullion at over \$53.00 per troy ounce. It appears that a major setback in Gold prices is out of the question for the near term. Investor activity is strong and may have enough momentum to push gold near \$60.00 within a month. It is however, a very volatile market. More bad news from Vietnam will push prices higher; good news will initiate lower prices.

Those coins closest tied to bullion prices, Mexican 50 pesos, U.S. twenties and British sovereign have received the greatest amount of activity. Quantities of each of these issues were sold at record prices during the week. Where and when the "bull" market in gold will end is anybody's guess at present.

Jefferson nickels have joined Lincolns and Franklins on the "most active" list. For yet again another week, the entire Lincoln series is substantially higher. As with previous weeks bidding is strong, but trading is relatively light. Now that demand has increased, one wonders where have all the rolls gone that flooded the teletypes a month or so ago? At that time quantities of most rolls were offered at lower and lower prices with few buyers in the market. Now that the rolls are desired no one is anxious to sell.

Commemoratives have slowed to relative inactivity. Those buyers remaining need only selected issues. A major setback, however, is unlikely as most commems are unavailable in quantity. Much of this is due to the fact that many U.S. commems have been shipped to collectors overseas. It is doubtful that any of those coins will return to the United States for many years. Gold commems remain actively sought after. Continued price increases in this series would not be unexpected.

Several dealers are now offering to buy territorial gold. This specialized field may be due for a jump in price. Those advanced collectors and dealers interested in territorial should watch this area closely.

### This Week's Market

**CENTS:** Plus signs across the board—with bidding far more active than sellers. Even with increased bids there have been very few rolls traded. This market should remain strong for the near term.

1937D - Up 10%—bid now \$16.50

1938S - None offered at \$42 bid

1939D - Sales noted at \$57.50!

1941S - Jumps \$4.00

1942S - Actively sought at \$84.00

**NICKELS:** Jefferson nickel rolls are gaining momentum with each passing week. Bidders have been unable to fill their needs at current levels and are aggressively raising their bids. A very strong market is the result.

1939S - 1-10 quantity wanted at \$257.50

1942D - Up \$5; none offered

1951S - Once at \$300.00; now bid \$62.00

**DIMES:** Barber dimes in BU and proof still desired—however, quantities just don't exist. Roosevelts remain quiet as dealer interest shifts to other issues.

1956P - Still wanted in bag quantities. Bid at \$10.00

**QUARTERS:** Washingtons inactively traded well within current levels. Buyers, however, are quick to buy any bargains that are offered. Choice "type" quarters—(Bust, Liberty Seated and Barber) are always wanted. No one appears to want to sell this material at the present prices.

1946D - Increased interest; bid \$50

1951P, 1951D - Transactions at \$27.00

1958P - In great demand; bid at \$38.00

**HALVES:** Choice rolls of Walking Liberty halves wanted. Bidders are still hesitant to substantially raise their offers. Franklins continue to be active, with scattered gains throughout the issue.

1940S - Full strike rolls wanted at \$165.00. None offered at any price!

1950S - A few sales at \$170.00

1952P - A tough roll—now at \$36.50

1953P - This key roll jumps to \$152.50

1960P - Bags desired at \$18.50

**DOLLARS:** Mildly active bidding for key rolls. Common dates are plentiful within current levels. BU Morgan bags offered at \$3200.00.

1879CC - Underpriced at \$190.00 bid

1886O - In demand by the roll but none offered at \$675.00

1894P - Another impossible-to-find coin. Bid \$190.00

1896P - Bucking the trend. Slips to \$72.00

1904S - Bid at \$170.00

**PROOF SETS:** Conflicting market. Early sets in choice condition are actively bid and seldom offered. Late sets are just the opposite, with scattered losses recorded.

1955 - Available in box or flat pack at lower levels

1972S - No confidence in this set. Many sales below \$6.00

**COMMEMORATIVES:** Scattered losses as demand slackens. Only a few selective issues are actively bid. Gold commems still in demand, with only a few pieces offered. Owners of complete sets are asking \$2300.00 or more.

**U.S. GOLD:** Gem specimens in great demand at well over common BU bid. The demand, for the present is insatiable. A very active market!

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## WOULD YOU BELIEVE? \$58.00 GOLD! Silver Dollars Join BU Roll Upswing

### The Market in Depth

GUEST EDITOR MALCOLM VARNER

Although it is beginning to sound like a broken record--gold issues continued to be the most active area of the market. Several weeks ago, when bullion broke the \$50.00 barrier, it was suggested that speculator activity would push prices close to \$60.00 per oz. In spectacular fashion, it did just that; closing on Wednesday at \$57.75 with interday trading over \$58.00. A minor correction on Thursday has not damped the momentum of this market. Undoubtedly, by the time the Newsletter is printed, new record prices will have been set.

Mexican late date 50 pesos and British sovereigns led price advances. 50 pesos traded as high as \$77.50 during the frenzied activity Wednesday. Sovereigns also made spectacular gains, with transactions noted over \$17.00. Not far behind in demand were U.S. twenties. Common BU twenties changed hands in the \$81.00-\$82.00 range.

One speculation affecting investor interest in Gold, centers around President Nixon's forthcoming visit to Russia. It is widely known that the Russians, owners of more than 50% of the world gold supply, would like to see the price of gold raised to near \$70.00. Furthermore, it is believed President Nixon is prepared to negotiate a substantial increase in the U.S. gold price. In turn, the Russian's would make important concessions in other areas of foreign policy disagreements. Such are the speculations. The actual truth won't be known until Nixon returns. In the meantime, it appears gold prices will continue to rise.

Key date silver dollars have joined the surge in BU rolls. Virtually all the "S" mint keys are sought after at higher levels. As is customary, this new demand has resulted in few sales. Most of these rolls are never offered on the teletype; buyers must fill their needs coin by coin, one at a time. Better date peace dollars are also in great demand. As with the Morgans, rolls are seldom offered. Bidders must be content in locating singles. Bargains are few, and mostly a result of overgrading. Gem specimens with proof-like surfaces and a minimum of bag marks bring as much as 50% over bid. As with gold and type coins, collectors and dealers are seeking quality first, price second.

### This Week's Market

**CENTS:** All pluses again---with very few transactions. Bidders continue to advance their bids aggressively with few sellers in the market. Lincolns remain the strongest bid area of the roll market.

1937D - Up a \$1.00; bid now \$17.50

1938D - Jumps to \$30.00

1938S - Transactions netted at \$43.00

1939D - Many rolls exchanged at \$60.00

1942S - Still strongly sought after; bid moves to \$86.00

**NICKELS:** Shield and Liberty nickels in both BU and Proof are in great demand. Bidders are firm at current levels, however. A few scattered Jeffersons continue upward movement.

1939S - Sudden interest. Bid \$260.00

1948S - Wanted in quantity. Bid reaches \$27.00

1949S - Another "S" roll advances; sales at \$38.00

1951P - Few available at a higher \$27.00 bid

**DIMES:** Mercury dimes are wanted, however, buyers are reluctant to raise their bids. As with Jeffersons, Roosevelts record scattered gains.

1949D - Bid move! Bid now \$81.00

1951P - Quite strong at \$28.00

**QUARTERS:** Washington quarters 1934 through 1937-P are in great demand. Singles as well as rolls are needed. "Type" quarters, especially early Bust pieces, are impossible to locate anywhere near current levels. In a week's period, only one or two average pieces are offered on the teletypes. Quantities just don't exist.

1941D, 1941S - Move together to \$170.00 bid

1945S - Up a \$1.00; bid now \$37.50

1949P - Tough roll. Seldom offered near \$195.00 bid

1951D - Modest increase to \$28.00

**HALVES:** Actively bid area. Walking Liberties make substantial gains. Early date Franklins 1948-1952PDS received heavy bidding.

1934P - Jumps \$15. None offered

1935P, 1936P, 1937P - Each roll up \$5.00

1948D - Sales noted at \$75.00

1949S - Still hot! Bid now \$295.00

**DOLLARS:** Both Morgan and Peace rolls actively sought after, especially the

"key" date rolls. Most of the better dates are desired in singles as well as rolls. Buyers are "hoping" to build their inventories a piece at a time. Continued increases in better date dollars is expected.

1883S - Rolls wanted at \$900.00

1884S - Does a roll exist? Bid at \$2300!

1885S through 1902S - Same for these "tough" dates

Peace dollars - See chart for aggressive changes!

**PROOF SETS:** 1970 mint sets bid around \$13.00. Activity is relatively light except for the 1972-S set. Note prices for 1972-S Proof rolls!

1972S - Sales as high as \$5.85

**U.S. GOLD:** Another incredible week for gold. By far the most active area of the market trivia note: Two 1880 flowing hair Stellas offered on teletype at \$25,000.00 each.

(Better dates and gem specimens bring proportionately more than the price listed below.)

## STRONG BIDDING IN MOST AREAS

### BU Rolls, Type, Commems & Gold Are All In Demand

### The Market in Depth

ALLEN HARRIMAN

Plus signs are so numerous---and so thoroughly scattered across the entire market---that it is difficult to know where to begin! The Lincoln rolls continue their strong upsurge---and they have been joined this week by virtually every Buffalo nickel that is traded by the roll. Add to this the Wartime Jeffersons---scattered dates in the rest of the nickel series---several Roosevelt issues---most of the Walking Liberty and Franklin rolls---and you pretty much have the picture. A very active week for the BU rolls! In fact, only one lone series---the Washingtons---has been more or less bypassed as far as price hikes are concerned. Yet even in this series several bidders have been active---"bargain hunting" at or just below current prices. Sales in most areas have been moderate---at this point demand exceeds the available supply in most instances.

Commemoratives have been quite active this week---with the eleven gold issues topping most buying lists. It is interesting to note that while the total of the bid prices for the eleven singles comes to only about \$2190, several buyers are willing to pay as high as \$2375 for complete gem sets. In fact, at least two or three sets changed hands at that price during the week. In the silver commem line-up, attention seems to be returning once more to the various PDS sets---with several gains recorded this week by the lower mintage sets. Several sellers are listing the single silver issues; a few prices are slightly lower---but, for the most part, dealers are sticking to current levels.

Demand for type coins---both choice BU and proof---has, if anything, become even stronger in the past few weeks. Long buying lists pepper the tapes---yet sales have been extremely limited. This material simply isn't available in any quantity and those dealers who have a few pieces aren't anxious to sell to another dealer. They all have retail customers who are ready and willing to purchase choice type coins.

Gold, by the way, is still quite active. Mexican fifties have moved ahead again---about catching up with U.S. twenties (which have leveled off around last week's levels). Several of the other denominations have moved forward---especially the hard to find ten dollar Indians.

### This Week's Market

**CENTS:** This week's moderate sales have not been able to keep up with buyer demand; prices advance again on a broad front.

1934D - Still no choice rolls on the market; bid reaches \$190

1939D - Another gain; bidders offer \$63

1941S - Bid now \$46; 1942S - Bid now \$90

1946S - Scattered transactions around \$7

1951P - Bids of \$18.50 fail to produce many rolls

1960P (sm) - This week buyers will pay \$107.50

**NICKELS:** Very strong and sudden interest in Buffalo rolls; substantial increases are recorded. In the Jefferson series, most of the bidding once again centers around the Wartime rolls (with seven plus signs registered by this short set).

1934P - A rather tough roll to find; strongly bid at \$250

1935P - Bid moves up to \$112.50; no sales

1936PDS - All three register gains

1937P - A very large jump---from \$135 to \$160 bid!

1938D (B) - Several transactions around \$105

1942S - Bid now \$75; 1943D - Bid now \$59

1950D - Lower---with a few sales as low as \$280

**DIMES:** The Mercury rolls are very quiet (one exception: the 38-D roll---which is now bid at \$260). Scattered dates in the Roosevelt series are receiving some attention.

1949P - Up \$5---with bids at \$195

1949D - Considerable interest; bid this week at \$85

1955P & 1955S - Both record sales at slightly lower levels

1956P - Very strong interest pushes the bid level to \$12 (keep an eye on the 56-D)

**QUARTERS:** Dealers want a number of issues---particularly the pre-1941 rolls---but prices remain virtually unchanged from last week's levels. Interest in "type" quarters is particularly high.

**HALVES:** Long buying lists regularly appear for both the Walking Liberty and Franklin series; many gains have been recorded---particularly for the high-powered issues.

1942S - Bid now \$160; 1946D - Bid now \$155

1949P - Choice rolls receive bids of \$285

1949S - As with the Philly issue, really nice rolls are hard to find; bid reaches \$310

1950D - Transactions noted at \$185

1951D - Bid moves up to \$192.50; few available

1951S - Bid now \$115; 1952S - Bid now \$175

1955P - Offered this week at a lower \$105

**DOLLARS:** Prices are steady after last week's numerous gains. An occasional "tough" roll is offered---but always at a substantial premium.

**PROOF SETS:** Very little activity; the 1972-S set is up slightly---with bids (and sales) at \$6---otherwise, a few minor losses are scattered across the chart. the 1970 mint set recorded bids as high as \$14 this week.

**COMMEMORATIVES:** Gold commems have made rapid strides this week---with nine of the eleven issues boasting "plus" signs. Complete sets of gold are bid as high as \$2375 (with transactions at that figure). In the silver commems, the PDS sets are again in the forefront of bidding.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## ADVANCES CONTINUE ACROSS ENTIRE MARKET

### Gem Type Coins Soar; "Want Lists" Are Seldom Filled

### The Market in Depth

ALLEN HARRIMAN

To quote a dealer at a recent major coin auction, "type coins are outa' sight!". Last weeks extensive rash of "plus signs" has already been supplanted by a substantial new batch of gains recorded throughout this week of active bidding. It should be mentioned that although long and extensive buying lists appear time and time again, the number of choice coins offered to the hopeful bidders in any given week can be counted on one hand. And of these few pieces which are available, a relatively large percentage turn out to be rather optimistically graded.

Among the "types" which are in particular demand, none in the moderate price range are suddenly more elusive than the "with arrows" dimes, quarters and halves of 1853-55. The "with arrows" silver issues of 1873-74 came into their own several years ago, but the earlier version (1853-55 for the dimes and 1854-55 for the quarters and halves) has been drastically overlooked until quite recently. Current record-breaking teletype bids of \$100, \$130 and \$135 respectively have failed to produce even one choice specimen in a full week of regular teletype bidding. At the recent auction which was mentioned earlier, gem "with arrows" pieces were fetching double or more the current catalog prices! As a matter of fact, virtually all early type pieces in truly superb condition set what must be record auction prices.

Bust coins too—from half dimes thru half dollars—are in extremely strong demand. Bid prices continue to advance at a rapid pace—yet bidders almost always go home empty-handed. These early Bust pieces are relatively easy to locate in AU condition and, as prices move ahead, more and more of these "rubbed" specimens find their way into "BU" listings. Buyers should be especially careful to fully examine any Bust coinage offered as strictly uncirculated.

Processing, by the way, of XF/AU coins to make them appear to be "frosty UNC's" is becoming something of a dubious "art". From large cents and Indians thru Morgan and Trade dollars, these "whizzed" coins are flooding the market. It is often only when the collector or investor wants to sell that he finds out that his "BU" coins are processed—and that dealers will give only a fraction of his original cost. There has been more than one authenticated case of the dealer who originally sold a coin later turning it down because of processing! A good eye for coins—but a poor memory for customers!

### This Week's Market

**CENTS:** Even more gains this week than last; a moderate number of transactions continues to be recorded—but additional buyers have further increased demand.

1934P - Few if any available to bidders at \$35

1938D - Bid now \$33; 1938S - Bid now \$46

1942S - Up \$5 this week; bids noted at \$95

1951S - In demand now at \$16

1954P - Transactions registered at a higher \$9.50

**NICKELS:** The Wartime Jeffersons top the nickel action this week—with the roll set now wanted at \$620 and most of the single rolls enjoying higher bids.

1939S - Up again—with buyers willing to pay \$275 for choice rolls

1942S - Bid now \$78.50; 1943D - Sales at \$61.50

1948S - Considerable interest at \$29

1951S - Up \$3—with bids recorded at \$65

1952S - Transactions at a higher \$13

**DIMES:** The "S-mint" Roosevelts advance in mildly active bidding—accompanied by some of the later Denver issues.

1946S - Bid now \$27; 1947S - Bid now \$20

1950S - Up \$5 this week; bids registered at \$210

1951S - Strong demand—bids at \$140, \$145—and as high as \$150

1952S - Buyers are willing to go \$47

1956D - Bid now \$8.50; 1957D - Bid now \$17

**QUARTERS:** Still the most quiet series; prices occasionally edge forward—but "bargain hunting" prevails.

1935P - Bid moves ahead—now \$180

1937P - A substantial gain; one transaction at \$240!

1955D - Slightly higher; sales noted at \$76

1958P - Also up a bit—with trading around \$40

**HALVES:** The scarce 1947-P roll has reached the \$200 bid level; most dealers simply ask for "quotes" on W.L. rolls and singles. The better dates Franklins continue to advance.

1950D - Bid moves up to \$190

1951P - Still an extremely tough roll to locate; bids are now \$100

1953P - \$160 bid—very few offered

1970D - Back up to the \$260-\$275 range

**DOLLARS:** Several key Morgan rolls record very healthy gains; none of these scarce dates, however, are available to bidders.

1883S - Up \$200 in one week!—bid now \$1100

1884S - Also up \$200; buyers will pay \$2500 for a choice, original roll

1886O - A \$125 advance; \$800 is now offered!

1888S - Bid now \$675; 1899S - Bid now \$750

**PROOF SETS:** Although the post-1954 sets are still in the doldrums, most of the 1941-54 issues have shown gains this week (see page six). The 1970 mint set is up—with moderate bidding around \$14.50.

**COMMEMORATIVES:** Prices are lightly mixed; some bidders are strictly looking for bargains—but virtually all sellers are firm at current levels. The key 1904 Lewis & Clark gold commem has now reached \$430 bid.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## DEALERS EXPERIENCE DIFFICULTY IN BUYING "Want Lists" Continue To Lengthen As Customer Orders Pile Up

### The Market in Depth

ALLEN HARRIMAN

One major dealer remarked this week that although the bid level for a number of scarce Franklin issues had recently moved up as much as 25%, he still hadn't been able to pick up even the few early rolls that he needs. As a matter of fact, several teletype bidders have come to the conclusion that it might be better to leave bid levels undisturbed for a while--and simply try to purchase the rolls and singles they need at current levels. It seems evident--in many instances at least--that running higher and higher bids has only the effect of keeping material off the market! Those holders of the coins which are now in considerable demand are often content to sit back and wait to see just how high dealers will go in their attempts to locate material for their customers. How many investors, for instance, would consider selling their 1951-P Franklin rolls as long as the bid level jumps five dollars a week?

Again this week it would be difficult to pinpoint the "most active" area of the market. Gold, of course, is uppermost in the minds--and in the buying lists--of many teletype dealers. As the bullion price of gold soars (currently in the \$65 per oz. range!) more and more dealers are trying to locate scarce types as well as scarce dates and mintmarks. For years now the low mintage coins have taken a back seat to investing in quantities of "common dates". The potential for collector interest in better dates is beginning to be realized--especially now that the price for the most plentiful issues has moved ahead so sharply.

Commemoratives--particularly the gold issues and the PDS sets--are on the march once again. Locating choice gold commemoratives--really frosty BU or prooflike pieces--is very difficult ("average uncirculated" pieces are not so much of a problem--but few people want average specimens). Most of the PDS silver sets are available--it is just that nearly all dealers manage to keep their prices somewhat ahead of the current market.

Type coins in choice condition--as was mentioned last week--are virtually impossible to find on dealers selling lists. Again in this area it seems futile to raise the bid level week after week. All denominations of BU rolls are included on dealer "want lists"--topped perhaps by the early Franklin issues. Sales in this area have been moderate as dealers seem willing to part mostly with the less scarce dates. Later proof sets still constitute, in general, the least active segment of the market. A few bargain hunters are around--but, for the most part, current bids do not encourage active trading.

### This Week's Market

**CENTS:** Price advances continue--although a little of the steam may be missing this week from the recent upsurge. Actually, the more elusive dates are now receiving most of the attention.

1934D - Bid reaches \$200--yet no choice rolls have entered the marketplace

1938S - Bid now \$48; 1939D - Bid now \$67.50

1942S - Buyers are willing to pay \$98 this week

**NICKELS:** The most "popular" wartime rolls (1942-S, 43-D, 44-S) are joined by a number of later San Francisco issues in continued moderately active bidding. Shield and Buffalo nickel proofs (bid respectively at \$50 and \$100) are quite difficult to locate in gem condition.

1937P - Still soaring--with at least one transaction this week at \$172.50!

1942S - Bid now \$85; 1944S - Bid now \$60

1951S - A \$5 gain; bid moves up to \$70

**DIMES:** In spite of the currently active market, Mercury rolls remain surprisingly quiet! The Roosevelts, on the other hand, are enjoying quite a substantial number of advances this week. The really tough 1853-55 with arrows dime moves ahead again; bid now \$105.

1949D - Bid at \$95--with sales at that level

1951S - Up another \$10; bidders now offer \$160

1952S - Very active; sales at \$50, \$52 and as high as \$55 during the week

1956P & D - Both register further gains--and both are wanted in quantity

**QUARTERS:** Gains have been somewhat more numerous this week--since recent "bargain hunting" has been rather unsuccessful.

1939P - Bid now \$107.50; 1941D - Bid now \$175

1946D & S - Both record small price advances

1949P - Often quite difficult to locate; bid moves up to \$200

1953S & 1954S - Bid now at \$38 and \$21

1958P - Several transactions noted at \$40; strong bidding noted

**HALVES:** The scarce early Franklin rolls top the week's BU roll activity. Buyers want "up to ten rolls" of many dates--but have had to be content with picking up an occasional roll or two.

1948P - Bid now \$120; 1949P - Bid now \$290

1949S - A \$25 hike this week!--bid for in quantity at \$335

1950P - Bid now \$170; 1951P - Bid now \$110

1951S - Transactions this week at a higher \$122.50

1953P - Bid \$162.50--and quite elusive at this price

**DOLLARS:** A few plus signs are scattered across both charts. The "common dates" are firm at current prices--and bidders hope to locate the scarce issues without disturbing the bid levels (however, not many sales of choice pieces have been registered).

**PROOF SETS:** More and more attention is being turned to the early sets--which are always bid for in "choice" condition. The later "S-mint" issues are all rather soft.

1938 - Bid now \$127.50; 1939 - Bid now \$112.50

1940 thru 1942 - All are on the plus side

1970 Mint Set - Steady in the \$14 - \$14.50 range

**COMMEMORATIVES:** Prices are on the move again after something of a rest. The eleven gold issues are leading this latest increase in buying interest (all eleven record gains!)

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

## BUYERS CONTINUE TO OUTNUMBER SELLERS Late Date Proof Sets Slip Lower As Interest Lags

### The Market in Depth

ALLEN HARRIMAN

While the rest of the market percolates along at a busy rate, the proof set line-up is being almost totally ignored. True, there are a few "bargain hunters" on the scene (and they do occasionally pick up a "steal" here and there)—but in general the later date proof sets are far from today's center of activity. Prices this week for all sets dated after 1959 have slipped even lower—and the ten or twenty (or one hundred) set lots available are not being sold without difficulty. More than one "numismatic pundit" sees a "push" on proof sets in the relatively near future—probably sometime this fall. While the CDN is not in the business of predicting, it does seem from past experience that dealers eventually turn to the most drastically underpriced segment of the market when they are interested in beginning a "push". It took forever it seems for dealers to get around to Lincoln cents—but from the looks of things they finally did. Buying at the "bottom" is the problem. As for proof sets, however the "bottom" can't be too far away. The dates, by the way, which present the greatest potential for promotion are the issues from 1954 through 1967. The later "S-mint" issues seem far too plentiful at this time—and the earlier sets aren't around in large enough quantities for serious "promoting". This, let us repeat, is not a "recommendation" in the usual "tout sheet" sense of the word—merely food for thought for those who may be looking around for a possible area of investment.

Even though everyone knows that choice BU and proof type coins are "hot", there is also quite a substantial number of dealers who try day after day to buy type coins in "good or better" condition. In order to keep our readers fully informed, we list below the current bid prices being monitored in this area.

Half cents . . . . .	\$7.00	Bust dimes . . . . .	\$ 4.30
Large cents . . . . .	2.60	Seated dimes . . . . .	1.85
Flying Eagle cents . . . . .	3.50	Twenty-cents . . . . .	15.00
Copper-nickel cents . . . . .	1.25	Bust quarters . . . . .	13.00
Two-cents . . . . .	2.00	Seated quarters . . . . .	3.40
Three-cents (nickel) . . . . .	1.95	Bust halves . . . . .	7.50
Three-cents (silver) . . . . .	4.25	Seated halves . . . . .	4.00
Shield nickels . . . . .	2.75	Bust dollars . . . . .	7.00
Bust half-dimes . . . . .	5.00	Seated dollars . . . . .	22.00
Seated half-dimes . . . . .	2.35	Trade dollars . . . . .	22.00

### This Week's Market

**CENTS:** The scarce earlier issues (34-D, 35-S, 39-D, etc.) and the later "S-mint" rolls top this weeks buying lists—with quite a number of advances registered.

1934D - Bids of \$210 still fail to produce results

1939D - Transactions noted as high as \$70

1947S - Bid now \$16; 1949S - Bid now \$24

1951P - One of the toughest later issues; bid this week at \$21

1955S - Bids (and sales) at \$10.50

**NICKELS:** Any choice BU Buffalo nickel roll is now bid at \$110 (very few are available—even at this higher price); several small gains have been recorded by the still moderately active Jefferson series.

1939S - Offered this week—at \$285

1943 D&S, 1945P—all edge slightly higher

1946S - Bid now \$21; 1947S - Bid now \$16

1955P - Transactions during the week around \$23

**DIMES:** Both types of Bust dimes—as well as the "no stars" Seated Liberty issues of 1837—are virtually impossible to locate in really choice condition. Sellers can almost "name their price" if the coin they have for sales is a gem! The mercury rolls are unchanged—and the Roosevelts are only slightly mixed.

**QUARTERS:** The Washington rolls have added a few more plus signs this week; bidders, however, remain rather cautious in this area. Type quarters—from Bust through Standing Liberty—in choice BU and proof—are on the move! (see page five).

1937P - Up another \$5; bid now at \$225

1942D - An under-rated issue—bids this week at \$85

1947D - Transactions recorded as high as \$37

1951S - Also up \$5; choice rolls are wanted at \$155

**HALVES:** Once again the Walking Liberty rolls are appearing on numerous "want lists"—with the early Philly rolls enjoying particularly strong demand. The early Franklins, too, are still forging ahead.

1934P - Very seldom offered; bid now \$177.50

1935P & 1936P - Both are bid this week at \$157.50

1939P - Up five dollars; buyers are willing now to pay \$175

1946D - Bid \$160; none have been offered for sale

1947P - Bid now \$202.50; 1947D - Bid now \$157.50

1950D - Up \$10 this week; bid reaches the \$200 mark

1951P - Setting records!—with \$125 offered now for choice rolls

1952S - Bid now \$180; 1953P - Bid now \$167.50

**DOLLARS:** Although bidding—especially for the better dates—is, as always, relatively active, prices remain almost completely unchanged from last week's levels. As was mentioned previously, buyers still hope to locate choice pieces at current prices. Choice BU and proof Seated Liberty and Morgan dollars are constantly on buying lists.

**PROOF SETS:** All of the later issues—beginning with 1960—have been available throughout the week at even lower levels. Buyers are still not really enthusiastic at these reduced prices.

1970S - Most transactions are noted around \$8

1970 Mint Set - Unchanged and firm at \$14.50

1971S - Ask now \$5.90; 1972S - Ask now \$5.80

**COMMEMORATIVES:** Most of the changes continue to be on the plus side—bidding remains quite active. Dealers are willing to pay around \$6300 for complete choice sets—but none have been offered (the 50-piece type set is bid around \$3100).

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below.)

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

**INVESTORS NOTE:** the price in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

**ADVERTISING RATES:**  
\$4.50 per column inch  
4 consecutive ads (no changes)  
10% discount.  
**DEADLINE:** Wednesday noon  
before publication.

## WALKING LIBERTY & BUFFALO ROLLS GAIN Buyers Continue To Experience Difficulty In Locating Choice Material

### The Market in Depth

ALLEN HARRIMAN

Walking Liberty half dollar rolls are in very strong demand. Dealer "want lists" now include every issue from 1934 thru 1947--and about two-thirds of the dates involved have shown additional advances this week. Only an occasional roll is offered for sale and, if the price is anywhere near current levels, it almost always sells within minutes. The early Philly issues are particularly difficult to find--practically none of the P-mints from 1934 to 1940 are on the market. In fact, the few rolls which are listed for sale consist usually of the "common dates"--1941-P thru 1945-P (the bid--for these dates has now moved to \$88.50). There is still lots of room for these W.L. rolls to advance. Of particular interest to the investor should be the still overlooked rolls in the 1942-S, 1943-S and 1944-S stand out as especially attractive. Well-struck rolls of "S-mint" halves from 1940 thru 1944 are quite hard to locate--and continued even moderate bidding would advance bid levels considerably.

And while on the subject of earlier rolls, it should be added that choice rolls of Buffalo nickels aren't very plentiful on the teletype either. Several issues in this "short set" have moved ahead again this week (with only light to moderate bidding listed as the cause). Again, serious demand could advance prices considerably for nearly any of the twelve rolls from 1934 thru 1938. Only a couple of issues in this set can be thought of as easy to locate. When the bidding is active and bid levels increase five or ten dollars--rolls of 1983-D (and to a lesser degree, 1937-D) start to come out of hiding. Among the rolls with the most potential are the issues of 1934 and 1935--especially the two Denver dates in well-struck condition.

Choice type coins remain virtually impossible to buy. Only a few pieces of the more common types appear on the tapes at all--long buying lists go unanswered day after day in spite of the fact that anxious bidders of ten raise their bids substantially in attempts to purchase even one or two coins. Check the prices dealers are asking (and getting) for choice specimens of the scarce types at various coin shows and you will understand why the teletype dealers aren't very interested in selling at wholesale levels to other dealers.

CORRECTION: There was a mis-print in last week's column. The bid for GOOD or better Bust dollars is \$70 (not \$7, as reported).

### This Week's Market

CENTS: Most of last week's "gainers" are still on the move! Choice rolls of these "wanted" dates are not yet available in sufficient quantity to fill buyer needs.

1939D - A big jump--from \$70 to \$78 bid this week

1942S - This one has reached the \$100 mark

1944S thru 1951S - All are in demand--and at higher prices

NICKELS: Several more advances have been registered by the Buffalo rolls (very few are being listed for sale); gains also dominate the Jefferson series.

1936P - Bid now \$112.50; 1936S - Bid now \$120

1936D & 1937D - Both are bid this week at \$115

1942P (t2) - Often quite difficult to locate; bid moves up to \$172.50

1945P - Bids--and transactions--at \$50

1950D - Slightly lower; now in the \$275-\$290 range

DIMES: Type dimes are really soaring!--the large size Bust dime (1809-28) is bid now at \$235; the reduced size (1829-37) at \$190 and the suddenly very elusive "with arrows" version of 1853-55 up \$15 this week at \$120 bid! Prices for the Roosevelt rolls are lightly mixed--with single BU sets trading regularly around \$38-\$39.

1950S - Bid at \$217.50; few if any offered

1951S - Up \$5--with bids noted now at \$165

QUARTERS: Moderate bidding continues to be monitored for Washington rolls--but virtually all at current levels. Type coins in the quarter series also record further substantial gains--with the two Bust types moving up another \$50 each!

HALVES: There are eighteen "plus signs" in the Walking Liberty line-up! Scattered sales (mostly later "P-mints") have been registered--but not nearly in the volume to satisfy current demand. Bidding remains strong for the earlier Franklins.

1934P - Bid now at \$180; none have been offered in months

1935P, 36P & 37P - All are now bid at \$160

1939P - Bid at \$180; 1939D - Bid at \$195

1947P - Over the \$200 mark!--bid this week at \$205

1950D - Also bid now at \$205

1951P - Still setting records--with bids reaching \$130

1953P - Transactions at the higher bid level of \$170

DOLLARS: Increased bidding--and numerous gains; those really tough

"S-mint" Morgans are, as usual, in the center of the bidding activity.

1898S - None available to bidders at \$625

1899S - Where are they?--bid now \$760

1921D & S, 1922 D & S and 1923 D & S - All are beginning to interest buyers

1924P - Bid now \$67; 1925P - Bid now \$69

1926P & D - Both rolls are being asked for at \$165

PROOF SETS: Very lightly mixed--and very lightly traded; the later sets (1968-72) again edge lower. The 1970 mint set is still strong in the \$14-\$14.50 range.

COMMEMORATIVES: The Oregon and Washington-Carver issues join the gold commems on their continued upswing. Bargains are few and far between in either the silver or gold issues--and the occasional "bargain priced" offering is snapped up quickly.

U.S. GOLD: (Better dates and gem specimens bring proportionately more than the prices listed below).

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

**INVESTORS NOTE:** the price in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

**ADVERTISING RATES:**  
\$4.50 per column inch  
4 consecutive ads (no changes)  
10% discount.

## GOLD COMMEMS CONTINUE TO ADVANCE Dealers Will Pay Very High Prices For "Spectacular" Type Coins

### The Market in Depth

ALLEN HARRIMAN

Ten of the eleven issues in the gold commem set are sporting another new set of "plus signs" again this week. It is interesting to note that even though new higher buying prices appear on the teletype circuits each week, the number of choice BU gold commemors being traded is becoming progressively smaller; it has been several weeks since a complete choice BU set has been offered. The bids for the eleven issues totals \$2312 with this weeks latest gains figured in--and a really choice set priced anywhere below \$2500 would probably stir a bit of interest. One well-known dealer recently remarked that a \$3000 price tag seems a definite possibility by the end of 1972!

And speaking of scarce little gold pieces, the bid for the rare BU type two one dollar gold is \$650 this week--with dealers willing to pay considerably more for a truly gem specimen. In fact, one 1854 piece--described as superb--was offered at \$1000 this week (remember, this is wholesale dealer to dealer selling price!) Although XF pieces are frequently encountered, really choice original "type twos" are extremely few and far between--and type collectors are scrambling to get the occasional gem that comes along. Placing a "projected price" on this rare item would be just a matter of opinion--but monitoring bids in the \$800-\$900 range within the next year would seem to be a reasonable--if not conservation--expectation.

A few dealers are now seriously bidding for type coins that can fit the very stringent qualifications of "superb MS-70" coins--and they, too, are willing to pay "well over ask" for such pieces. This is especially true of the bidding for Bust coins--dimes and quarters in particular. Other types that have been in extremely strong demand this week are original BU copper coins (half-cents, large cents and two-cent pieces), flying eagle cents, seated quarters and halves, and Barber halves. Virtually none of this material, however, has been traded. Dealers simply don't offer this sort of coin on the teletype.

By the way, two very scarce coins have been appearing on "want lists" for months. Both of these issues are listed in the Guidebook at very reasonable prices--yet neither is available--not even a single specimen. These are the 1915-S Barber dime and the 1913-P Barber quarter. Keeping an eye out for a bargain in either of these two coins would be a very good idea--and a "bargain" would be anything less than 50% over the 1973 Redbook price!

### This Week's Market

**CENTS:** Even more advances this week than last; sales remain moderate. Choice original BU Flying Eagle cents are bid now at \$110--and it seems that even higher bids will be needed to pry loose a few nice specimens.

1938S - Up \$4--with buyers now willing to pay \$52

1939D - Bids (and transactions) at a higher \$80

1941D - Bid now \$32.50; 1941S - Bid now \$50

1946S - Still on the move; sales at \$7.50

1948S - Bid now \$16.50; 1949S - Bid now \$26

**NICKELS:** Both the Buffalo and Jefferson series are enjoying their share of "plus signs"--with more and more dates apparently looking good to teletype buyers.

1936D & 1937D - Both receive bids now at \$117.50

1937S - Bid now \$130; 1938S - Bid now \$127.50

1943D - A \$4 jump--with sales at \$65

1950P - This one can be very tough; bid now \$40

1952D - Increased interest at a slightly higher \$35

**DIMES:** Mercury rolls remain very quiet--with practically no bidding registered; a few small gains are noted for the Roosevelt. "Type" dimes are still the big news--with \$200 now offered for BU Bust pieces (some dealers will go considerably higher for really superb specimens).

1950S - Bid moves up to \$220

1954S - Available in ten roll lots around \$17.50

**QUARTERS:** Bust quarters continue to top buying lists in this area of the market--bids are now \$150 and \$450 respectively for the large and reduced sizes. Washington rolls reflect perhaps a bit more interest this week.

1942S - Bids of \$530 fail to produce results

1949P - Up \$5; none available at \$205 bid

1951S - Bid now \$157.50--not easy to locate

**HALVES:** Bidders continue to look for choice Walking Liberty rolls--at current prices; the scarce Franklin rolls remain on "want lists" (several at higher levels). Seated Liberty halves in choice BU condition are in great demand at \$100 or more.

1948D - This one is lower, available at \$76

1950D - Bid advances another \$5; now \$210

1951D - Bids (and sales) at a higher \$195

1952S - Now in the record \$185-\$200 range.

**DOLLARS:** Several gains have been recorded for the medium priced Morgan and Peace dollar rolls (87-O, 90-S, 91-S, 21-D, 22-D & S, 23-S). Choice Seated Liberty dollars are bid this week at \$140--and Trade dollars around \$130.

**PROOF SETS:** There are more buyers in the proof set market. They are primarily looking for bargains in the 1956-64 group of sets; sales have been light so far. The 1970 Mint set is offered regularly around \$14.50--with most sales noted around \$14.

**COMMEMORATIVES:** The silver issues are unchanged this week; frequent sales are monitored within present bid-ask ranges. The gold commemors, on the other hand, are still advancing rapidly--with virtually every issue up again in active bidding.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

THE COIN DEALER NEWSLETTER reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the price in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$4.50 per column inch  
4 consecutive ads (no changes)  
10% discount.

DEADLINE: Wednesday noon  
before publication.

## TYPE & GOLD DOMINATE MARKET

### Choice BU Pieces Of Some Dates Are More Elusive Than Proofs

### The Market in Depth

ALLEN HARRIMAN

An interesting trend is becoming apparent in the area of "serious collecting"—the realization of the fact that specific issues of coins are worth more in choice BU condition than they are in proof! The long established precedent that proof coins must always bring more than the same coin in "just BU" condition is falling by the wayside—and they are numerous recent auction records to prove it. The fact is that there are many Philadelphia issues in the Seated Liberty series—and several in the Barber series—that are many times more scarce in really choice BU condition than in proof. For those collectors who are assembling BU sets the rare BU piece is considerably more desirable than the relatively easy to obtain proof.

Listing all of the dates in the two series which fall into this category would be difficult in such limited space—but the following are some of the issues which are to be considered far more common in proof than BU condition. In the Barber dime series nearly every knowledgeable dealer and collector is aware that the 1895-P is far scarcer in gem BU than in proof—but not nearly so many people know that the 1894-P is very much more easily located in proof than BU. One dealer recently remarked to us that it took him five years to accumulate half a dozen gem BU 1894-P dimes and that he could have purchased fifty or more choice proofs during the same span of time. It should be added also that the 1896-P is far more scarce than the Guidebook listing indicates—though not as tough as the 1894-P.

In the Barber quarter series (as was mentioned last week) the 1913-P is the scarcest Philly issue of the series—much more difficult to find than proofs of the same year—and worth considerably more. As for Barber halves, advanced collectors will pay well over the "proof price" for gem BU specimens of either the 1905 or 1910 Philadelphia issues—both being probably in the range of ten times scarcer than the proofs. For the really low mintage Philly issues of 1913, 1914 and 1915 the Guidebook already lists prices well ahead of "common date" prices—yet again these three issues are worth more than the corresponding proofs. As a matter of fact, proofs of these three years are relatively common—being listed regularly in retail ads and being included in most major auction sales. The inclusion of a truly gem BU 1913, 1914 or 1915 half in an auction is something of an occasion and always results in spirited bidding!

Space permitting, next week we will examine several of the dates in the Seated Liberty series which should be snapped up in choice BU condition whenever offered—dates which will already bring a premium for not being a proof!

### This Week's Market

**CENTS:** Gains continue—although fewer dates are on buying lists this week. Choice BU Flying Eagle cents are now bid at \$112.50.

1936S - Bid now \$24; 1937D - Bid now \$19.50

1938D - Choice rolls are now wanted at \$37.50

1941D - Bid now \$33.50; 1941S - Bid now \$52.50

**NICKELS:** Buffalo rolls remain on "want lists" at current levels; several more advances are registered by the Jeffersons. Shield nickels in gem BU and proof condition are asked for regularly—but are seldom available.

1938P - Bid now \$25; 1942P (t1) - Bid now \$24

1942P (t2) - Offered this week at a lower \$180

1943D - Back down to the \$63-\$66 range

1950P - Still in demand—now at \$41

**DIMES:** Common date Mercury rolls occasionally receive bids at \$31—otherwise, the series is very quiet. Changes in the Roosevelt series are slight—with BU single sets trading around \$38.50. Seated Liberty dimes are now bid at a minimum of \$40; choice pieces are offered only infrequently.

1950D - Bid now \$67; 1951P - Bid now \$32

1951S - Some dealers are willing to pay as high as \$167.50 for choice rolls

**QUARTERS:** The 1941-D roll has scored a big gain this week—moving from \$175 to \$200 bid (none are available so far); the remainder of the Washington series is firm—with a few plus signs scattered across the chart. Bust and Seated Liberty pieces continue to advance (see page five).

1945D - Bid now \$59; 1946D - Bid now \$55

1947S - Choice rolls are on buying lists at \$65

1955D - A few transactions—mostly around \$77

**HALVES:** Regular bidding—at present levels—is monitored for the elusive Walking Liberty rolls (only a few of the more common issues are being offered); the Franklins are more or less steady in light to moderate trading. Seated Liberty and Barber halves are in great demand.

1944S - Bid now \$117.50; 1945S - Bid now \$107.50

1950D - Still on the move—bid this week at \$220

1951P - Further sales noted at \$130

1970D - None offered to bidders at \$260

**DOLLARS:** Although dealers are interested in choice pieces (and bargains in the more plentiful material) pieces are unchanged and trading has been light. Choice BU Seated Liberty and Trade dollars, on the other hand, are needed by almost everyone!

**PROOF SETS:** All of this weeks light trading has been within current bid-ask ranges; all dates are still easy to locate (except perhaps really choice early dates). The 1970 Mint set, too, remains static around \$14.

**COMMEMORATIVES:** A few gains for the silver issues—and five more for the gold; bargain hunters are meeting with little success.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## MARKET FIRM; BIDDING MORE ORDERLY A 1972-P "Double Die" Cent—Latest Numismatic Discovery?

### The Market in Depth

ALLEN HARRIMAN

Apparently there is a new "double die" Lincoln cent! Early in the week dealers began to express excitement over the discovery of a number of 1972 Philly cents which described as having a doubled motto, legend and date. By mid-week numerous sales were being recorded at \$50 per coin--and some asking prices were pushing the \$75 mark. So far, no photographs have been published of this latest discovery--but several dealers on the teletype circuits have compared the '72 "double die" to the 1955 version. No estimated mintage figure has yet appeared--although some dealers were selling single pieces from rolls. This will be another interesting development to keep an eye on--the latest in a series of "varieties of the 70's" which began with the '70-S small date cent & proof set and the 1970 & 1971 proof sets with the missing mintmarks.

Last week we mentioned some of the Barber coins which are far more scarce in BU than in proof condition. There are many more such issues in the Seated Liberty series. One of the rarest Philadelphia S.L. dimes is the 1867 issue--practically impossible to find in choice BU condition--and closely followed by the issues of 1863, 1864, 1865, 1866. All five of these coins are offered in proof condition on a fairly regular basis--but very rarely in really gem BU. The low mintage dimes of 1879, 1880 and 1881 are also quite scarce in BU condition--but these three were saved in larger quantities than the issues of the 1860's (small groups of BU 1879 dimes are known to exist).

Again, in the S.L. quarter series Philly issues of the 1860's offer some very rare BU coins. Actually, from 1862 through at least 1870 all the "P" mints are tough in choice uncirculated condition--topped by the virtually non-existent issues of 1866, 1867, 1868 and 1869. And in the later Seated Liberty issues, choice BU specimens are all dates from 1879 through 1888 are far more difficult to locate than are the proofs. It should be mentioned that many dealers have never seen or handled a truly choice BU 1886 quarter--even though proofs are offered on occasion. The same, by the way, can be said (to only a slightly lesser degree) of the 1884 issue.

All of the above specifically mentioned coins often bring more at a major auction in BU condition than they do in proof. (For example, a prominent collector recently offered \$250 to a dealer if he could locate a single gem BU 1886 quarter for him--and he will pay the same amount for a really choice BU 1867 dime!)

### This Week's Market

**CENTS:** "Want lists" continue to ask for "up to three rolls" of numerous dates--especially those issues in the 30's. Price advances continue; trading remains moderate. Indian head cent rolls are on many buying lists--as high as \$15.25.

1936PDS - All three register gains

1938S - Bid for choice rolls moves up to \$54

1941D - Also up--with bids registered at \$36

1942S - Another \$5 jump; bid this week at \$110

**NICKELS:** Liberty and Buffalo nickel rolls in "good or better" are in considerable demand; the BU Buffalo and Jefferson rolls reflect only minor changes.

1938D (J) - Bid moves up to \$102.50

1939S - Slightly lower; now in the \$265-\$285 range

1950D - An occasional transaction--mostly around \$275

**DIMES:** Most early date BU gem Mercuries are very difficult to locate (dealer buying lists are frequently encountered but few sales result); both the Mercury and Roosevelt series have been rather quiet throughout the week.

1949P - Transactions recorded at \$200

1951S - Up again--with bids noted at \$170

**QUARTERS:** "Full head" type two Standing Liberty quarters are few and far between--really gem specimens are a bargain at today's prices. The Washington rolls show a few small gains--in light trading.

1941P - Bid now \$44; 1941S - Bid now \$175

1943P - A relatively tough date; bid this week at a higher \$64

1953P - Also moving ahead; bid reaches \$44

**HALVES:** Seated Liberty halves in gem BU condition are now bid at a minimum of \$110 (and virtually none are being offered for sale); a few gem Barber halves have traded this week around \$150. Walking Liberty rolls are regularly bid at present levels; the Franklins register a couple of advances. Average circ Barber halves, by the way, are "hot" at \$34 per roll!

1950D - Up \$10; bid now at \$230

1955P - Available at a slightly lower \$102.50

1970D - Transactions recorded at a lower \$265

**DOLLARS:** Both the 1893-P and 1894-P Morgans are on "want lists"--with

dealers attempting to buy "even one or two" choice specimens. The few changes in roll prices are as follow:

1887O - Up \$5; bid now at \$105

1891CC - Lower--again in the \$500-\$530 area

1902P - Bids of \$145 produce no sales.

1922D - Transactions noted at the \$100 mark

**PROOF SETS:** The "regular" sets record a few small losses--while the "variety" sets of 1970 and 1971 are all on the plus side.

1970 Mint sets - Now in the slightly lower area of \$13.50 ask

1970S (sm) - Sales as high as \$42 this week

1970S ("P" dime) - Bid moves up to \$320

1971S ("P" nickel) - Transaction as high as \$360

**COMMEMORATIVES:** Prices are lightly mixed; trading is moderate. Interest centers more around the tough dates and sets than the larger mintage issues.

1935/34-PDS Boone set - Sales at \$250

1921 Missouri 2x4 - Bid moves up to \$182.50

1904 Lewis & Clark (gold) - Dealers are willing to pay \$450; no choice pieces are available

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## 1972/72 DOUBLE DIE LINCOLNS CREATE VOLATILE MARKET Type Coins Continue To Soar As Dealer Demand Increases

### The Market in Depth

ALLEN HARRIMAN

Probably one quarter of this week's trading time on the teletype circuits has been devoted to discussions of and the buying and selling of the new 1972/72 double die Lincoln cent. Single pieces--lots of ten--and full rolls have been changing hands at a very rapid pace. It has been quite a while since there has been this much excitement on the tapes!

At this point, prices are very difficult to pin down. Single specimens have traded during the week all the way from \$65 to \$110; rolls began the week in the \$2500 range and by week's end were being quoted as high as \$4500. Needless to say, this is a very volatile market; a constant teletype vigil is necessary to really keep up with the trading. Price changes occur on an hourly basis--and only those who are on top of their teletype machines will know which way the wind blows for this latest discovery.

Take a look at the BU type coin chart on page five! Thirty-nine plus signs have been recorded this week! Dealers think nothing of raising their bids in ten or twenty dollar jumps--yet the number of choice specimens traded has, as usual, been limited to a few Liberty nickels or Barber dimes or coins of similar scarcity. Dealers ask for up to one hundred pieces of such issues as Seated Liberty dimes, Barber quarters or Bust halves--they are lucky to pick up a single choice coin in a full week's trading! Most dealers desperately need to replenish their inventory --for store stock--and especially for their bourse tables at the many important shows which are coming up this fall. Obviously still higher prices are going to be paid before dealers can locate a sufficient quantity of coins to have full cases at these conventions. How much higher is anybody's guess--but at this point there seems to be no stopping the advance of choice type material!

By the way, with renewed interest being shown in the proof sets with missing mintmarks, it should be mentioned that the rare 1968-S set with the "Philly" dime is now bid around \$1300!

### This Week's Market

**CENTS:** Price advances continue for several BU rolls. Choice BU Indians are strongly bid at \$8--practically none are offered to eager bidders (this one has quite a long way to go!)

1934P -- Bid now \$37; 1934D - Bid now \$212.50

1938S - Choice rolls are still on "want lists"--this week at \$56

1941S - Also up; bid now at \$55

1946P, 47P, 50P & 51P - These Philly rolls are all higher

1955S - Sales registered around the \$10 mark

**NICKELS:** A few scattered increases are noted for the Jeffersons; trading is rather light. Choice BU Bust half dimes are impossible to locate at the new higher bid of \$90.

1943D - Bid moves up to \$65

1950D - Transactions registered during the week at \$280

**DIMES:** Interest in dimes throughout the week has centered around choice "type" specimens--some of the higher bids are as follows:

Bust (large size) - Bid now at \$275

Bust (reduced size) - Also up--with bids at \$215

Liberty Seated (no stars) - None available to buyers at \$475 bid

Seated Liberty (1853-55) - Another substantial jump; bid \$127.50

Seated Liberty (1873-74) - Strongly bid at \$160; none traded

**QUARTERS:** In the area of "type", the quarter news is the same as it is for the dimes--up, up, up! (see page five); bidders have been moderately active for Washington rolls--mostly within present price ranges.

1943P - Still tough to locate; bid now \$65

1944S - Buyers have no luck--even though they now offer \$102.50

1954S - Trading of a BU bag noted around bid

1955D - Sales monitored around \$76

**HALVES:** Although both Walking Liberty and Franklin rolls (and complete sets) are in moderate demand, "type" also dominates the bidding in half dollars. Such rarities as the 1839 "no drapery" and the 1853 "arrows & rays" versions are virtually never offered on the tapes in choice BU condition (both are bid this week at \$550!)

1946D - Up again; wanted at \$162.50

1948D - One or two sales noted as high as \$75

1951P - Some mild profit taking lowers the ask to \$132.50

1954S - Interest picks up; bid for in ten roll quantities

**DOLLARS:** Scattered gains--with even more buyer interest noted for the mintmarked issues of 1921, 1922 & 1923.

1880O & 1887O - Both are up \$5 this week

1889CC - Choice BU specimens are bid now at \$900

1890S - Transactions recorded at a higher \$167.50

1893P & 1894P - Both move higher again; few singles available

1921D - Bid now \$92.50; 1921S - Bid now \$82.50

1922D - Up another \$5; bid reaches \$105

**PROOF SETS:** Interest remains mostly in the area of the "no mintmark" sets and the 1970 "small date" issue. The 1970 mint set is slightly stronger around \$13.50-\$14.00.

**COMMEMORATIVES:** Quite steady in general; trading moderate.

1928 Hawaiian - Bid moves up to \$460

1921 Missouri - Both versions advance; choice pieces are few and far between

1915-S Pan Pacific (gold) - Sales as high as \$105!

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## TYPE COINS SKYROCKET IN EXTREMELY ACTIVE BIDDING The 1972/72 Double Die Lincolns Settle To Around \$60 Bid

### The Market in Depth

ALLEN HARRIMAN

The 1972/72 double die Lincoln cent has experienced more orderly trading this week—with single BU specimens being offered (and occasionally traded) in the \$60 area—and rolls available at the \$2600 mark. Most dealers seem to be assuming a "wait and see" attitude on this coin—with considerable attention being paid to possible mintage figures and to exactly when they were produced by the mint. As with many new discoveries, the supply seems quite plentiful in the beginning—only time can give a real perspective. How many people remember the days when 1955/55 double dies were being offered by the handful at \$10 each (in gem BU condition)! This was as late as 1958, by the way.

This week's forty-two plus signs for type coins tops last week's record of thirty-nine—and new bid records are being set every day in this area of the market. Buyers are in the market for virtually any choice piece from half cents thru trade dollars—and quality is the key word. After listing their new higher bids each week, several dealers then state that they will pay considerably higher prices for absolutely flawless gem specimens! Needless to say, everyone is trying to buy and very few want to sell really gem type coins. The occasional piece that is offered usually sells within minutes—often it is claimed by the very next message on the teletype.

In addition to the phenomenal demand for superb coins, dealers are beginning to ask for "sliders" and AU type as a second choice. Actually, locating any quantity of these high grade pieces isn't going to be very easy either. Quite a percentage of the extant "slider" material has already been "processed" to look uncirculated (this applies to AU and many XF pieces also). For several years now there have been dealers who have specialized in whizzing, buffing and re-coloring high grade circ coins—so those collectors who wish to assemble type sets of unprocessed AU quality are not going to find the project as simple as it might seem.

A quick run-down on the current bid prices for the three scarce early date Mexican fifty peso pieces. The 1921 is bid in the \$155-\$160 area—the 1926 at around \$115—and the 1931 in the \$115-\$120 range. Interest is high for sets of early dates—and the other coins in the set are usually available at the "common date" price of \$93 or so.

### This Week's Market

**CENTS:** Gem BU Flying Eagle cents are now bid at \$120; the 1859 "one year of type" issue is in demand at \$87.50—and original BU Indians have reached \$9 bid. Numerous BU rolls are also still on the move!

1934D - No choice rolls are yet available; bid this week is \$215

1935S, 36S & 38S - All are on the plus side of the ledger

1942S - Up another \$5; bid now \$115

1943S - Several sales during the week at \$28

**NICKELS:** Shield and Liberty nickels—and all the various half dimes—are in constant strong demand (but few have been offered for sale). The Buffalo rolls are quiet this week; the Jeffersons register about half a dozen gains.

1938D (J) - Bid now \$105; 1942S - Bid now \$88

1943D - Transactions during the week at a higher \$67

1951S - Up \$3; bid at \$73

**DIMES:** Several sales of common date Mercury dime rolls were registered during the week—all within current price ranges; the Roosevelts, on the other hand, record scattered gains in light trading. "Type", however, continues to overshadow all other dime activity (see page five for the numerous substantial increases).

1947P - Bid now \$17; 1948P - Bid now \$36

1951P - Transactions noted as high as \$36

1952D - On several dealer "want lists"—with sales at \$21

**QUARTERS:** Several small gains have also been recorded by the Washington rolls. All the type quarters—from Bust thru Barber—are still zooming ahead. Several frustrated dealers are now simply asking for "quotes" on choice specimens!

1941S - Catching up with the Denver version; bid at \$180

1945D - Bid now \$61; 1946D - Bid now \$56

Seated Liberty quarters:

Arrows & rays, 1853 - Bid now \$375

Arrows, 1854-55 - Bid now \$165

Arrows, 1873-74 - Bid now \$215

**HALVES:** Walking Liberty rolls move up another notch; the Franklins are lightly mixed. Average circ Barber half rolls are strongly bid at \$35—and "type" pieces in choice condition seem nearly impossible to locate.

1941S - A very tough roll—especially in well-struck condition—bid now \$440

1943D & S - Both are bid this week at \$170

1944S - Bid now \$120; 1945S - Bid now \$110

1950D - Up \$15—with bids noted at \$245

1952S - Slightly lower at \$195 ask

**DOLLARS:** Common date Morgan rolls are more plentiful—and are available in quantity. The better dates, however, are on the march again—led by the very scarce 1899-S roll (which is up \$140 in one week!)

1884CC - Bid now \$640; 1890CC - Bid now \$510

1898S - Also bid at \$640; none offered

1901S - Bid advances to \$870

1922D - Still difficult—at \$110 bid this week

**PROOF SETS:** Pretty much the same story as last week: the variety sets of 1970-71 move up—the rest of the line-up of later dates is rather soft. The 1970 mint set remains firm around \$14 ask.

**COMMEMORATIVES:** The two Missouri issues are very strong—at \$195 bid for the 2 x 4 and \$167.50 for the plain issue. Interest centers mainly around the high-powered pieces.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## GOLD---TYPE---AND THE 72/72 CENT!

### Prices Advance On A Broad Front In A Very Active Market

## The Market in Depth

ALLEN HARRIMAN

Three segments of the market have dominated trading throughout the week--and it would be almost impossible to pick the "most active" of these extremely busy areas! Gold--type coins--and the new 1972/72 double die Lincolns together have virtually monopolized teletype trading--with demand increasing on a daily (if not hourly) basis.

With record gold bullion prices being set nearly every day, quantity sales of foreign and U.S. pieces have been fast and furious. (By the way, the CDN has added several more foreign gold pieces this week to our list of reported issues--see this page). In addition, U.S. "type" gold is in great demand--with choice to "flawless" specimens bringing a considerable premium over average BU pieces. A really superb type two one-dollar gold piece, for instance, will now fetch around \$1200!

The "discovery of the decade"--as the 1972/72 double die cent has been termed--is a "hot" item! Prices were momentarily soft on Saturday and early Monday--with those dealers with a supply taking a bit of profit. The available "supply" dried up very very quickly--and bids began to move up by leaps and bounds--\$100 to \$250 at a time! Perhaps the publication of an official mint statement regarding the authenticity of the 1972/72 spurred collector and investor interest. By mid-week sales were being recorded in the \$4000 per roll area--and "sold out" signs were being exhibited across the nation. Public acceptance is the key to the future of this coin--and, for all appearances, the public wants them!

Space doesn't permit a thorough examination of the activity in type coins. Let it suffice to say that demand still outpaces supply to an extraordinary degree. One example of how far dealers will go for superb pieces is this week's bid of \$125 for "MS-70" type two three-cent silver pieces! The bidder warns that anything less than flawless coins will be returned--at this price the buyer can afford to be a "fussy customer"!

## This Week's Market

**CENTS:** In the area of cents, of course, the new 1972/72 Lincoln holds the sport-light (see The Market in Depth column); a few more advances have been registered by the mildly active BU rolls.

1934D - "Want lists" remain unfilled; bid is \$220 this week

1938S - Bid at \$62; 1943S - Bid at \$29

1951P - A rather tough late date; \$26 is now offered

**NICKELS:** Bidders are again having a difficult time locating choice Buffalo rolls at current bid levels; scattered Jefferson issues show gains. Gem proof Buffalos, by the way, are few and far between at present price levels of \$105-\$110.

1937P - Surprisingly scarce; bid now \$170

1938D (J) - Bid at \$107.50; 1943D - Sales at \$70

1950P - Moderate demand would see a substantial rise; bid this week at \$42.50

**DIMES:** Even though price levels are pretty much unchanged, renewed interest in Mercury rolls is evident--particularly for the 1934-40 issues. Light trading is the rule for the steady Roosevelts. "Type" dimes continue to forge ahead--with the scarce "arrows" issue of 1853-55 now bid at \$140!

1934P - Very elusive--bid \$295--none offered

1949D - Transactions noted as high as \$100

**QUARTERS:** Several rolls in the early 40's are on buying lists--some at slightly higher prices. Interest is high for circ rolls of both Barbers and Standing Liberties--and, of course, for "type".

1941S - Sales during the week at \$185

1943P - Bid now \$66; 1944D - Bid now \$76

1953P - Often rather tough; bid at \$46

**HALVES:** Choice BU barber halves reach \$165 bid--with only an occasional specimen available; circ Barber rolls register numerous sales at \$37. The scarce 1941-S (bid now \$460) roll leads the strong interest Walking Liberty rolls.

1943D & S - Up another \$5; both are bid at \$175

1950D - Where are they?--bidders offer \$260!

1951P - Back to the \$130-\$140 range

**DOLLARS:** Plus signs are beginning to proliferate--particularly for the better date rolls and singles; very few choice coins are listed for sale--except at prices considerably ahead of the market.

1878 (8tf) - Bid \$205; 1878 (7/8tf) - Bid \$210

1883S - A sharp jump--with bids now at \$1225

1884S - Choice singles are bid this week at \$135

1887S - Bid now \$285; 1891S - Bid now \$220

1894S - Up \$60; none offered to bidders at \$1040

1899S - Reaching for the \$1000 mark!

1902P - Bid now \$160; 1904P - Bid now \$310

1922D - Sales this week as high as \$120

**PROOF SETS:** The early sets all edge higher--choice sets, as usual, are hard to find. Very little change is noted for the almost ignored later dates. The 1970 mint set regularly receives bids around \$13.75.

**COMMEMORATIVES:** Light trading--prices are quite firm.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

**THE COIN DEALER NEWSLETTER** reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

**INVESTORS NOTE:** the price in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

## ADVERTISING RATES:

## "BUYING IS THE PROBLEM" SAY DEALERS Want Lists Lengthen As Bidders Scramble To Find Choice Material

### The Market in Depth

ALLEN HARRIMAN

It has been another very active week on the teletype circuits. Buyers continue to outnumber sellers--and "want lists" grow more extensive every day. Dealers all want to buy gem BU coins and they often offer to pay "retail" to get them. Selling lists, on the other hand, usually include pretty much the same "picked over" material which most buyers do not need. When anything out of the ordinary is offered the price is somewhat ahead of the current market--yet, even so, a transaction often results and new levels established. One dealer recently remarked that those who are waiting for more favorable prices before rebuilding their inventory may soon be operating without any coins in their cases.

The 1972/72 double die Lincoln has again occupied much teletype trading space. Prices are at last week's levels; most dealers are waiting to see what the action will be at the A.N.A. Convention which begins on the 15th in New Orleans. Dealer stocks of this coin are, for the most part, becoming more widely distributed. As collectors and investors put away single pieces or part rolls, the future of this latest major mint error will be more clear. A statement by the chief coiner at the mint that he "finds it impossible to believe that many of the badly doubled coins got out" substantiates the now revised mintage estimates--placing the "guesstimate" at around 20,000--perhaps less--probably about the same as the famous 1955/55 shift coin. Dealers report that collector interest is very high--retail sales have been active in the \$100 area. In addition, the 1972/72 is going to be front cover news in leading numismatic publications within the next few weeks. All in all--though the coin will probably have its ups and downs--the future looks bright.

A minor drop at mid-week in the price of gold bullion affected quotes on common issue gold coins. By late in the week prices were on the rebound--although most issues finished a bit lower than last week's record highs. Setbacks and subsequent profit-taking in gold are expected by at least some leading economists--and their advice is to keep a close watch on gold and to take quick advantage of any momentary reductions in prices.

"Type", as usual, is extremely active--that is, the bidding is active (sales are few and far between). The Lincolns and Jeffersons have joined the action with a substantial number of gains; key and semi-key silver dollars seem poised for another round of advances.

### This Week's Market

**CENTS:** Another sudden extensive rash of plus signs--with numerous sales across the series noted at higher levels. The 1972/72 double die cent has been quite active throughout the week around \$80--or \$3850 per roll.

1937D & S - Both rolls are now bid at \$22  
1938S - Sales at \$65; 1939D - Bids at \$82  
1941S - Up again--with transactions as high as \$60  
1942S - A tough issue--up \$10 this week  
1943S - Bid now \$30; 1946S - Bid now \$8.50  
1951P - Another substantial jump; few available to bidders at \$29

**NICKELS:** The Jefferson rolls are also enjoying quite a bit of attention--prices advance for many rolls. Single BU sets are still attractively priced around \$75.

1938D (J) - Sales registered as high as \$115  
1940S - Bid now \$36; 1941S - Bid now \$20  
1942S - Strong buyer interest; bids near the \$100 mark  
1943D - Transactions recorded around \$77.50  
1949S - Rather difficult to locate at \$42 bid  
1951S - Bidders offer \$75; very few are offered  
1952S - Bid now \$15; 1953S - Active at \$11

**DIMES:** Common date Mercury dime rolls are now bid at \$32; the Roosevelts are mildly active within current price ranges. Gem BU Bust half-dimes and dimes--as well as the "with arrows" versions of 1853-55 are nearly impossible to locate.

**QUARTERS:** Bids of \$285 fail to produce even a single choice BU "no drapery" quarter (1838-40)--these are vastly under-rated in really choice condition and have been known to bring \$500 or more thru retail sales. The Washington rolls are relatively quiet this week--with the 52-S, 53-P & S, 54-S and 58-P rolls among the dates actively included on "want lists".

**HALVES:** Common date Walking Liberties are now bid at a minimum of \$90; the mintmarked issues are active--but mostly at present levels. The Franklins register a few gains in moderate trading.

1943D & S - Both are bid this week at \$180  
1947D - An occasional roll is now available around \$165  
1950D - Still moving--with bids at \$270  
1951D - Also on buying lists--at \$200 this week  
1955P - Sales at \$97.50 and \$100

**DOLLARS:** Dealers regularly issue long "want lists" which include most of the tough dates (numerous prices advance again this week); sales, however, are infrequent--as most dealers have ready retail customers for really choice dollars.

1878CC - Up \$5--transactions registered at \$280  
1888S - Bid now \$680; 1898S - Bid now \$660  
1890CC & 1891CC - Considerable interest at Today's prices  
1899S - Bid reaches \$1000--still no rolls offered for sale  
1922S - Up another \$5; bid now \$100  
1935S - Bid also at \$1000--and again none are available

**PROOF SETS:** Prices are very lightly mixed--sales are scattered. The 1968 set with the "Philly" dime is bid at \$1500 (none are for sale). The 1970 mint set is strong at a higher \$13.90 bid.

**COMMEMORATIVES:** The two Missouri issues are up in active bidding--along with the 1915-S Pan-Pac gold--the \$1.00 is bid now at \$105 and the \$2½ at \$380.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## BIDDING SLOWS AS DEALERS ATTEND A.N.A. Prices Remain Firm; Type & Commem Gold Are Poised For Further Gains

### The Market in Depth

ALLEN HARRIMAN

Teletype activity has been relatively quiet throughout the week. This light to moderate trading is due, of course, to the fact that so many dealers were attending the 1972 A.N.A. Convention in New Orleans. As was widely publicized many weeks before the convention, most dealers were going to the A.N.A. to buy; it is almost a certainty that new price records for choice type material will have been set by the time this issue of CDN is in the readers' hands. And armed with the latest buying prices for type coins, dealers will reflect these new levels in their subsequent teletype trading during the next several weeks. With so many dealers hoping to replenish their stock, there seems to be little possibility that even the A.N.A. Convention could have supplied the demand. Chances are very strong that teletype bidding for choice "type" will resume again next week---in full force---and at still higher prices.

The 1972/72 double die Lincoln has been very firm all week in spite of the absence of many major dealers from the circuits. The bid is \$3850 per roll---with practically no one willing to sell at that price. The occasional transaction recorded has been in the \$4000 area. Newspaper, magazine and television coverage of this "mint error" is beginning to filter down to the general public---and this publicity along with A.N.A. activity could easily spell out price levels for the coming months. Next week's teletype bidding for double dies will be very interesting.

In addition to the usual demand for type coins, those dealers who were on the tapes during the week were showing increased interest in choice early proof sets, common and scarce date dollars, BU roll sets (Jeffersons thru Walking Liberties) and circ rolls of Indians, Liberty and Buffalo nickels as well as all Barber coinage. It wasn't too long ago, by the way, that these circ rolls were going begging---even the Barbers; now they are wanted by the bag---with some bidders willing to take ten bags. The seemingly inexhaustible supply of a year or two ago is now basically exhausted and bid prices are on the move.

### This Week's Market

**CENTS:** Minor changes in roll prices reflect this week's rather quiet trading. The 1972/72 double die Lincoln is strongly bid at \$3850 per roll (few are for sale at that price). Choice original BU Indian cents are few and far between at \$9 bid.

1951P - Still advancing; not available at \$30 bid

1960P (sm) - Transactions noted at \$110

**NICKELS:** The "with rays" Shield nickels of 1866-67 are still somewhat overlooked at today's higher bids of \$95---choice, well-struck specimens are seldom offered on the tapes. The Buffalo and Jefferson rolls are steady in light trading.

**DIMES:** Investor interest is evident for choice BU sets of Mercury dimes from 1934 thru 1945; most of the few sets which are available carry price tags ahead of the current market. Buying---or attempts to buy---the choice BU pre-1934 issues also continues at a rapid pace. BU dime rolls have also remained quiet throughout the week.

1934P - Probably scarcer than the Denver issue; bid this week at \$300

1939S - A rarely offered roll; bid now \$345

**QUARTERS:** The BU roll set of quarters---from 1941 up---is bid this week at a higher \$3400 (single "short sets" are now priced around \$90); individual BU roll are only occasionally on "want lists" while many dealers are at the A.N.A. Convention. Type material continues to be uppermost in the minds of most teletype bidders.

**HALVES:** The Walking Liberty "short set" is also in demand---by the set or by the roll set. The Franklins have experienced mild trading at recently established levels. Record bids of \$205 have been monitored for the "with arrows" halves of 1854-55!

1941S - Bids of \$460 fail to produce even one roll

1943D & S - Both gain another \$10---with bid level now \$190 on each

1947P - Not an easy roll to locate; bid at a higher \$210

**DOLLARS:** The "common dates" are active---with numerous price changes (in both directions) registered this week. Better dates, as always, are also in strong demand.

1878S - Bid now \$85; 1880O - Bid now \$125

1882O thru 1885O - All are slightly lower

1886O - None are on the market; bid now at \$810

1887O - Also on the plus side---with bidders offering \$117.50

1902P - Up \$10 this week; bid at \$170

1921D - Not as common as was once thought; buyers are willing to pay \$110

1924P - Bid now \$75; 1925P - Bid now \$70

**PROOF SETS:** Several of the earlier sets---1938-42---have registered further gains; choice, spot-free sets are in demand. The later dates are still in the doldrums---with scattered light trading recorded mostly around "bid" levels. The 1970 mint set is strong at \$14.

**COMMEMORATIVES:** Rather active at current levels---with most traders meeting at "halfway between bid and ask". The gold commemoratives seem poised for another round of gains within a short time---watch these!

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## SELLERS MARKET CONTINUES; PRICES ADVANCE 1972/72 Double Die Lincolns Are Strong In Moderate To Heavy Trading

### The Market in Depth

ALLEN HARRIMAN

Type coins continue to set new price records. At last week's A.N.A. Convention, buyers and sellers alike "threw away the book" when negotiating for really gem specimens. Dealer to dealer transactions were at levels which only a week or two ago were considered to be full "retail"---and demand for choice type material shows no signs of leveling off. "Superb" pieces, by the way, were generally tagged with prices which were double or even triple the 1973 Guidebook listing---and sales were fast and furious!

The 1972/72 double die Lincoln has had a busy week. Actually, few if any coins in recent U.S. history have received the publicity of this major mint error. Television and radio news broadcasts have featured it "Time" magazine carried a photo and article on page eight of the 8/21 issue, and most major newspapers in the country have run lengthy articles about this "first mint error in 17 years". Most major dealers report excellent retail sales---with at least one dealer stating that he has sold over fifty singles everyday for a week or more. Teletype bids are currently around \$90---with numerous sales earlier in the week as high as \$105. Roll trading has been registered from \$4500 to at least one sale at \$5250! Not only the coin collecting fraternity is buying these coins---the "general public" is included---probably intrigued by such widespread publicity and "putting away a few for the grandchildren". The next several weeks should be interesting to watch.

Late date Lincoln bags---from 1958 all the way through 1970---are in sudden and strong demand (and they are wanted in quantity). The least desirable bags are from the years in which practically everyone was hoarding bags of nearly everything---beginning around 1960 and ending with a fizzle in 1964 or so. With roll prices then in the doldrums, how many people put away bags of 1965 or 1966 or 1967 cents (or, for that matter, the other denominations). Ten years from now it might be startling to see just how much these "common" rolls are bringing!

The 1968-S proof set with the "Philly" dime is now bid at \$1600. Educated guesses place the mintage figure for this first of the "S-less" sets at 30 to 35---a very sought after prize for the collector who has almost everything! The other two "S-less" sets, too, are enjoying strong demand---higher bids.

### This Week's Market

**CENTS:** Those active bidders are back on the circuits after last week's A.N.A.; prices are again on the move!

1934D - Bid now \$225; 1935S - Bid now \$62.50  
1936S thru 1939S - All are on the plus side  
1941S - Still advancing---and few available---bid this week at \$61  
1951P - Virtually none offered to bidders at \$32  
1960P (sm) - Bid now \$110; sales at that level

**NICKELS:** The 1943D roll leads activity in the Jefferson series (wanted in quantity---with transactions at \$91); a few other issues advance. Choice BU half dimes, by the way, are in considerable demand---with at least one buyer willing to pay \$100 for superb gem 1853-55 "with arrows" specimens.

1938S - Bid now \$130; 1942S - Bid now \$99  
1951S - A roll to keep an eye on; bid \$76

**DIMES:** Sudden strong demand for the tough Mercuries in the 1934-40 range sends prices skyward (the bid for single sets from 1934 thru 1945 is now \$121.50). Several of these issues are under-rated and have a long way to go. The Roosevelts, too, can boast of their share of gains.

1934P - Bid now \$350---which is up \$50!  
1935S - Bid at \$300; 1936S - Bid at \$250  
1937D & S - Both are in demand---with bids of \$195 and \$185 respectively  
1939S - A very scarce roll; bid now \$375

**QUARTERS:** Choice BU Seated Liberty quarters are seldom available on the tapes---and the few that are offered often carry price tags as high as double Redbook! Washington rolls register several price hikes in moderate bidding; the BU "short sets" are attractively priced at today's levels.

1937P - Quite an elusive roll; sales as high as \$157  
1941P - Bid now \$46; 1942P - Bid now \$32  
1943S - Bidders offer \$140 this week for choice rolls  
1945D - Bid now \$63; 1946D - Bid now \$58

**HALVES:** Seated Liberty halves in choice BU condition are as elusive as the quarters---the bids also advance but few sales have resulted. Both the W.L. and Franklin series are have been mildly active throughout the week.

1943D & S - In hand these two continue to forge ahead; both are now bid at \$200

1950D - Bid now \$280; 1951D - Bid now \$205  
1952S - Still a "toughie", bid reaches \$182.50  
1955P - Rather plentiful around the \$100 mark

**DOLLARS:** Moderately active this week---with the better dates heading "want lists" as usual.

1898P - Bid moves up to \$90  
1903P - Bid moves up to \$125  
1921D - Transactions noted as high as \$120  
1922D - Still eluding most buyers; bid now \$125

**PROOF SETS:** Prices are lightly mixed---with a bit more interest being shown for the sets in the 1955-64 group. The "no S" sets are wanted in quantity (the 1968 set with the "Philly" dime is bid at \$1600.) The 1970 mint set is stronger---with sales recorded at \$14.50.

**COMMEMORATIVES:** The gold comms show ten plus signs this week---with all issues wanted in quantity as long (as they are choice BU). The silver issues have also registered several advances in moderate trading.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

**INVESTORS NOTE:** the price in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

## ADVERTISING RATES:

## PRICES ADVANCE ACROSS ENTIRE MARKET

### Gold By Date, Proof Sets & Canadian Silver Dollars Join Active Trading

## The Market in Depth

ALLEN HARRIMAN

The entire market is on the move---virtually every area of the numismatic spectrum is "getting in on the act"! From Lincoln rolls thru proof sets---commems and gold thru Canadian dollars---bidders outnumber sellers and prices are advancing. This has been another busy week for hopeful buyers on the teletype circuits.

Yes, even the late date proof sets are enjoying a little of the action. Most bidders, of course, are bargain hunting---but, on the other hand, many transactions have been registered somewhere between bid and ask. Buyers want up to one hundred set lots and the current low prices obviously are intriguing numerous investors.

A relatively new area of bidder interest is gold by specific date. Although a few dealers and collectors, of course, have always worked with gold coins by date the recent buying interest has expanded considerably. Buying lists are extensive for ten dollar Indians and the St. Gaudens double eagles---as well as the \$2½ and \$5 Indians. Even though these series include some "toughies", they are rather shortlived and present an easier task for completion than do the earlier Liberty issues. By the way, the BU "type two" one dollar gold is now receiving bids on the tapes of \$1000---and reports indicate that sales of the few gems available at the recent A.N.A. convention were as high as \$1500!

The 1972/72 double die Lincoln has been involved in a bit of profit taking. Buyer interest is still strong but many dealers are just quietly picking off the bargains. The price is now around \$4100 per roll---with singles trading in the \$80-\$85 range.

An interesting note---Canadian silver dollars from 1935 thru 1958 are now appearing on many "want lists"---in both BU and circ condition. Buyers are not finding it easy to locate the quantities they need.

## This Week's Market

**CENTS:** Choice BU "commemorative" copper-nickel cents (1862 & 1863) are bid now at \$27---and common date Indians are wanted in quantity at \$9.50 per. Numerous Lincoln rolls register additional gains in moderate trading.

**NICKELS:** Price advances are thoroughly scattered across the Jefferson series---led this week by much increased interest in the Wartime issues (the BU roll set is now bid at \$675). Bidders are also in the market for several Buffalo rolls.

1935P - Bid now \$120; 1936P - Bid now \$117.50

1936S - Choice rolls are wanted at \$127.50

1942P (t2) - Bid now \$175; 1942S - Bid now \$105

1943P & S - Both register sales as high as \$38.50

1943D - Still on the move; bid this week is \$94

1944P - Sales at \$47; 1945D - Sales at \$35

1949S - Bid moves up to \$44

1951S - Transactions noted at a higher \$79

**DIMES:** Mercury rolls dominate bidding in this area of the market; virtually every date from 1934 thru 1945 is wanted---by the roll (or single pieces of the earlier dates). The Rooseveltts have been mildly active---with single BU sets trading as high as \$40.

1934P - Now bid at \$375---none offered

1935S - Bid at \$325; 1936S - Bid at \$275

1937D & S - Both rolls are bid this week at \$200

1939S - Up another \$25; bids of \$400 are ignored

Common date Mercury rolls are recorded in the \$35-\$37.50 range this week

1949P - Bid reaches \$200; 1949D - Sales at \$100

**QUARTERS:** The earlier Washingtons---particularly the Philly issues---are in strong demand. These pre-1941 rolls are not easy to locate in any quantity at today's prices. Circulated Barber quarter rolls are in demand---with several buyers wanting relatively large quantities.

1935P - Bid now \$190; 1936P - Bid now \$200

1937P - The "hot" one---bid reaches the \$250 mark

1939D - More scarce than the price would indicate; bid now \$200

1969D - This late issue is very hard to find (one dealer will pay \$17 per for five rolls!)

**HALVES:** Bids of \$3000 fail to produce even one "short roll set" of W.L. halves (1941-47); several of the individual rolls record further advances; the Franklin rolls are rather lightly traded. Circulated Barber halves are wanted in quantity at \$44 for full rim G/VG rolls.

1940S - Bid at \$170; choice rolls are difficult to find

1943D & S - Both are bid this week at \$210

1946S - Bid now \$120; 1947P - Sales at \$215

1952S - Quite elusive---with one roll traded at \$192.50

1970D - Now in the \$275-\$290 range

**DOLLARS:** Prices are basically unchanged---but most "want lists" remain unfilled. BU bags are offered at the following prices (all express collect):

BU Morgans - \$3200

BU 1921 Morgans - \$3025

BU Peace - \$2925

**PROOF SETS:** Bidding has picked up for the 1954-64 issues; numerous transactions have been noted---all within the current "bid-ask" ranges. The "no-S" sets are still forging ahead---very few are offered for sale. The 1970 Mint set is now bid as high as \$15 (with sales at that level).

**COMMEMORATIVES:** The 144 piece silver commem set is bid around \$6250; the higher priced singles are in demand---with the tough Missouri 2x4 traded during the week at \$220 and the Grant "with star" bid at \$150 (one dealer will pay \$165 for "superb" specimens).

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

**INVESTORS NOTE:** the price in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

**ADVERTISING RATES:**

\$4.50 per column inch  
4 consecutive ads (no changes)  
10% discount.

**DEADLINE:** Wednesday noon  
before publication.

## BIDDING ACTIVE FOR BU DIME ROLLS

### Buyers Still Outnumber Sellers As Prices Move Ahead

### The Market in Depth

ALLEN HARRIMAN

Without so much as a noticeable dip in price, silver commems are on the move again! The profit taking which followed last spring's upward surge failed to make much of a dent in prices---scattered "bargains" disappeared quickly---and now bidders are again running extensive buying lists. The scarcer dates are in particular demand---with such pieces as the Grant "with star", the two Missouri issues, Alabama 2x2, etc. heading "want lists". The 144 piece complete set is seldom offered---and the rare set listed for sale now carries a price tag in the \$6500 range.

Dimes have cornered most of the BU roll action this week. Not only have the Mercuries continued their upswing (the roll set from 1934 thru 1945 is now bid at \$6000)---but the Roosevelts have joined the activity in a big way. At least one dealer is in the market for several rolls of each date from 1946 thru 1954. In spite of higher bids, sales were only light to moderate---with several of the dates in this group not being offered at all. BU single sets at \$40 are beginning to look good to investors; most asking prices now top this mark.

Although the bids for choice BU and proof type material have remained relatively unchanged for the past several weeks, demand has by no means lessened. The fact is that dealers were finding that higher bids each week still resulted in very few transactions. In fact, it appeared that potential sellers were simply waiting to see how much higher prices might go---and most dealers preferred to sell their choice type coins to over-the-counter retail customers anyway. Gem early coins, by the way, are still setting records in major auction sales---with demand as strong (or stronger) than ever.

The 1972/72 double die Lincoln cent is quite firm---bids are usually around \$80 and most dealers want \$85. Rolls are correspondingly tagged---with those few that are available still priced around \$4100-\$4200. Sales have been light to moderate and it appears that most dealers and investors are waiting to see which way prices are going to move.

### This Week's Market

**CENTS:** Light to moderate sales; prices are lightly mixed this week. Several of the tough rolls in the early 30's are currently on the market---1932-P & D---with some dealer/investor interest being shown.

1935S - Bid now \$63; 1936S - Bid now \$29.50

1939D - Transactions noted around \$87.50

1942S - Really choice rolls are hard to locate at \$125 bid

1960P (sm) - Further sales as high as \$120

**NICKELS:** A few Jefferson rolls remain on "want lists"---with BU single sets in demand at a higher \$74.

1938D (B) - Bid up \$5; now wanted at \$115

1942P (t2) - Sales during the week at \$180

1943S, 44P & 45S - All edge slightly higher

1950D - Increased interest---with transactions at a higher \$285

**DIMES:** Mercury rolls continue their strong advance---and a rash of plus signs covers almost all of the pre-1955 Roosevelt issues!

1934P - Up another \$20; bid reaches \$395

1935P, 36P & 37P - All move higher; few are available

1937D - Perhaps the most overlooked issue in the late 30's bid now \$215

1938S - Bid also moves up to \$215

Roosevelt rolls---1946-54---check page three!

**QUARTERS:** The "no drapery" quarter (1838-40) is impossible to locate in strictly choice BU condition at this week's higher bid of \$300; choice BU Barber quarters are now bid at the record price of \$60. Early Washington rolls are still on buying lists---with the 1941-D issue particularly elusive at \$210 bid.

**HALVES:** Choice proof W.L. halves are bid now at \$55---and offerings are few and far between. Interest in W.L. rolls also continues and, as usual, not many rolls are listed for sale. The Franklins are lightly traded---mostly at current levels.

1941S - Very seldom available to bidders at \$460

1943D & S - Both have registered at a considerably higher \$225

1950D - In a slightly lower \$275-\$290 range

1970D - Further sales during the week around \$280

**DOLLARS:** Prices are mostly unchanged; bidding for the better dates---especially in gem condition---is as active as ever.

1898O - Increased buyer interest; sales at \$70

1899P - Bid now \$410; 1899S - Bid now \$1015

**PROOF SETS:** The lower priced sets (1957-64) are now frequently traded---with several small gains recorded. The "no-S" sets of 1970 and 1971 have

jumped another \$40 each---and the 1968 set with the "philly" dime is bid at a healthy \$1900! 1970 mint sets are also in demand---now in the \$15.50-\$16.50 area.

**COMMEMORATIVES:** Quite a number of advances have been recorded this week---most of them for the more expensive singles and the low mint-age PDS sets.

Alabama 2x2 - Bid moves up to \$130

1935/34 Boone PDS set - Bid reaches the \$250 mark

Grant (with star) - Up another \$10; bid now \$160

Missouri issues: plain type bid \$185; 2x4 bid \$212.50

Panama-Pacific - Bid now at \$110

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## "TYPE" SCORES ANOTHER ROUND OF GAINS Silver & Gold Commems And BU Rolls Join Active Market

### The Market in Depth

ALLEN HARRIMAN

Another strong round of gains has shown up on the type coin charts. apparently a number of dealers have tired of trying to pick up choice pieces at the price levels established within the past few months--new, higher bids have been appearing on a daily basis throughout the week! As was mentioned in last week's column, higher bid levels bring relatively few gem coins into the teletype marketplace--and this latest surge in bidding has been no exception. A few of the more plentiful Seated Liberty issues have been offered (many are still optimistically graded)--but such "toughies" as MS-70 half-cents, large cents and two-cent pieces, type two three-cents silver, Bust material, etc. are as difficult to locate as ever!

Last week's gains in the commem segment of the market have already been overshadowed by even more extensive advances this week. The low mintage PDS sets and single issues continue to dominate the bidding--with several buyers in the market for "up to ten" sets or singles. A few BU rolls of the more plentiful commems have appeared on the tapes this week--Cleveland, Roanoke, the BTW and WC issues, etc--but all are priced at least at "ask"--usually higher.

This week's bids for the eleven gold commems total exactly \$2600--and dealers are willing to throw in an extra \$50 or so to pry loose a few "gem" sets. Many of the sets which are available contain at least a couple of "problem" coins; the one set which was described as "choice" carried a price tag of \$2800! Indications are that even higher bids can be expected for both the silver and gold commemoratives before the current strong demand is satisfied.

The 1972/72 double die Lincoln cent is stronger this week. More bidders--and fewer sellers--are on the circuits; prices are now \$90 or better--with the occasional roll listed at \$4350 or so. Numerous sales were noted early in the week around \$85--and transactions were mostly around \$87.50-\$90 as the week progressed.

### This Week's Market

**CENTS:** Active bidding resumes--and prices again advance for numerous issues. BU (MS-70) half cents and large cents are now bid at \$95 and \$120 respectively--and choice BU Flying Eagle cents are now recorded in the \$125-\$140 range.

1936S - Bid now \$30; 1937S - Bid now \$25  
1939S - Scattered sales at the higher bid of \$26  
1947S - Bid now \$19.50; 1948S - Bid now \$17.50  
1951P - Setting records with bids of \$33!

**NICKELS:** Buffalo rolls are strong--with several gains noted (the Buffalo proof--1936-37--is now bid at \$125); Jefferson rolls enjoy moderate bidding and several advances.

1936D & 1937D - Both are now bid at \$120  
1938D (J) - Bid now \$120; 1938S - Bid now \$132.50  
1939S - Choice rolls are now in demand at \$275  
1943D - Another sharp jump; bid reaches \$110  
1946S - Bid now \$22; 1948S - Bid now \$30  
1950P - Often quite elusive; sales this week at \$45  
1951S - Bid moves up to \$82; few offered

**DIMES:** The earlier Mercury rolls have leveled off--at least for the moment; strong bidding, however, continues for BU dime rolls from 1941 thru 1952 or so. Choice BU Seated Liberty dimes move ahead again--see page five.

1941S, 43D & 43S - All are now bid at \$40  
1945S - Still on the move; bid this week at \$42.50  
1946D - Sales at \$23; 1948D - Sales at \$33  
1949PDS - All three are scarce--all three advance  
1950S - Up \$10 this week; bid now \$235  
1952S - Transactions registered around \$60

**QUARTERS:** "Type" quarters are strong at higher bid levels--virtually none are offered:

Bust (large size) - Bid now \$650  
Bust (reduced size) - Bid now \$575  
Seated Liberty (no motto) - Buyers offer to pay \$105 for choice pieces  
Seated Liberty (with motto) - \$95 is now the bid  
Barbers - Bid \$61; Standing Liberty (type one) - Bid now \$55

**HALVES:** The 1943-D & S Walking Liberty rolls continue to lead the pack--both are bid this week at \$235; the Franklins are lightly bid--with an occasional gain noted. "Type" halves surge ahead--check page five!

1948D - Sales at \$74; 1951P - Sales at \$135  
1951S - Bid moves up to \$125  
1970D - Now in the \$280-\$295 range

**DOLLARS:** The scarce key singles are on the minds (and buying lists) of

many dealers--very few really choice specimens are listed for sale. The common date rolls are firm at current levels.

**PROOF SETS:** Moderate interest continues for the sets in the '56-'64 group--mostly at last week's levels. The 1970 mint set is still quite active in the \$15.50-\$16.50 range--and the "no-S" sets are now bid as follows:

1968--\$1900; 1970--\$450; 1972--\$485

**COMMEMORATIVES:** Very active! More gains this week than last--with the tough, more expensive issues still heading "want lists".

1939PDS Arkansas set - Bid now \$250

1936PDS Columbia set - Bid now \$180

Grant (with star) - A new record; bid this week at \$175

Hawaiian - Now in the \$480-\$510 area

Missouri (plain) - Bid \$190; Missouri (2x4) - Bid \$220

Gold commems - New higher bids! (see page two)

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## COMMEMS & TYPE SOAR EVEN HIGHER Anxious Buyers Raise Bids Substantially—But Few Sales Result

### The Market in Depth

ALLEN HARRIMAN

Gold commems are reaching for the \$3000 mark! The eleven piece set is now strongly bid at \$2700 (up \$100 from last week)—and the few sellers of sets described as choice are now pricing their sets at \$2850-\$2900. Anxious dealers have been raising their bids each day in the hopes of picking up even a few choice singles—but still sales have been few and far between. Silver commems, by the way, are right on the heels of their little gold brothers! "Want lists" seem to get longer each week—price tags on the available pieces manage to keep ahead of the advancing bid level. Nearly all of the recorded sales have been at prices well over "bid" as most dealers are not in the mood for counter-offers.

Believe it or not, the "type coin" chart on page five reflects even more extensive price hikes this week than last! Bids are moving up from \$5 to \$25 at a time—and still most buying lists remain unfilled. The fact is that dealer supplies of choice to gem type material are exhausted. It isn't a matter of potential sellers waiting for better prices—they simply don't have the coins. True, most dealers continually attempt to keep a stock of "type" for their retail customers. But aside from the rare collection they manage to locate, dealers also have to buy at conventions and auctions—and prices on these occasions are considerably higher than teletype bids since the dealer is buying in competition with the collector. Any choice coins, then, that the may take back to his shop cannot be sold to teletype bidders—even though the tape bids advance to record levels each week. And so another round of gains for the extremely elusive gem type coin!

Prices realized at a major auction just last week were astounding. A complete run of rare early proof sets—1858 thru 1915—brought anywhere from 25% to 50% over current Guidebook valuations. Even the later sets which contain basically "common date" proof type coins were bringing nearly double the teletype "bid" for the individual coins! From large cents to silver dollars new price records were being set; Bust halves were particularly strong—with superb specimens of "common dates" bringing prices in the \$300-\$500 range! A gem set of Standing Liberty quarters—mostly "full head" specimens—brought what certainly must be record setting prices for most dates. One would, of course, expect the rare dates to bring high prices—but even the most plentiful issues were reaching for the sky. For instance, the choice "full head" 1925-P sold for \$120, the 27-P for \$105 and the 28-P for \$90. The 1928-S brought \$110, the 29-S sold for \$100 and the 30-S for a whopping \$135! A 1927-S, by the way, with an "almost full head" brought \$900! More about this and other auction events as space permits.

### This Week's Market

**CENTS:** Scattered gains—mostly among the earlier rolls; sales have been light. The 1972/72 double die is steady around \$85 bid—with dealers offering to pay \$4150 for a roll. "Type" is still on the move:

- BU (MS-70) half cents - Bid now \$110
- BU (MS-70) large cents - Bid now \$125
- Choice BU Flying Eagles are tough at \$130 bid
- BU (MS-70) two-cent pieces - Bid now \$45

**NICKELS:** The BU roll set of Wartime nickels is now bid at \$720 (bid for the eleven individual rolls totals \$748) and the complete BU roll set from 1938 to date is bid at \$3000. Half dimes are advancing nicely—as the following prices will prove:

- Bust half dimes - Bid reaches \$120
- S.L. half dimes (no drapery) - \$70 is now offered
- S.L. half dimes (arrows) - Choice pieces are wanted at \$110

**DIMES:** Dealers will take BU singles of the earlier Mercuries (1934-39) at pro-rated bid-ask prices—since full rolls are so difficult to locate. Numerous gains are again spread across the pre-1955 Roosevelt issues.

- 1934P - Bid now at \$400; no rolls available
- 1937D - Bid at \$225; 1938S - Bid at \$230
- 1949P - Extremely elusive at the moment; bid now \$220
- 1950S - Bid at \$240; 1951S - Bid at \$190

**QUARTERS:** In the face of an active roll market, the Washingtons are actually rather quiet (with a occasional buyer interested in a particular date or two). "Type", on the other hand, continues to soar—see page five.

**HALVES:** Several higher bid prices have been registered by the scarce mint-marked Walking Liberty rolls (the 1943-D & S are both bid this week at \$250); Franklins are lightly traded. "Type" halves advance to the following levels:

- Bust halves - Bid reaches the \$125 mark
- Bust halves (reeded edge) - Bid now at \$240
- S.L. halves (no motto) - Bid now at \$145
- S.L. halves (arrows & rays) - Choice pieces are in demand at \$625; none are offered for sale
- S.L. halves (motto) - Bid now at \$135
- Barber halves - A record high of \$175 bid

**DOLLARS:** Activity this week has been limited to the usual bid for choice specimens of the scarce dates; common date BU rolls are easily located within current price ranges.

**PROOF SETS:** The anticipated rally failed to get off the ground—most of the later issues are now being offered by the hundred set lot at lower prices. The 1970 mint set, by the way, is bucking this trend and is very strong at \$15.65 bid (ask is often around \$17-\$17.50).

**COMMEMORATIVES:** All eleven gold commems record substantial gains—with very few really choice pieces available to bidders. Prices are also definitely on the move for the silver issues.

- Alabama 2x2 - Sales as high as \$140
- Columbia PDS set - Bid this week at \$190
- Grant (with star) - Setting even higher records; bid now \$180
- Lynchburg - Bid now \$54; Norfolk - Sales at \$66
- Panama - Pacific - Up \$5—with bids at \$115

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## HEAVY BIDDING PUSHES PRICES HIGHER Gold & Silver Commems Continue To Set Record Prices ; "Type" Is Very Strong

### The Market in Depth

ALLEN HARRIMAN

Bidding has been fast and furious all week--and "want lists" continue to be topped by gold and silver commems and choice type material. Needless to say, the quantity of material traded has failed to make much of a dent in the continually expanding demand.

Gold and silver commems seem to be struggling with each other for top billing as the "most wanted" coins! Ten of the eleven gold issues again have registered strong gains--the bid for the complete set is up an additional \$100 at around \$2800 (ask is now \$2950-\$3000). Many of the price hikes, in the silver series, however, have been just as impressive! The low mintage issues and sets are in great demand and bid prices are breaking many of the previous "highs". No complete "type sets" or complete sets of silver commems have been offered for sale in recent weeks--but the 144 piece set is certainly nearing the \$7000 bid level!

The earlier Mercury rolls--1934-1940--have enjoyed another round of plus signs this week. Gains have been as much as \$25 to \$50 per roll--with record setting bids also being monitored on an almost daily basis. The "short set" of singles from 1934 thru 1945 is now regularly bid at \$125 and not even a single set has been offered for sale. Some buyer luck in picking up "pro-rated" singles has been noted--but full rolls are, as yet, few and far between.

Where present demand for choice type coins will stop--or if it will stop--is anybody's guess. Current bids are bringing some really gem material "out of the woodwork"--but nearly all of it is appearing on bourse tables at the various major coin shows. And all of it carries price tags which make today's soaring teletype bid prices look like child's play! Meanwhile, teletype bidders are still going unsuccessfully about the business of raising bids in further attempts to pick up a few gems for their own counters and bourse tables! A quick look at page five will show such new record bids of \$200 for "type two" three-cent silver pieces, \$125 for the "with arrows" half dime, \$175 for the "with arrows" half dollar--and so on. To give an idea of how these coins are now priced at shows, a really choice "type two" three-cent silver piece sold easily at \$275 and Barber halves were "wholesaling" at \$200-\$210 within the past week!

Apparently there is a new 1972-D "atheist cent"--with most of "In God We Trust" missing. Bid currently is \$25 per coin; a few are for sale at around \$32.50.

### This Week's Market

**CENTS:** The 1972/72 double die Lincoln is unchanged at \$85 bid; numerous BU rolls register advances in light trading. Common date Indians in choice BU condition are nearly impossible to locate at \$10 bid.

1938D - Transactions registered around \$44

1944S & 1945S - Both are bid this week at \$7

1948S - Bid now \$18.50; 1950S - Bid now \$15

**NICKELS:** Seated Liberty half dimes "with arrows" (1853-55) are bid at a record \$125!--with virtually none offered for sale. Plus signs are liberally scattered across the Jefferson series.

1938 (J) - Bid at \$122.50; 1938S - Bid at \$135

1939S - Sales noted as high as \$295

1947D - Bid at \$21; 1947S - Bid at \$19

1955P - A substantial jump--with bids recorded at \$37.50

**DIMES:** Buyers of choice BU Bust dimes are having a tough time--\$400 and \$300 are offered respectively for the "large" and "reduced" size issues! Also still on the move are the "with arrows" version (bid \$145) and Barbers (bid \$28). The earlier Mercuries and Roosevelts also record many gains.

1934P - Up another \$25; bid now \$425

1935S - Bid now \$350; 1936S - Bid now \$300

1937D & S - Both are now wanted at \$250

1939S - No rolls are available at the higher bid of \$425

1946PDS - All three edge higher again this week

1949P - Still on "want lists"; now at \$225

**QUARTERS:** The Washington rolls reflect only minor changes. "Type" quarters register the following changes:

Seated Liberty (with arrows) - Now in the \$175-\$190 range

Standing Liberty (type one) - "Full head" specimens trade as high as \$65; type two's are bid at \$40 in "full head" condition

**HALVES:** Walking Liberty rolls are on the march again--still lead by the "hot" 1943-D & S rolls (both are bid now at \$265); the Franklins record a few lower prices. Choice BU Barber halves trade during the week around \$180.

1939D - Bid now at \$200 for choice rolls

1941S - Bid at \$465; 1942D - Bid at \$220

Common date "P-mint" W.L. rolls are bid this week at \$92.50

1949S - Available now at \$325

1951D - Increased interest at \$207.50 bid

**DOLLARS:** Numerous small gains have been recorded by the common date Morgan rolls--and the tough singles in the 1893-97 group have enjoyed even more demand (see page six for the price changes).

**PROOF SETS:** Nearly unchanged--and still available in quantity; some bargain hunting is in evidence--but for the most part proof sets are not on the minds of dealers at the present time. The 1970 mint set is a little lower--priced for sale around \$15.50.

**COMMEMORATIVES:** Together with choice BU type coins, the silver and gold commems are the most active area of the market.

Alabama - Now in the \$85-\$90 range

Alabama 2 x 2 - Sales as high as \$145

Columbia PDS set - Up another \$10--at \$200 bid

Hudson - Bid now \$225; Lynchburg - Bid now \$58

Missouri issues: plain version bid at \$210--2 x 4 at \$235

Panama-Pacific - Bid reaches a record \$125

Spanish Trail - Bid now \$225; Ft. Vancouver - Bid now \$93

See page two for the new gold commem prices!

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## "TYPE" SOARS TO EVEN GREATER HEIGHTS! Heavy Dealer Demand For Choice BU Type Coins Sets Many All-Time Price Records

### The Market in Depth

ALLEN HARRIMAN

This week's advances in the prices of choice type coins are nothing short of phenomenal. Of the fifty-eight different BU type issues listed on page five, fifty-one are sporting new plus signs!—and sixteen of the twenty-four proof issues have joined in with gains of their own. Price hikes range from a few dollars for the more "plentiful" issues such as some of the Seated Liberty and Barber coinage—to as much as \$150-\$200 for the really scarce early Bust coins and the "arrows & rays" half of 1853. Dealers scramble over each other to run their "latest, new higher buying prices"—each topping the previous day's highs—yet actual transactions still remain extremely limited.

And on top of this week's gains, numerous dealers are willing to pay even substantially higher prices for "superb, gem specimens" of the more elusive "types". A flawless gem BU Seated Liberty dollar which is free of bag marks, for instance, can command a price in excess of \$350—or a prooflike, gem Bust quarter might bring as much as \$1500-\$2000 in a dealer-to-dealer transaction! Building a gem "type set" is fast becoming quite an undertaking—and it is obvious that many serious collectors are in a hurry to pick up a few additions to their collections before prices soar even higher. Finding really choice specimens of many issues, however, is more difficult at today's prices than it was a year ago at one-half or one-third the cost!

The only area of the market which isn't taking a back-seat to "type" is silver and gold commems. Strong advances again pepper the chart—with the low mintage issues again taking precedence on "want lists". Here, too, dealers are now stating that they will pay "considerably over bid" for flawless pieces—but there simply aren't enough coins which fit these exacting requirements available on the teletype circuits or on the bourse tables at conventions.

BU roll prices are steady even though most buyer interest is centered elsewhere. Most bidders find that they have to pay "ask" to fill their needs. Proof sets—the later issues—on the otherhand, are available at "bid" (or a little below if bought in quantity). There are still those dealers and investors who are looking forward to the day when proof sets are again the "hot" item—and they are socking away choice sets while the pickings are so plentiful. It doesn't take a particularly long memory to recall the days when proof set bidding was nearly as frantic as the activity currently being registered by type coins. Just when proof sets will again be on the minds of the majority of buyers is, of course, anybody's guess—but there will be at least a few investors who are prepared!

### This Week's Market

**CENTS:** Strictly BU (MS-70) half cents and large cents are each bid now at \$130; choice Flying Eagles trade as high as \$165! Lincoln rolls are lightly traded within current price ranges; the 1972/72 double die Lincoln registers additional sales in the \$85 area.

**NICKELS:** Both the Buffalo and Jefferson series are nearly unchanged; bidding is on the slow side. Shield and Liberty nickels—and all the half dimes—set new price records (with very few pieces listed for sale).

Buffalo nickel proofs (1936-37) - Dealers offer \$120—but find few choice pieces

Bust half dimes - Sales as high as \$140

S.L. half dimes (no stars) - Bid reaches \$240

S.L. half dimes (no drapery) - Choice specimens are wanted at \$75

S.L. half dimes (arrows) - Bid reaches \$130

**DIMES:** Roosevelt sets trade around \$43.50; several BU rolls are enjoying continued demand. Type dimes—Bust thru Barber—register further substantial advances (check page five for the impressive changes).

1947P - Bid now \$21; 1947D - Bid now \$39

1948P - Transactions recorded around \$45

1949P - Still on "want lists"; this week at \$235

1950P - Bid now \$58; 1950D - Bid now \$72

**QUARTERS:** BU rolls are virtually unchanged from last week's levels. "Type" issues are advancing rapidly—some of the changes are:

Bust quarters (large size) - None offered to bidders at \$850

Bust quarters (reduced size) - Bid is now \$600

S.L. quarters (no drapery) - Impossible to locate at \$350 bid; very scarce in gem condition

S.L. quarters (arrows & rays) - One or two transactions—around \$425

S.L. quarters (arrows) - Bid is now \$185

Barber quarters - Wanted in quantity as high as \$67

**HALVES:** Common date "P-mint" W.L. rolls are bid now at \$95—the 42-D & S and especially the 43-D & S rolls surge ahead; Franklins are rather quiet. "Type" is hot—and price advances are quite substantial (the 1853 "arrows & rays" issue, for instance, has moved ahead \$175 this week!).

**DOLLARS:** A moderate number of gains is scattered across the Morgan series. Superb specimens of the scarce to rare mintmarked issues are on the "want lists" of many dealers—sales are still few and far between.

1894S & 1899S - Both are in demand in quantity at \$60 per choice single

1901P - Very tough to locate; choice pieces are bid now at \$115

**PROOF SETS:** Dealers offer one hundred set lots of the lower priced issues at "bargain prices"; buyer interest is mild at best. The 1970 mint set is again bid at \$15—with most of those offered priced around \$16.

**COMMEMORATIVES:** Bid prices are topped each day by new buying lists; sales are light in spite of extremely heavy demand.

Lafayette dollar - Choice pieces trade at \$250

Alabama (plain) - Bid at \$95; (2x2) - Bid at \$145

Cincinnati PDS set - Transactions at \$335

Grant (with star) - Bid reaches \$200; few offered

Hawaii - Now in the \$490-\$520 range

Panama-Pacific - Up \$10; bid this week at \$135

Spanish Trail - Sales recorded at \$237.50

Vermont - Bid moves up to \$51

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

**INVESTORS NOTE:** the price in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

**ADVERTISING RATES:**  
\$4.50 per column inch  
4 consecutive ads (no changes)  
10% discount.  
**DEADLINE:** Wednesday noon  
before publication.

## GOLD COMMEMS SET PRICE RECORDS BU Cent & Nickel Rolls Join Buying Lists ; "Type" Still Very Strong

### The Market in Depth

ALLEN HARRIMAN

Bidding in the BU roll segment of the market picked up considerably this week--especially for cent and nickel rolls. Higher bids resulted in a moderate amount of sales--but the demand for a number of earlier rolls (especially Buffalos) continued unsatisfied. Actually, it will take somewhat higher bids to locate many really choice Buffalo rolls dated before 1937--as well as some of the tougher Lincolns and Jeffersons. These rolls were not saved in quantity--and many of those which were held back have been broken up for single sales. This is particularly true for the 1934 and 1935 rolls.

Commem gold continues to skyrocket! Buyers continue to ask for all eleven pieces in quantity--up to ten pieces of each issue--but sales usually consist of only one or two specimens at a time. Record prices--at least in recent years--are now being paid for the few really gem pieces which are traded. The ask for the scarce 1904 Lewis & Clark issue is fast approaching the \$600 mark and the Pan-Pac \$2½ is already well over \$500! One dealer predicts a price of \$3500 for the complete set before any "cooling off period" might begin--and this is certainly a distinct possibility.

In spite of the activity in commems and rolls, however, type coins continue to lead the market. Again advances are scattered across the charts--and again sales have been quite limited due to lack of availability. It should be added--and this is important--that a number of dealers are willing to pay over "ask" (and often, considerably over) for really superb specimens of many "types". Our charts on page five reflect the prices for "choice BU" coins--and it should be remembered that exceptional coins will fetch exceptional prices!

As an example, one dealer is currently willing to part with \$275 for every gem, fully struck "type two" three-cent silver piece he can locate (this is \$50 over the bid for coins which only fits the description of "choice BU"). Needless to say, finding one or two superb gems a week is a tough job. Another example is the "no drapery" half dollar of 1839. In choice BU condition this is a very scarce coin--in superb, gem BU condition it is very rare. One bidder currently will pay \$300 over bid for a gem, flawless specimen (that \$1000)!--but so far none have been offered. It might be added that nearly a year ago at a major convention, a "no drapery" half that fully fit the description as a "flawless gem" changed hands--from dealer to dealer--at \$1500! More on this subject next week.

### This Week's Market

**CENTS:** Bidding resumes--and prices advance--for several rolls in the Lincoln series. "Type" issues are, as usual, enjoying strong demand (but few transactions).

1935S - Now in the \$68-\$71.50 range; quite scarce

1936D - Bid now \$21; 1938D - Bid now \$45

1946S thru 1949S - All are on buying lists at higher prices

**NICKELS:** Some interest is noted for choice BU Buffalo rolls (the 36-S & 37-S move higher); numerous gains are scattered across the Jefferson series more buyers enter the bidding arena.

1938D (J) - Transactions as high as \$132.50

1938S - Also higher--with sales registered at \$150

1943D - Back up this week; bid at \$116

1946P thru 1949P - All record sales at slightly higher levels

1951S - Bid at \$85; choice rolls are tough

1955P - Choice, well-struck rolls traded this week at \$42.50

**DIMES:** Mercury rolls are quiet; the Roosevelts reflect a few gains. Choice BU Bust dimes are still very few and far between--even at this week's higher bids of \$550 for the large size and \$375 for the reduced size.

1949S - Bid now \$425--and not easily located

1951S - A few sales noted as high as \$210

1955P - This one is lower--with rolls traded in the \$28 area

**QUARTERS:** Choice BU Barber quarters have traded during the week for as much as \$72.50--and choice proofs at \$115. All other "type", of course, is constantly on "want lists". The Washington rolls show only minor changes.

1944S - Slightly lower--with sales at \$100

1953S - Bid now \$42; 1954S - Bid now \$29

**HALVES:** The Walking Liberty rolls are quite strong--and the "short roll set" (1941-47) is bid now at a record \$3300 (single BU sets have traded at \$167.50); the Franklins are lightly traded at current levels. Choice BU Barber halves changed hands during the week as high as \$200--buyers at this level are very fussy.

1939P - Bid now \$185; 1942S - Bid now \$190

1943D & S - Profit taking noted in the \$305-\$320 range--a record for these dates

**DOLLARS:** The 1893-P, 1894-S and 1899-S Morgans are all in considerable demand--with each of the three rolls bid this week at a high of \$1300; numerous other scarce San Francisco issues also top buying lists with increased bids.

1879CC - Choice BU singles are now bid at \$215

1884S - Also wanted by the piece; bid now \$140

1901S - Bid now \$50; 1903S - Bid now \$425; 1904S - Bid now \$200

**PROOF SETS:** Virtually all the issues after 1954 have suffered further setbacks--with quantities of all later dates available. Bargain-hunters are frequently encountered--but most of the bids are quite low. The 1970 Mint set is steady at around \$15 bid.

**COMMEMORATIVES:** Again all eleven of the gold commems are on the plus side of the ledger (bid for the complete set is about \$2900--with the few available sets now priced as much as \$3150); several silver issues register additional gains.

1939PDS Arkansas set - Sales at \$270

Connecticut - Bid now \$71; New Rochelle - Bid now \$79

1904 Lewis & Clark - The "key" issue; sales at \$545

1915-S Pan-Pac \$2½ - A record price of \$520 was paid this week for a gem

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## RARE GOLD COINS IN DEMAND Quality Remains Uppermost In The Minds Of Most Buyers

### The Market in Depth

ALLEN HARRIMAN

Dealers continue to offer "gem prices" for gem singles--and this tendency toward wanting only the very finest material is now spilling over into the BU roll market--into the area of commems, gold coins and practically everything else! Words like "superb", "gem", "fully-struck", etc are constantly included on various buying lists--but, unfortunately, not very many of the available coins fit these exacting requirements. As was mentioned last week, several teletype bidders consistently offer to pay well over "ask" for spectacular specimens (and, practically all of their bids go unanswered).

This demand for "cherry" coins is nearly as strong in the silver dollar series as it is for "type". One dealer has just offered to pay \$1500 and \$4000 respectively for really "choice, well-struck original rolls of 1883-S and 1884-S Morgans." This is an unusual situation in that singles which fit this description will not be taken at the pro-rated roll bid price--only an original roll of each is wanted--and an exceptional roll, at that! Other scarce silver dollars (both Morgan and Peace) are receiving similar bids.

Gold coins by specific date are coming more and more into their own. The scarce and rare St. Gaudens twenties are of particular interest at the moment--and dealers are "throwing away the book" (the "Guidebook", that is) when bidding. For instance, choice BU 1931-D's are bid now at \$4500 (the current catalog price in unc is \$3500). The lower to medium priced dates--1909/08, 1912, 1913-S, 1924-D & S, etc.--are enjoying even more bidder interest. It might be added that the Indian series--from \$2½ thru \$10--are also getting in on the act and that most of the better date are bringing "well over catalog" in choice condition.

Choice BU high relief double eagles (1907) are strongly bid now in the \$1350-\$1400 range; proof original \$4 "stellas" are bid at \$8000--and one dealer is offering to pay \$70,000 for a set of the four \$4 gold pieces. Panama-Pacific gold commems are being actively sought at around \$11,500. Early type gold is also in demand--and it is apparent that even a few more really serious "type" collectors would quickly exhaust the available supply of choice specimens of many of the early gold type coins.

### This Week's Market

**CENTS:** Moderate bidding continues for BU rolls--and occasional advance is noted. In "type", choice BU 1859 Indians (one year of type) are bid now at \$110--with one or two specimens described as "superb" trading as high as \$135!

1935S - Still on the move; bid now \$72

1951P - The most elusive of the late dates--bids at \$35

1960P (sm) - Lower--in the \$105-\$110 range

**NICKELS:** A quick leveling off of prices after last week's rather active bidding--trading in BU rolls is light. Choice BU "no cents" Liberty nickels (another one year of type) trade during the week around \$10.

1938S - Back down to the \$140-\$150 range

1939S - Original, well-struck rolls are tough; bid now \$290

1943D - Again in the \$113-\$118 area

1951S - Up slightly--but still reasonable--at \$86 bid

**DIMES:** Interest in Mercury rolls is high--but most bidders still are hoping to pick up rolls at "bid" (several dealers want ten or twenty roll lots); the Roosevelts are unchanged except for the 49-P (down--at \$240 ask) and the 49-D (up--at \$110 bid). Choice BU "with arrows" dimes are very elusive--even at today's record bid of \$160!

**QUARTERS:** Buyers want the pre-1941 Washington rolls--most of which are seldom offered; the later rolls are quiet in very light trading. The extremely scarce (in strictly choice BU condition) "no drapery" quarter of 1838-40 is now bid at \$375--none have been offered.

1940S - Bid at \$150; still underpriced

1946D - On "want lists" at a higher \$60

1949D - Rather difficult to find at the current bid of \$85

**HALVES:** Although interest is lagging for the Franklins, BU Walking Liberty rolls are in strong demand. The "short roll set" (1941-47) is bid this week at \$3350--none, however, are available. Choice BU "reeded edge" Bust halves are now bid at a high \$275.

1941P - Not as plentiful as the price might indicate; bid now \$97.50

1941S - The BU roll is bid at \$500--choice, fully struck singles command a much higher price

1942S - Up \$20--at \$210 bid

1946S - Bid moves up to \$125

**DOLLARS:** Dealers continue to concentrate on the really scarce singles--asking, usually, for gem fully struck pieces. A number of scarce to rare mint-marked rolls are also on buying lists.

1883S - Bid moves up to \$1300

1884S - Choice BU singles are bid at \$150 each

1885S - Bid moves up to \$290

1903S - Dealers offer to pay \$450 for choice BU specimens

1924S - Bid now \$750; 1925S - Bid now \$375

1926S - Transactions registered around \$180

**PROOF SETS:** Prices once again drift a little lower--especially for the late "S-mint" sets. The 1970 mint set remains firm around \$15.

**COMMEMORATIVES:** All eleven of the gold commes advance again this week--and dealers will now pay a full \$3000 for complete sets in choice condition! The more expensive singles and PDS sets in the silver series also move ahead.

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below).

## CHOICE SINGLES CONTINUE TO LEAD MARKET The Government's "Great Silver Sale" Is About To Begin!

### The Market in Depth

ALLEN HARRIMAN

Well, the "Great Silver Sale" of Carson City dollars is about to begin! Advance order forms--officially available on October 31--are already all over the place. Only three dates are being offered for sale in this first of what apparently will be several separate "sales". The dates are 1882, 1883 and 1884. The government holds the following quantities of these (and we quote) "rare collector's items":

1882-CC 607,000 coins (607 bags)  
1883-CC 759,000 coins (759 bags)  
1884-CC 968,000 coins (968 bags)

Interestingly enough, the minimum acceptable bid is \$30 per coin (CDN bid is currently \$31 each)--but the bidder may bid more than \$30 to (and again we quote) "improve his chances" of receiving the coins. It is obvious from the wording on the form that the government would like to give the impression that there might not be "enough coins to go around" and that bidding above the minimum price is a good idea. If it turns out that there are enough to go around, the amount the bidder offers over \$30 will be refunded (more bookwork--more employees).

Other phrases on the order form indicate that the sale is oriented toward the non-collecting public (or at least, toward the non-informed). These coins are variously described as "true mementoes made of silver mined from the famous Comstock Lode", "genuine mementoes of our American heritage" available in this "unique opportunity" and "sound investments"! What constitutes a sound investment is open to interpretation--but 968 bags of 1884-CC dollars certainly doesn't constitute a rare coin. In fact, it means that this is perhaps the most common BU Morgan dollar. It is very doubtful that even the 1921-P exists in this quantity in BU condition.

One dealer recently reminisced on the teletype circuits about how a couple of bags of 1927-P dollars came onto the market a few years ago and depressed the price to it's present level of about \$18 (from \$40 or so). This five or six year depression is the result of two or three thousand coins becoming available (and most of these went into "strong hands"). What will 2,334 bags of three Carson City "rarities" do to the market? Of course, the government has placed a "bottom" on the price of all three--and at this price there could be enough to go around for ten or twenty years. Can the government reduce the price in a year or so to get rid of any surplus? How would the people who paid \$30 or more for their "sound investments" react?

All in all, it will be an interesting "Great Silver Sale". As one well-known economist recently wrote, "suppose the government gave a party and no one came". Buying one each of these issues can't be a really big mistake--just don't expect big profits (or indeed, any profit) from the investment in the foreseeable future). And don't forget, if you don't like the condition (bag marks, etc.) of the coin, your local dealer may give you \$20 for it.

### This Week's Market

**CENTS:** Half cents and large cents in really choice BU (MS-70) condition are in considerable demand--and dealers will pay well over "ask" for superb specimens. The 1859 Indian is up another notch--with the current price range of \$115-\$125 luring few choice BU into the marketplace. BU rolls are practically unchanged (except for the elusive 35-S roll--now bid at \$75).

**NICKELS:** Rolls are steady in both the Buffalo and Jefferson series; trading continues to be rather light. Choice BU half dimes--particularly the "no drapery" issues of 1838-40--are not available frequently enough to satisfy the current strong demand.

1938S - Slightly lower again this week; offered at \$142.50

1943D - Also lower--bid is now \$107

1949S - Sales at \$45; 1950P - Sales at \$44

**DIMES:** Single BU Roosevelt sets trade during the week around \$42.50; the rolls register only a few changes. Demand continues for the Merics at current levels--especially the more common dates which are wanted in quantity. "Type", of course, reflects further strong buyer interest--with several gains noted (check page five).

1949D - Up another \$5; bid this week is \$115

1950D - Offered in quantity (with few buyers); now in the \$66-\$69.50 range

1955D & S - Both are slightly lower--and both are easy to locate

**QUARTERS:** Choice BU Bust quarters are extremely difficult to locate--even at this week's new higher bid levels (and gems are virtually impossible to find at even more generous prices); Barber quarters in gem BU condition trade as high as \$85! The BU rolls remain relatively quiet--with the pre-1941 issues receiving most of the attention.

1940P - Bid at \$122.50; 1942P - Bid at \$35

1944S - Transactions around the \$100 mark

1955D - A bit more interest; bid is \$76

**HALVES:** Choice BU Barber halves receive bids now at a record \$200 (and superb "common dates" occasionally change hands for as much as \$250); price hikes are also indicated for the Bust and "no drapery" types. Walking Liberty rolls remain quite elusive; demand continues.

1941-S - Up another \$25; bid this week at \$525

**DOLLARS:** The medium priced Morgans top buying lists--and they are wanted by the single or by the roll. Very few specimens which fit the exacting requirements of bidders are offered for sale.

1883S, 93P, 94S & 99S - All four are bid at \$70 for choice singles

1884S - A new record; bids at \$160

1889CC - Bid \$975--ask if \$1050 (real gems will fetch \$1100!)

**PROOF SETS:** Still in the doldrums; "bargain hunters" continue to offer low (often very low) prices for fifty or one hundred set lots of the later issues (usually 1956 thru 1964). The '70 mint set is firm in the \$15 area.

**COMMEMORATIVES:** The same story as last week--gold commems are up again and the tough silver issues head "want lists".

1939PDS Arkansas - Bid moves up to \$280

1937PDS Boone - Bid moves up to \$150

Hawaiian - Choice pieces trade as high as \$550

Pan-Pac (half) - Sales at a substantially higher \$160

**U.S. GOLD:** (Better dates and gem specimens bring proportionately more than the prices listed below)

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it closed Friday afternoon. Under the present system, it is impossible to monitor all transactions or offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

**INVESTORS NOTE:** the price in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

**ADVERTISING RATES:**

\$4.50 per column inch  
4 consecutive ads (no changes)  
10% discount.

## "TYPE" & GOLD BY DATE LEAD MARKET Common Date Gold Coverage Now Includes "BU Gem" Specimens

### The Market in Depth

ALLEN HARRIMAN

Beginning with this first issue of November, the U.S. Gold chart on page one has been expanded to include a new section--"Gem BU" specimens will now be listed in an additional section of their own. Not only has trading remained very active for common date U.S. gold in both XF/AU and uncirculated conditions--but "type" collector interest in gem BU pieces has increased to a great extent within the past few months. Really superb gold coins--well struck pieces with the original mint bloom and no bag marks or abrasions--are actually quite few and far between. One of the toughest, as a matter of fact, is the common \$10 Liberty. Although uncirculated pieces regularly trade around \$48.50, truly gem specimens often fetch \$75 or more in retail transactions! And a dealer who owns an extraordinary example of a type two one dollar gold piece can almost "name his price"--unsuccesful bidders now offer \$1500 on a regularly basis! The CDN staff hopes that this latest addition to our extensive market coverage will be of benefit to dealers, collectors and investors alike.

While on the subject of gold coins--bidder demand has increased even more in the past few weeks for better dates. Hopeful buyers list virtually every date in the St. Gaudens series--earlier CC Liberty twenties--such tens as 1908-S, 1911-D & S, 1913-S, 1915-S plus the rare 1920-S, 1930-S and 1933. In the five Indian series, the 1908-S, 1909-O, 1911-D and 1929 often top "want lists"--and the 1911-D \$2½ Indian is always in demand. None of these coins is easily located--especially in choice condition--and this current collector interest will almost certainly result in many new price records being set.

Complete Panama-Pacific gold commem sets have traded during the past week around the \$12,500 figure--and bidding is strong at an only slightly lower level. Choice high relief twenties are bid now at \$1450--\$4 proof stellars and \$50 slugs in all conditions are in demand--and the "first year of issue" pieces are being sought by many "type" collectors.

All in all, it looks as if gold coins by date are going to continue to enjoy a healthy share of the market during the coming year--and that the true scarcity of many of these coins will finally be realized. It happened in the copper and silver "type coins market" and now gold is catching up!

### This Week's Market

**CENTS:** Bidding increases--and plus signs are numerous--especially for the earlier Lincoln rolls; sales have been moderate. Choice proof Indian cents look attractive in the current range of \$39-\$42.50; common date Indian rolls (good/better) trade at a higher \$16.

1934D - Another \$5 advance; bid now \$235

1935D & S, 1936D & S - All four move ahead

1938D - Transactions at the higher bid of \$50

1938S - Also up \$5--with bids noted at \$68

1942S - Sales during the week at \$135

**NICKELS:** Considerably more activity this week in the Jefferson series; several gains have been registered. The "no cents" nickel of 1883 is in demand (one bidder will pay \$500 for an original gem roll)--and the 1913-P (I) Buffalo is now appearing on many "want lists".

1935P - Far more scarce than the current bid of \$125 might indicate

1938D & S - These two Jefferson rolls edge lower

1942D - The roll is up \$10; gem singles trade at \$5 each

1946S - Bid now \$23; 1952D - Bid now \$39

**DIMES:** Both versions of the Bust dimes advance another notch (the reduced size is offered occasionally; the large size practically never). Gem BU early Mercury singles (1916-31) are also enjoying buyer attention--and the few choice pieces which are offered carry impressive price tags. A few minor changes are reflected in the roll charts (the 1949-D roll is up \$10 at \$125 bid).

**QUARTERS:** The "no drapery" quarter of 1838-40 is now receiving bids at \$425--and choice Barber quarters trade at a higher \$87.50. Better date singles in the Washington series are included on many buying lists--with the BU rolls trading lightly at mixed price levels.

1945P - Bid now \$30; 1945S - Bid now \$38.50

1946D - Often rather elusive--bid at \$61

1946S & 1948S - These two slip a little lower

1955D - Further trading around the \$76 mark

**HALVES:** Choice BU "short sets" of W.L. halves (1941-47) change hands as high as \$170!--with considerable interest noted; the Franklin rolls record a few small losses. Choice BU Barber halves trade at \$205--and the proofs at \$225.

1911S - Still advancing, bid this week is \$510

1943D & S - Both show a little profit taking; now in the \$300-\$315 range

1950D & 1953P - These two are available at slightly lower prices

**DOLLARS:** The "S mint" Peace dollars of 1921-26 are in demand at higher bid levels--choice original rolls are not easily located. In the Morgan series,

buyers still want gem specimens of those "hot" dates--83-S, 84-S, 92-CC, 93-P & CC, 94-S, 99-S, 01-P, etc.

1888O - Much interest; bid now \$75

1891P - Now registered in the \$190-\$200 range

1924S - Bid reaches \$800; 1925S - Also up--now \$400

1926S - Choice rolls are wanted at \$190

**PROOF SETS:** Prices are lightly mixed; the later "S-mint" issues are lower again--but buying lists lengthen to include the 1956-64 issues (some at prices which are a little higher). The 1970 mint set traded this week at \$15.75!

**COMMEMORATIVES:** Gold comms take a breather--although demand is strong at present prices. In the silver series, the Oregon series is topping the action with eight plus signs.

1939PDS Arkansas - Up again; bid now \$285

Missouri 2x4 - Bid at \$265--few are available

Lewis & Clark gold issues--Both move ahead

## SINGLES

## MARKET CLOSING PRICES (Retail)

The prices for single coins listed below reflect current retail levels. It should be noted that listings for "BU" coins are for well struck gem specimens. Uncirculated coins of lesser quality command proportionately lower prices.

## MARKET STRONG IN EVERY AREA

Rolls & Proof Sets Begin To Stir; Type, Commems & Better Date Gold Are Very Strong

### The Market in Depth

ALLEN HARRIMAN

Virtually every segment of the market is reflecting strength in current teletype trading. Not only are the usual areas (commems, "type" and gold) on the minds of buyers—but now silver dollar rolls and singles, proof sets, BU rolls, cire type coins and even Canadian material are getting into the act! Bidders tumble over one another to exhibit their "want lists"—and only a relatively small portion of the demand is being satisfied.

Proof sets are beginning to inch forward; dealers and investors want to pay "bid" for one hundred set lots—but most sellers have a different idea now than they had a few weeks ago and they are holding out for higher prices. It hasn't been very long since buyers of proof sets could almost "name their price"—but the shoe may soon be on the other foot! Trading, at this point, has been only moderate since buyers and sellers often remain a few cents apart in their negotiations.

Buying lists are also showing a tendency to lengthen when it comes to BU rolls. From Lincoln cents thru Franklin halves—and especially Morgan and Peace dollars—dealers are trying to pick off their (or their investors') favorite dates. Earlier dates seem to be of the most interest—but those popular low mintage issues in the 40's and 50's are also receiving bidder attention. Although often still in the "bargain hunting" category, such rolls as 1950-D Jeffersons, 1955-PDS Roosevelts, 1946-S, 1947-S and 1955-D quarters are appearing more and more frequently on buying lists. The earlier rolls—mostly pre-1941—are far more elusive and for these issues dealers are considerably more generous in their attempts to buy.

Heading activity in the roll market are the Morgan and Peace dollars. (Most dealers, however, are willing to accept choice BU singles at "pro-rated roll prices"—since finding the rolls they want is nearly an impossible task). Bidding is particularly strong for the San Francisco issues from 1883 thru 1935—with bid levels now advancing as much as \$50 or \$75 in a single week. These substantial hikes in the prices dealers are willing to pay have not resulted in many sales—this is simply due to the fact that choice original rolls of these silver dollars are not available. This is not to say that they don't exist. Although most rolls have been broken up over the years, some "ol' time" investors—and a few dealers—certainly have a few choice rolls socked away. Getting them out into the marketplace is the challenge—and, to be honest, would you sell an original roll of 1899-S or 1924-S or 1935-S dollars if you had them at the bottom of your safe deposit box?

### This Week's Market

**CENTS:** Gains continue—especially for the earlier rolls. Sales have been only moderate due to the fact that nice rolls are not easily located. The 1972/72 double die Lincolns trades around \$72.50.

1935S - Bid moves up this week to \$80

1938D - Bid now \$55; 1938S - Bid now \$75

1950P - Under-rated—bid is \$13.50

**NICKELS:** Another batch of plus signs has been recorded by the Buffalo rolls—several transactions have been noted at this week's higher levels. Prices are moderately mixed for the Jeffersons. In the area of "type", really choice BU Shield nickels are few and far between—bid is now in the \$35-\$38.50 range—look for higher prices!

1935P - Bid now \$130; 1935S - Bid now \$225

1936D - Sales registered as high as \$130

1937P - One or two choice rolls have traded at \$200!

1939S - Bid now \$295; 1943D - Bid now \$110

**DIMES:** The "large size" Bust dime (1809-1828) is still very underpriced—even at this week's higher bid of \$625 (original BU specimens are very rarely offered on the teletype circuits); the Roosevelts register numerous advances—many are quite substantial.

1949P - Transactions as high as \$250

1949D - Transactions as high as \$135

1949S - Bid now \$435; 1950S - Bid now \$265

**QUARTERS:** The earlier Washington rolls (1934-40) are again enjoying bidder attention—most are infrequently available. Liberty Standing quarters are beginning to catch up with other "type" issues—with "full head" common dates trading now around \$45 and ordinary strikes around \$28-\$29.

1937D - Often termed a "real sleeper" at only \$300 bid

1939P - Bid now \$110; 1940P - Bid now \$125

1955D - Bid for in quantity—but only at \$75

1958P - Still slipping; now in the \$34-\$36.50 range

**HALVES:** Collector demand in prompting dealers to offer substantial prices for gem BU early Walking Liberty halves; even the "plentiful" dates are quite elusive—and the really tough issues are practically never seen on the tapes. Bid and ask levels are virtually unchanged for the W.L. and Franklin rolls.

**DOLLARS:** This is now one of the most active areas of the market—with "S-mint" rolls and singles leading the way! Long buying lists regularly appear and most requests for choice material go unanswered.

1883S - This rare roll is now bid at \$1500

1885S & 1887S - Both are bid for this week at \$310

1886S - Bid now \$700; 1888S - Bid now \$710

1899S - "Want lists" include this one at \$1375

1924S - Bid now \$850; 1925S - Bid now \$410

1927S - Up \$50—with bids at \$775.

**PROOF SETS:** The 1936-42 issues all register higher bid levels (as usual, choice spot-free sets are rather difficult to locate). Interest in the 1954-64 sets is quite evident; buyers want one-hundred set lots—several at slightly stronger prices. The later "S-mint" issues, however, are plentiful within current bid-ask ranges. 1970 mint sets are recorded in the \$14-\$15 range—with sales noted at \$14.50.

**COMMEMORATIVES:** Plus signs are again numerous. The Oregon issues—together with the more high powered dates—continue to pace the silver series; eight of the eleven gold pieces reflect further gains.

Grant-with star (half) - Bid now \$210; choice specimens fetch \$225

Hawaiian - Bid now \$540; Pan-Pac (half) - Bid now \$165

Oregon sets - 1938 bid at \$90; 1939 at \$165

Lewis & Clark gold issues - 1904 bid at \$565; 1905 at \$485

Pan-Pac \$2½ gold - Setting new records at \$550 bid

 This coin is just as scarce as the  
 Type II \$1.00 gold piece in Choice  
 BU fully struck condition. How  
 many have you seen? Not many,  
 I bet. Six months back Type II  
 \$1.00 gold pieces were \$600; now  
 look at them—\$1,200 and not  
 many available. I believe the  
 Type II 3c silver is just as scarce.

## COMMEMS ARE ON THE MOVE AGAIN! Short-Lived Designs In The Type Coin Market Top Buyer "Want Lists"

### The Market in Depth

ALLEN HARRIMAN

Silver commems are again on the "very active" list. Dealers are in the mood to buy up to ten pieces of numerous individual issues and PDS sets--as well as fifty piece type sets and complete 144-piece collections. Led by the Oregon Trail issues, price hikes are thoroughly scattered across the chart--and moderate sales during the week have far from lessened buyer interest. In addition to the Oregon series, both the BTW and WC sets are again awakening--and such "toughies" as the 1938 and 1939 Arkansas sets, the 1935/34, 1937 and 1938 Boone issues and the 1938 Texas set are eluding most bidders. All in all it appears that the silver commems are about to enjoy another round of serious buying. An \$8000 price tag for a complete set in gem condition may not be far away!--remember when, not so long ago, quotes of \$5000 seemed a bit too optimistic?

In the area of "type", investors are zeroing in on the one-year-of-type issues--with only slightly less attention being paid to the two or three year designs. Actually there is a large number of these short-lived types in U.S. coinage (even when one excludes the pre-1800 issues which are very rare in choice BU condition). Beginning with the 1859 Indian cent there are six one-year-of-type coins--and all six have registered further gains this week. The "arrows & rays" quarter and half and the "no drapery" half are among the most sought after of all type coins in today's market.

If one disregards the "proof only" twenty cent pieces and the pattern 1836 half, there are twenty U.S. coin designs after 1800 which were minted for only two or three years. From the Flying Eagle cents thru the "with arrows" halves of 1873-74 choice examples are increasingly difficult to locate. Some of the prices being bid at major auctions for "superb, flawless specimens" of "unimprovable quality" are startling to say the least. Only this past weekend, anxious bidders were paying \$150 for gem 1917-P (type one) quarters in an auction of major national importance! New price records are being set month after month at these auctions--and collector/investor demand is increasing--not diminishing--with each new record selling price!

A year or so ago, the "no drapery" half dimes and dimes were selling at only a small premium over the price for the regular "stars obverse" pieces. Today bids are fast approaching a level which is double that of the price for the relatively plentiful later issues. As far as the "no drapery" quarters and halves it is impossible to tell just how high bids will have to go in order to bring a few gems onto the marketplace--these are both rare coins. "Arrows & rays" quarters and halves are now almost unavailable except at an important auction or on the bourse tables of a few major dealers (and prices in the \$750 and \$1500 range for the quarter and half respectively would be "conservative").

This scarcity of choice BU coins representing the short-lived designs is leading, of course, to the inevitable problem of over-grading. A coin that is AU--or a "slider" at best--becomes BU if it has no drapery, arrows, or arrows & rays! Even "slider" 1917 (type one) quarters are finding their way into selling lists of choice BU type material. The collector or investor who is paying today's prices for type material--particularly specimens of these one, two, or three year of type--should take "one more look" before purchasing. Buying a "slider" (or a "whizzed" coin) is easier than selling it--and far too often a coin that is bargain-priced is no bargain at all!

### This Week's Market

**CENTS:** The one-year-of-type 1859 Indian cent trades as high as \$125 in BU condition--and dealers offer \$150-\$165 for "superb specimens". Original BU rolls of common date Indians regularly appear on "want lists"--but they are seldom available. BU Lincoln rolls are nearly unchanged in light trading and the 72/72 double die is steady around \$70 bid.

**NICKELS:** Gains outnumber losses in the Jefferson series; the Buffalos are firm after last week's increased activity. The "no drapery" half dime is on the move--and still has a long way to go (bid this week is \$90--and extraordinary pieces will fetch considerably more).

1939S - Choice rolls are now bid at \$300  
1942S - Transactions registered at a higher \$110  
1943D - Up \$5; bidders now offer to pay \$115  
1950D - Scattered sales in the \$280-\$295 range

**DIMES:** Buyers offer \$36 for any BU Mercury roll--but sellers are reluctant to part with them at that level. The "key" Roosevelts again advance--with the BU roll set bid this week at a higher \$2150. "No drapery" dimes are unavailable to bidders at \$117.50--and the large size Bust dime is now receiving bids of \$650.

1949P - Bid now \$250; 1949D - Bid now \$150  
1949S - \$440 is offered; sellers are few and far between  
1950S - Sales at \$265; 1951S - Bid now \$205

**QUARTERS:** The "no drapery" issues of 1838-40 are very rarely encountered in choice BU condition--current bids of \$465 produce no results; the "arrows & rays" version (1853) is also in great demand at \$400 bid. Washington rolls are lightly traded--with the pre-1941 issues of most interest to investors.

1937D - Bid this week at \$305; none offered  
1940S - Buyers want ten roll lots at \$150 per  
1959P - Strongly bid at \$14.50; this one once hit the \$20 mark!

**HALVES:** Bidders now list the tough 1941-S Walking Liberty roll at \$560--but so far higher bids have failed to pry loose the desired rolls; choice BU "short sets" of W.L. halves trade around \$175. "No drapery" halves (1839 only) in BU condition are quite rare; bids of \$900 appear futile.

**DOLLARS:** Common date BU bags--as well as cire bags--are wanted by a number of dealers. In addition, of course, the better dates in both series remain on many buying lists.

1888O - Now in the \$82-\$86 range  
1892S - This rare single is now bid at \$3000  
1893S - By far the toughest Morgan--bid at \$5750--and very seldom seen  
1899S - Still moving; rolls are now bid at \$1400  
1904O - Considerable interest; sales recorded at \$70

**PROOF SETS:** Several dealers continue to ask for quantities--especially of the bargain-priced 1956-64 sets. Sellers now usually list their holdings at levels just above current bids--so transactions are widely scattered. The 1970 mint set is stronger this week--in the \$14.75-\$15.25 range.

**COMMEMORATIVES:** Quite active--plus signs again invade the silver series; the gold pieces relax--with an occasional complete set offered for sale around \$3150.

Lafayette dollar - Bid reaches the \$250 mark

Antietam - Transactions noted around \$95

1935/34 Boone PDS set - Bid now at \$275

1938 Boone PDS set - Bid now at \$250

Oregon issues - Eleven gains--see page two!

## DOLLARS JOIN THE MARKET UPSURGE Choice Type Coins Mark Scattered Gains

### The Market in Depth

ALLEN HARRIMAN

Possibly for the first time ever on the teletype circuits, dealers are running buying lists which include every date in the \$20 St. Gaudens series. From time to time, of course, "want lists" have included numerous dates in this series--but collector and investor interest has now made it necessary for dealers to attempt to stock all dates in this and other later issue gold series. At this point, bid prices vary considerably from dealer to dealer. It actually takes several months of active trading in any series to establish generally accepted price levels as a base to work from.

Prices currently being may differ as much as \$15-\$25 on a coin in the \$125 range--and as much as \$200-\$500 on a coin that is valued in the thousands. As an example, one dealer will currently pay \$100 for a choice BU 1914-P \$20 St. Gaudens--and another dealer is simultaneously offering \$120 (neither, by the way, have been very successful). The 1924-D issue is receiving bids anywhere from \$175 to \$225; the 1925-D from \$450 to \$525; the 1932-P from \$2200 to \$2750! The CDN will give readers a complete accounting of prices for all dates in this newly active series as soon as our staff has been able to compile a reliable listing.

With the strong interest currently being shown for the St. Gaudens twenties, it is obvious that the Indians won't be far behind. Already, of course, the "keys" in the \$2½, \$5 and \$10 series are appearing on many buying lists--and many dates which may well prove to be "sleepers" are now of interest to a number of far-sighted dealers and investors. Several issues--especially in the \$5 and \$10 series--currently carry catalog values that are only slightly ahead of the common date prices--but they are actually many times more scarce in truly BU condition. The 1911-D issue in both series, as an example, lists at \$225--and until recently was occasionally available around \$175. Finding even one choice piece is now quite an undertaking--and this could well be one of those dates that dealers will talk about a year from now when they are "remembering when"! The wise collector/investor looks ahead, checks auction records, selling lists, etc.--and is already "in the know" when a "sleeper" wakes up--and with a little luck he may be able to accumulate a small hoard of choice pieces before prices change drastically. This process worked for many when they were checking out the 1921-P Mercury dime at \$250-\$300--or the 1913-P quarter at \$100--and it will work in the various gold series!

### This Week's Market

**CENTS:** Choice type cents continue to dominate this area of the market. Mint Sate-70 (full original mint red) Large cents and Half cents are in demand at higher levels. 1859 Indians are virtually unavailable in Gem BU at a higher \$125.00 bid. BU Lincoln rolls are nearly unchanged. The 1972/72 double die remains at \$70.00 bid.

1960 sm date - Several sales at a lower \$102

**NICKELS:** The "no drapery" half dimes in highly sought after, with few prices offered. Bids of up to \$150.00 for "flawless MS-70" coins have resulted in few sales. Jeffersons, as with Lincolns, are relatively quiet in lack-luster trading.

1939S - Up again. Bid now \$305

1943 - Scattered sales at a higher \$38.50

**DIMES:** Choice BU rolls of Mercury dimes are wanted, but all within current levels. Virtually every date of early singles (1916-1931-PDS) appear on "want lists". There are however, very few pieces offered--usually at a top price. Early type dimes, large and small bust dimes, and the "no drapery" are desired--but seldom offered at any price!

1949D - Bid this week at \$152.00; none offered

**QUARTERS:** Better date singles of Washington quarters are in demand by several dealers. However, only the occasional "bargain" changes hands. Past-1941 rolls are lightly traded. Liberty Seated quarters continues the type coin upsurge. Every type is in demand, especially the "no drapery" and the 1854-55 arrows. At major auctions throughout the country these coins continually bring as much as double bid! Certainly they still have a long way to go.

"No drapery" quarter - Bids of \$475 or more have produced not a single coin  
No motto quarter - Bid moves to \$130

With motto quarter - Sellers remain unactive. Bid now \$120

**HALVES:** Choice BU rolls of common date Walking Liberty halves are in demand--but higher bids of \$98 have created few transactions. Has anyone every owned a gem BU "No drapery" half? At any price, this coin has not been offered for years on the teletype circuit. The owner of this coin could "name his own price" and probably sell it immediately.

1941P, 1942P, 1943P, 1944P, 1945P - All sought after at a higher \$98 bid  
1941, 1947PDS - Short sets desired at \$175

**DOLLARS:** Almost as active an area of the market as type coins. BU Morgan bags are unavailable at \$3300.00 bid. Every date of the Morgan series appears on want lists--but only the commonest dates are offered. As with type, gem specimens fetch far in excess of bid. As an example, an original ½ roll of 1927-S dollars described as "fully struck BU" traded at an astronomical \$500.

All common dates now bid \$66.00

1888O - Wanted at \$85 bid

1903S - A tough date to find in BU - moves to \$475

1927S - Sales at \$50

**PROOF SETS:** Quantities of 1960-1963 sets receive active bidding. Sellers remain reluctant to dispose of their holdings at this level. The 1970 mint set unchanged in the \$14.75-\$15.25 area.

**COMMEMORATIVES:** Very active market. The Oregon issues advance again, with few sales resultant. Boones, Cincinnati and other scattered issues advance on light trading. Gold commems still strong--a few sets trade ownership at \$3150.00.

### The Market in Depth

GUEST COLUMNIST MALCOLM VARNER

One question many dealers, and collectors as well, have been asking is "when will it all end?" Is the coin market as strong as it appears, or are choice coins being pushed too high on enthusiasm? It is of course impossible to give a final answer to these questions; only the passage of time can fully solve them. But we all should attempt an answer, as this will determine the direction of our collecting, investing, and dealing habits for the next few years.

Relevant to this problem is the strength of the U.S. economy. Many leading economic advisors are predicting a "three to four year" boom in sales, profits and wage increases. This strength was recently reinforced by a decrease in inflation rates and the breakthrough in the Dow Jones averages. All of these indicators mean there is more money available to collectors and investors. It is the increase in this money supply, coupled with the genuine scarcity of choice material which leads to the conclusion that the market in gold, rare singles, early type, and silver dollars is headed not for a bust, but for perhaps several more years of steady increases.

In the boom of 1963-1965 speculation and manipulation of BU rolls directed the market. When the manipulations ceased, prices plummeted. Not so is the case with today's market. Bags of proof Barber quarters and halves don't exist. Rolls of BU seated dimes, quarters, halves and dollars if they ever did exist, are long since broken up for individual sales. There is no hidden quantity of gem material overhanging the coin market. Most dealers will attest to the fact that MORE choice coins are available this year than last, yet there is still a greater demand than the supply can furnish. It would seem probable that as long as the collecting fraternity continues to collect the "Classics" of numismatics, prices will remain on an upward spiral.

The Coin Dealer Newsletter staff would appreciate any comments and opinions you may have regarding these questions.

### This Week's Market

**CENTS:** BU Lincoln rolls remained quiet in light trading. Only the "staples" such as the 1960 small date, changed hands—all within current levels. MS-70 Large cents, Half cents and Flying eagles continue to appear on many want lists. The 1972/72 double die is unchanged at \$70.00 bid.

**NICKELS:** Wartime Jefferson nickel roll sets highlighted moderate trading in the nickel market. Dealers are actively seeking sets in the \$725-\$750 range. This set once brought over \$1200, and there considerable room for price advances. The "no drapery" half dimes are unavailable to bidders in choice BU condition.

Wartime Nickels - Bid moves to \$740

**DIMES:** Common date Mercury dime rolls highlighted this area of the market. Quantities of 1943-P, 1944-P and 1945-P are sought after. The "no drapery" dime has joined the half dime, quarter and half on the "most wanted" lists. Bids of up to \$150.00 for choice MS-70 coins have failed to produce a single piece!

1943P, 1944P, 1945P - On "want lists" at a higher \$38.00

1955S - A few rolls needed at \$16.00

**QUARTERS:** Virtually every date of early Washington quarters regularly appear on want lists. However, bidders seem content with offerings at current price levels. Seated quarters and Barbers persist in their upward climb. See type coin chart for changes.

1943P - Strongly bid at \$68.00

1953S - Slips to \$43.50 ask

1955D - Several rolls offered at a lower \$75.00

**HALVES:** BU roll sets of Franklins are wanted—however, sellers are few. Walking Liberties—rolls, singles, and sets—receive active bidding at current levels. Buyers cannot fill their needs in this series due to the shortage of choice coins available.

1948D - Lower; bid now \$72.00

1953S - A small move to \$61.00

**DOLLARS:** The entire spectrum of Morgan and Peace dollars are on buying lists. BU bags are priced in the \$3500.00 range and even at that price, only a few are offered. Better singles in gem condition are impossible to locate at any price near "bid"

18790, 18880 - Not as plentiful as imagined. Both move up  
1894S - Sales at \$75.00  
19000 - Quantities desired at a higher \$73.00 bid  
1904S - Unavailable at \$210

**PROOF SETS:** It's the "Proof Set Season" and price advances are plentiful. Retail sales for the holidays have affected proof set prices—and interest—drastically. The 1970 mint set is unchanged in the \$14.75 to \$15.25 area.

1936 - Highly desired at \$820.00

1961, 1962, 1963 - All move to \$3.20 bid

**COMMEMORATIVES:** Numerous gains on active bidding. See page two!

## WASHINGTON ROLLS JOIN MARKET UPSWING

### "Type" Registers New Round Of Gains; Buyers Still Encounter Difficulties

## The Market in Depth

ALLEN HARRIMAN

In welcome addition to the usual areas of activity--"type", commems, dollars, etc.--Washington quarter rolls are suddenly on the minds (and "want lists") of numerous dealers. Not only does this revived interest in quarters include the earlier more elusive issues--but now also a great many dates in the 1941-55 range. The "key" later roll is, of course, the 1942-S issue--and bids this week of \$600 have not resulted in even one sale (this is up \$50). Most other dates--especially those with mintmarks--can be quite difficult to locate when serious bidding starts. The 1942-D roll, for instance, has been known to shoot up to the \$150 area when a little pressure is applied. Nearly all dealers have their "favorites" in the quarter series--and the "D" and "S" issues between 1941 and 1945 are usually on their lists! By the way, single BU "short sets" certainly look like a good buy in today's price range of \$93-\$98--just make sure there aren't any "sliders" included.

Even though we discuss "type" week after week, it would be very difficult to ignore the thrity plus signs recorded in the BU type coin chart this week--or, for that matter, the additional nine gains which have been registered by proof type coins! Dealers spend hours making up and running extensive buying lists for "type"--yet they have to be content with only an occasional purchase. And on top of this general scarcity of choice material, the few dealers who have long been known for their extensive stock of type coins are now nearly out of material. Some buyers are hesitant to raise bids higher each week--explaining that they have very little expectation of locating the coins they need regardless of the amount they offer to pay. This is true--at least in part--because a coin that is unavailable at today's bid may be unavailable at virtually any price--such as the "no drapery" half dollar of 1839. Offering \$2500 for a gem specimen will probably prove as futile as is the current bid of \$1000!

In other areas, silver commems top many "want lists"--proof sets are strong with a few gains recorded--and silver dollars continue their forward march. It is a very active pre-Christmas market--and indications are for more of the same come 1973!

## This Week's Market

**CENTS:** The 1972/72 double die Lincoln is lower--with a roll or two trading in the \$3000-\$3100 area (BU singles are usually priced around \$65); a few of the earlier rolls--and several late date bags--are in demand. "Want lists", of course, continue to include "type" cents:

Flying Eagles - Sales in the \$150-\$160 range

Copper-Nickel cents (1859) - Choice pieces are few and far between at \$125 bid

Copper-Nickel cents (1860-64) - Up--with bids at \$28

Indian Head cents - Gem common dates trade as high as \$14

**NICKELS:** The "no cents" Liberty nickel registers transactions at \$13--a record for this "common" coin (which isn't as plentiful in strictly choice condition as has been assumed). Both the Buffalo and Jefferson series are steady in light trading; the Wartime nickels (both single sets and roll sets) continue to enjoy buyer interest at current levels.

**DIMES:** The 1949-D Roosevelt roll has traded this week at a record-setting \$175 (other dime rolls remain basically unchanged). "Type" dimes move ahead as follows:

Bust dimes (large size) - Bid now at \$750; virtually impossible to locate

S.L. dimes (no drapery) - In the \$135-\$150 range

S.L. dimes (arrows, 1853-55) - Sales as high as \$190

S.L. dimes (arrows, 1873-74) - Bids of \$210 fail to produce results

**QUARTERS:** A \$50 advance in the bid level for the 1937-D roll leads the impressive rash of gains which is peppered across the Washington series. Check page five for the many substantial increases which have been reflected in the BU and Proof "type" charts for quarters.

1939P - Bids are now recorded at \$120

1941PDS - All three rolls show gains

1942S - A very tough date; bids of \$600 are unsuccessful

1943PDS - Three more rolls on the plus side

1945S - Sales at \$41.50; 1947P - Bid now \$37

**HALVES:** Christmas buying of single BU sets of W.L. and Franklin halves have been noted at \$180 and \$150 respectively--the rolls are almost completely unchanged. As usual, bids are up for "type" halves--and, needless to say, choice pieces are seldom available on the circuits.

Bust halves - Bid reaches \$150

S.L. halves (no motto) - Choice pieces trade as high as \$175

S.L. halves (arrows, 1854-55) - In demand at \$250

S.L. halves (with motto) - Bid also reaches \$150

Barber halves - Up another \$5; truly BU specimens are hard to find--even at \$215 bid

**DOLLARS:** Strong buyer interest continues to advance bid levels--for scarce

singles, scarce rolls and common dates. Bidders now offer as much as \$3300 for Morgan bags (no 21's, of course) and \$2950 for Peace dollar bags. Some tough singles move ahead as follows:

1889CC - At least one sale at \$1100!

1892S - Bids registered at \$3500--none offered

1893S - The bid is now \$6000; a "gem" would fetch much more

1934S - Traded during the week at \$360

**PROOF SETS:** Buying lists include all dates from 1936 thru the current S-mint sets; most of the 1955-67 issues are wanted in quantity--and the 1936-42 sets are in demand in strictly flawless condition. 1970 mint sets are firm around \$15.

1936 - Up another \$20; bid now \$840

1937 - Sales recorded at \$335--not often available in gem condition

1955 (F.P.) - Quantity transactions at \$18

1961, 1962 & 1963 - Wanted by the hundred around \$3.25

**COMMEMORATIVES:** As active as ever; bidders will gladly pay "ask" for choice pieces.

**THE COIN DEALER NEWSLETTER**  
reports the national coin market as it  
closed Friday afternoon. Under the pre-  
sent system, it is impossible to monitor  
all transactions or offers to buy and sell,  
but the broad information sources of the  
Newsletter make it a very accurate reflec-  
tion of the market.

**INVESTORS NOTE:** the price in the  
Newsletter are from dealer-to-dealer trans-  
actions. As an investor, you may place  
your buy and sell orders through a dealer  
for a fee, as you would buy stock through  
a broker.

### FOR SALE

A numismatic prize---a very choice original well-struck BU 1852-P S.L. Half; if the Redbook admits the coin is worth \$375 in UNC, then it is certainly a bargain for the serious collector at \$500!

Another super coin---1889-S Morgan with original light halo toning; virtually free of marks and fully struck---\$50.00

How many fully-struck 1929-D Buffalos have you seen? I have two---choice pieces and quite under-rated in this condition \$22.50 each

1955/55 Lincoln---a fully iridescent redish brown original UNC coin (not a slider); the kind of coin many dealers would dip and call a "gem BU"---strictly choice---\$275

Have you ever seen a high-grade 1934-P double motto quarter? Teletype bidders will pay \$250. \$300 for a gem BU---this one is strictly AU (can't call it UNC---but many would) and a bargain at--\$85

**EAST COAST COIN EXCHANGE** proudly announces for 1973 a unique and specialized service for coin dealer, investors and traders.  
**BELOW WHOLESALE LOTS:**

We recently purchased two dealers' entire stocks of better U.S. coins and now offer the following **BELOW WHOLESALE** lots at **80% BELOW WHOLESALE PRICES!** If you need a small or large stock of nice U.S. coins for retail or investment purposes at a price that will allow you a large margin in sales activity then try doing business with ECCE.

The stock we have consists of: half cents through silver dollars, keys and semi-keys, very nice high grade types, UNC and BU coins, gold, commemoratives, rolls, proof sets and currency. You must be satisfied. **UNCONDITIONAL MONEY BACK GUARANTEE!** If you need only a particular series of coins (i.e. Large cents, Indians, Lincolns, etc.) let us know and we will try to have your order consist of the material you need most, although we can not promise.

We are very proud of the fact that no dealer or investor has ever returned one of our lots. ECCE is a rapidly growing firm and we are anxious to please all of you. Don't be surprised if in addition to receiving better coins, accurate grading and **BELOW WHOLESALE PRICES**, you also receive a bonus for your first order!

## GOLD, COMMEMS, DIMES & QUARTERS! No Issue Next Week; Merry Christmas To All

### The Market in Depth

ALLEN HARRIMAN

If the silver commems appeared active last week, check over this week's prices on page two! Fifty-six plus signs are the result of bidders tumbling over each other in their attempts to locate enough commems to fill current orders. Apparently stocking up is almost out of the question; most dealers have "want lists" that are far more extensive than even this week's very heavy bidding can supply. One dealer stated that he alone had several customers who were working on complete 144 piece sets--and that one of these collectors was working on three sets simultaneously!

No complete sets of commems have been offered for sale in many weeks--but, along with virtually all singles, bidders are in the market for fifty piece "type" sets (bid is now about \$3500) and complete 144 piece sets (which are now receiving bids in the \$7300-\$7500 range). And it wasn't very long ago that the \$8000 price tag seemed at least a couple of years away--but today's retail price has already reached this mark!

The very active Washingtons (which are up even more substantially this week than last) have been joined by practically every date in the Roosevelt series (thirty-nine plus signs this week!) Although buyers are picking up a few of the rolls they want, they are not locating most issues in the quantities desired. In the Washington series, for instance, dealers want one to ten rolls of the high powered dates (1941-D & S, 1942-S, 1949-P), one to twenty rolls of the medium priced dates (in the \$25 to \$100 area) and up to one hundred rolls of such lower priced rolls as 1953-D, 1954-P & D, 1956-P & D, etc. This same ratio holds true, for the most part, in the Roosevelt series.

This week's gains in Roosevelts and Washingtons has pushed the BU roll set prices to considerably higher levels. No roll sets have been listed for sale--but the latest bids are \$2300 for the dimes and \$3750 for the quarters!

NOTE: In keeping with the long established CDN policy, THERE WILL BE NO ISSUE DURING CHRISTMAS WEEK. Your next issue will be dated December 29--and will contain some very interesting figures on the progress made during the very active year of 1972!

### This Week's Market

**CENTS:** Roll prices are mixed; trading remains light to moderate (several dates prove elusive to higher bids). Gem BU Indian Head cents trade during the week as high as \$15--the 1972/72 double die Lincoln is steady around \$65 ask.

1934D - Up to \$245 bid; 1935S - Bid reaches \$82

1939D - A sale or two registered around \$90

1960P (sm) - Somewhat stronger; sales at \$105

**NICKELS:** Changes are of a minor nature in the nickel rolls--but "type" is in demand!

Shield nickels (with rays) - Bid now at \$100

Liberty nickels (no cents 1883) & Buffalo nickels (type one, 1913-P) - Both are wanted by the "original roll"; neither is available

**DIMES:** A major upsurge has been recorded by the Roosevelt rolls--with practically every date in the series enjoying a plus sign! Bids for the individual rolls from 1946 thru 1972 total \$2373. One dealer, by the way, will buy up to 100 circ roll sets at \$350 per!

1949P - Up \$20--with bids at \$270

1949D - Transactions at a still higher \$180

1949S - Bid now \$450; 1950S - Bid now \$280

**QUARTERS:** The bids for the individual rolls from 1941 thru 1972 now total an impressive \$3857.50! Gains this week are even more substantial than last; a few of the changes are:

1941D - Up \$25--at \$250 bid

1941S - Bid reaches \$220; none offered for sale

1942S - Another \$50 gain; bids of \$650 fail to produce even one roll

1943S - Bid now \$160; 1944S - Bid now \$105

1949P - Very difficult to locate; bid at \$220

1949D - A \$15 advance--with bidders now offering to pay \$100

**HALVES:** In the face of extremely active bidding in the dime and quarter series, half dollars remain strangely quiet--this could be the "lull before the storm"--so keep a close watch (especially on the better Franklin rolls!)

**DOLLARS:** Bidding is frantic for better date singles in strictly gem condition. The few specimens which are offered for sale are generally priced well ahead of even today's record market. Rolls, too, are forging rapidly ahead--with solid date BU Morgan bags bid as high as \$3500!

1878 - All five issues record gains

1888O - Transactions at ask of \$110

1890 - Bid now \$215; 1890O - Bid now \$190

1892CC - Watch this one; bid this week at \$1375

1897P - Sales at \$105; 1897O - A record bid of \$900

1899S - Impossible at \$1500 bid

1903O - Up \$25; bidders offer to pay \$525

1921D - Transactions as high as \$130

1927P - Bid now \$415; 1927D - Bid now \$610

**PROOF SETS:** Only a few small gains--but buyer interest is still quite evident for both choice early sets and quantities of later dates. The 1970 mint set is trading around \$14.50

**COMMEMORATIVES:** Phenomenal demand pushes prices to new record levels--yet dealer "want lists", for the most part, remain unfilled. Many bidders want from five pieces to a roll of many issues! Gains are far too numerous to list here--check page two.

# BU 1888-O DOLLARS

We have them in stock ready for immediate delivery.  
 A SLEEPER COIN . . . In our opinion scarcer than the  
 1889-O and 1890-O dollars in BU condition. We expect this  
 roll to be selling in the \$250-\$300 range within 2 years.  
 The Forecaster has recently recommended this coin  
 for investment.

We have been fortunate to acquire 104 rolls of BU 1888-O  
 dollars. All coins are choice frosty original BU. Absolutely  
 no sliders. We offer to sell as follows:  
 1 roll-----\$125.00 postpaid  
 10 or more rolls-----\$120.00 per roll postpaid  
 50 or more rolls-----\$115.00 per roll postpaid

We have these in stock ready for immediate delivery.  
 Sold on a first-come, first-served basis. We strongly recom-  
 mend a phone call to reserve yours now.

## A REVIEW OF 1972 One Active Year Draws To A Close; Another Begins!

### The Market in Depth

ALLEN HARRIMAN

With this last issue of 1972 we will attempt to give our readers a concise review of this very exciting numismatic year. Prices in virtually all areas have advanced impressively--and, in some segments of the market, bids have moved to unprecedented (and sometimes, undreamed of) levels. So let's begin with--

**CENTS:** In "type", gains are quite substantial. Both half cents and large cents (in MS-70 condition) have registered approximate 100% increases since January; Flying Eagles have moved from \$92.50 bid to \$155 and 1859 Indians from \$67.50 to \$125! Common date Indians were bid at \$7 in January--and now some dealers are happily paying as much as \$15 for gems!

The BU roll set of Lincolns (1941 to date) was bid at \$570 in January (by the individual roll); the total of the roll bids is currently \$830--a gain of about 40% in an area which is overlooked by many investors. Many of the single BU rolls have recorded even more exciting advances: 34-D (\$175 to \$245), 35-S (\$53 to \$82), 38-D (\$29 to \$58), 38-S (\$35 to \$80), 39-D (\$57 to \$83), 41-S (\$32 to \$65), 42-S (\$75 to \$132.50), 46-S (\$4 to \$11) and 51-P (\$13.50 to \$38).

**TWO-CENT and THREE-CENT:** Two-cent pieces have moved from \$25 to \$55 bid (up 120%) in BU condition--and three-cent nickel pieces from \$18 to \$25 (about 40%). Type "one" and "three" issues of three-cent silver series have both gained 50% (from \$45 to \$67.50 bid). It is the type "two", however, which has startled dealers and collectors alike--moving from a bid of \$60 in January to \$265 in December (up 340%); some dealers, by the way, will pay as much as \$325-\$350 for superb specimens!

**NICKELS:** Buffalo nickel rolls from 1934 thru 1938 have registered an average gain of 19%; the Jefferson roll set is virtually unchanged at year's end--even though the Wartime roll set has moved from \$650 to \$745 bid.

Shield and Liberty nickel types have gained an average of slightly less than 25%; this coming year could be very interesting for these issues--especially the scarce "with rays" nickel of 1866-67. Advances, on the otherhand, have been quite substantial for half dimes: the Bust type has moved from a bid of \$67.50 to the present \$135 and the "no stars" version from \$185 to \$245. Most spectacular have been the "no drapery" type of 1838-40--from \$40 to \$120 (a 300% gain!)--and the "with arrows" issues of 1853-55--up to \$110 from \$52. Common date Seated Liberty half dimes gained an average of about 65% during the year.

**DIMES:** The Mercury rolls have been active during 1972--especially the 1934-39 issues. The 34-P roll is up 50% (from \$280 to \$425); the 35-S has moved from \$240 to \$350 and the 36-S from \$175 to \$300. Both the 37-D & S rolls have advanced to \$250 from the \$170 area--and the single set ('34-'45) is now at the \$130 bid level as opposed to the \$95 bid in January.

The Roosevelt roll set is up about 42%--the bid was \$1650 at the beginning of the year and is currently \$2350. Some of the individual pace-setters were the 49-P & D, 50-S and 51-S rolls--all registering gains in the \$75-\$100 range.

In some instances, "type" advances in the dime market have been nothing short of amazing. Here is a complete run-down:

- Bust (large size) from \$185 to \$750 bid (305%)
- Bust (small size) from \$140 to \$400 bid (185%)
- Seated Liberty (no stars) from \$275 to \$575 bid (109%)
- Seated Liberty (no drapery) from \$65 to \$150 bid (130%)
- Seated Liberty (stars obv.) from \$40 to \$65 bid (62%)
- Seated Liberty (arrows, 1853-55) from \$60 to \$180 bid (200%)
- Seated Liberty (legend obv.) from \$32 to \$60 bid (87%)
- Seated Liberty (arrows, 1873-74) from \$145 to \$215 bid (48%)
- Barber from \$19 to \$40 bid (110%)

**QUARTERS:** The roll set of Washingtons was bid at \$3250 in January and is presently of interest to bidders at \$3850 (an 18% gain). Some of the high-flyers in the series were 37-D (up \$75), 41-D (up \$92.50), 41-S (up \$67.50), 42-S (up \$175), 44-S (up \$40) and 49-P (up \$35).

Led by the extremely scarce "no drapery" quarter (which is up 400% from \$95 to \$500 bid), "type" has thoroughly dominated quarter trading throughout the year. The "large size" Bust quarter is now bid at \$1000--it was only \$300 in January (an increase of 233%); the reduced size was receiving bids of \$260 at the beginning of the year--and is currently in demand at \$750 (up

about 190%). The "no motto" and "motto" versions are up an average of over 150%; the "arrows & rays" issue has moved ahead from \$340 to \$435 bid (up 28%) and the "arrows" type of 1854-55 is up an impressive 200%--from \$80 to \$240 bid! The 1873-74 "arrows" coin has soared a 40% increase--and Barbers have skyrocketed from \$41 to \$110 bid (up 175%)! "Full head" Standing Liberties (type one) are in great demand at \$80--the bid was \$45 in January.

**HALF DOLLARS:** Again, the "no drapery" issue is in the forefront of activity--with choice BU specimens bid at \$350 in January and at \$1000 in December! (It is doubtful if even one gem changed hands on the teletype circuits all year long!) Bust, reeded-edge and Barber halves all registered

## THE MARKET IN DEPTH (Continued from Page 1)

increases in the 85%-95% range; the "arrows & rays" issue is up nearly 100% (from \$450 to \$875) and the "with arrows" type of 1854-55 gained a spectacular 224% (from \$85 to \$275)! The "with arrows" coin of 1873-74 advanced from a January bid of \$250 to the current \$335 (35%).

Both the Walking Liberty roll set (1941-47) and the Franklin roll set have increased their bid levels by about 25%. Heavy bidding for the earlier Walking Liberty rolls—and such later dates as 41-S, 43-D & S—has pushed numerous individual roll prices proportionately even higher.

**DOLLARS:** Seated Liberty and Trade dollars have enjoyed strong demand throughout this very busy year. The "no motto" Seated Liberty dollar is up 108% (\$120 to \$250) and the "with motto" issue is close behind with a 92% increase (\$125 to \$240). Choice BU Trade dollars began the year with bids of \$95—and ended with dealers willing to pay \$175 (an 84% gain). It should be added that gem specimens which are virtually free of bag marks or abrasions will fetch considerably higher prices.

With one or two of the most minor exceptions, the Morgan and Peace dollar rolls report substantially increased bid levels in relation to the January figures. End of the year bidding is fast and furious and

indications are for continued strength—especially for gem singles of the really scarce dates. A few of the '72 headliners were 83-S rolls (\$680 to \$1600), 84-S singles (\$90 to \$180), 86-O rolls (\$300 to \$825), 99-S rolls (\$585 to \$1600) and the "common dates" 88-O (\$67 to \$107.50) and 1921-D (\$82.50 to \$130).

**PROOF SETS:** Proof sets have had a rather dull year. The earlier sets (especially 1936 & 1937) are up rather significantly at year's end—but otherwise prices are lightly mixed in relation to January levels. It should be mentioned that the 1951 set moved from \$60 to \$72—the year's biggest gainer in the later dates.

**COMMEMORATIVES:** The complete 144 piece commem set was bid at a total of \$5300 in January—compared to this week's bid of \$8100 (an increase of about 53%). A few of the outstanding issues were: Alabama 2x2 (from \$58 to \$160), Grant with star (\$90 to \$255), Hawaii (\$375 to \$630), Missouri 2x4 (\$120 to \$300), Missouri (\$115 to \$260) and the Pan-Pae (\$74 to \$180).

The eleven piece gold commem set registered an even greater 63% increase during the year—from about \$1900 in January to the December bid of nearly \$3100. The very tough 1904 Lewis & Clark issue moved from \$325 to \$565 and the Pan-Pae issue did even better by advancing from \$275 to a spectacular finish of \$560!

## THE BEST

Firstly, I want to thank some of THE BEST persons I know for making this year the best ever! Thanks  
"The Great Pumpkin" - Doug Robins  
"The Little Pumpkin" - Gene Sanders  
Jon, Patti and Chad Evans  
Dave Pigott  
Steve Ivy "Mr. Fashion" himself  
Lyn Knight  
Larry Hanks  
Brian, Tony and "Bubbah" Jenner  
That's the list for '72! "Special" message for all of the above:  
Who knows... maybe I'll grow up in '73!

THE BEST Here's a lil offering from our always "moving" stock.  
DEALERS: For 10% discount, please write on letterhead.  
MS-65 1909-S 1H 1c small insignificant cut on cheek ----- \$155.00  
AU-55 "Slider" 1858 3c silver. 99% lustre. Nearly fully struck.  
9 out of 10 would call "MS-60" ----- \$200.00  
AU-55 "Slider" 1833 1/2 10c. Apx. 85-90% lustre. Some rev.  
weakness as normal ----- \$ 80.00  
MS-60 1871-S 1/2 10c. Strictly mint-state and as such very  
scarce ----- \$ 80.00  
AU-55 "Slider" 1831 Bust 10c. 75-80% lustre. Sharply struck  
at only ----- \$185.00  
AU-55 "Slider" 1915-S 50c ----- \$150.00  
MS-60 1916 50c lightly toned around rim ----- \$ 95.00  
MS-65 1886-O \$1 FULLY STRUCK ----- \$ 60.00  
MS-60+ 1927-S \$1 FULL STRIKE ----- \$ 50.00  
MS-60+ 1928 Hawaii 50c. Undoubtedly one of finer ones on  
market at NET Bid+ ----- \$ 10.00
